

Newfoundland and Confederation.

Lord Morris of Hampstead, England, better known as Sir Edward... presented the opinion the other day... Newfoundland would within... years become a member of the... Confederation. What Lord... means probably is that the... Colony will be forced into... a Canadian province,...

Presentation Tonight.

PURSE OF GOLD FOR POPULAR OFFICER.

At the Maestic Theatre this evening a goodly number of the members of the Royal Newfoundland Regiment will assemble, the occasion being the presentation of a purse of gold to Lt. Col. Geo. T. Carty, who has recently received the appointment of Supt. of the opening address, Dr. J. A. Robinson will make the presentation, after which a short concert will be given. Ex-Serjt. John Robinson as songmaster and Mr. Ern Fox as pianist, the hour devoted to music will pass all too quickly. By permission of C.E.B. Band will be present. All veterans and their friends are cordially invited and will be expected to "Fall in" sharp on time.

Regatta of 1896.

MR. H. VINCOMBE'S JUVENILES MADE QUICKEST TIME FOR THE DAY.

Many of our readers will remember Mr. H. Vincombe's famous crew of juveniles, who carried everything before them in the Regatta of 1896. The crew rowed the Iris and made the remarkable time of 9.58%. This was the quickest time for the day, and the juveniles won the bonus. The following formed the Juvenile crew:—Chas. Lewis (cox); H. Vincombe (stroke); W. Brien, J. Lewis, J. Paddigan, P. Byrne, P. Whelan. A famous oarsman of the time, Mr. J. Perrin, got together a crew of all comers to try and beat the juveniles' time. They also rowed the Iris, but could not cover the course under 9.58%, which as stated above, was the best for the day. The following is the All-Comers crew: J. Boone (cox); J. Perrin (stroke); W. Wall, J. Goodland, J. Walsh, J. Hussey, J. King.

St. Joseph's Regatta.

THIRTEEN CREWS ENTERED.

Last night in St. Joseph's Parish... the Marine... st 8th, at 8... METARY.

Top Sail War Memorial.

UNVEILING TOMORROW.

His Excellency the Governor will unveil the War Memorial erected at Topsail to the Memory of the gallant men of that place who fell in the war. The ceremony will take place at 3 o'clock tomorrow (Wednesday) afternoon. A description of the Monument has already been given by the Telegram. It is expected and hoped that all those who can will make an effort to be present on this occasion.

Home at Humbermouth.

MADE ALL PORTS OF CALL.

S.S. Home arrived at Humbermouth yesterday afternoon. The Captain reports as follows:—"Made all ports of call to Battle Hr. Fish very scarce on Labrador. Grant of Blanc Sablon has 22,000 quintals landed, and Whiteley of Bonne Esperance reports 5,500 quintals landed. The fishery is over now on the Newfoundland side."

McGuire's Ice Cream now ready for delivery. Wholesale only. Phone 794.—jns.t

Hymeneal.

CASWELL—TESSIER.

The Parish Church, Dorrington, Lincolnshire was the scene of a pretty wedding on Thursday, July 6th, when Mr. Ralph Tessier of St. John's Newfoundland was married to Miss Gladys Elmer Caswell, youngest daughter of Mr. and Mrs. Caswell of Kirk House Dorrington. Rev. C. V. Campbell Cogan, C.P., C.C., Vicar of Sibsey who also gave the address, was assisted by the Vicar of Dorrington. The bride who was given away by her father looked charming in a beautiful wedding gown of cream crepe de chine, draped with red family lace and cream hat with a touch of gold and her shoes were of gold brocade. She carried a bouquet of cream roses. The bridesmaid, Miss Evelyn Caswell, was dressed in peach coloured nixon, with applique of velvet flowers, and carried a bouquet of roses. The church was prettily decorated with flowers and plants, by friends of the family. As the happy pair left the church the bells rang out a merry peal. At the reception a large number of guests were present, among whom was the bride's Godfather, General Sir Hunley Malcolm. There were many beautiful presents, including numerous checks. Later in the day the bride and bridegroom left by car en route for London, where the first part of the honeymoon was spent. The bride's travelling costume was of navy blue and gold with a handsome fur wrap.

Portia Sails.

S.S. Portia, Capt. T. Connors, sailed last evening for Sydney where she loads coal for this port. The following round trippers went by the ship: N. S. Halford, J. McDonald, A. B. Stone, Leo A. Duffy, J. Legge, H. May, G. Dickinson and A. LeMessurier.

Shipping Notes.

S. S. Digby will sail for Halifax and Boston on Saturday.

Schr. Union Jack is now lying at Monroe Export Company's wharf, where some minor repairs to the hull are being effected.

Schr. Herbert Warren has arrived at Pernambuco with a cargo of fish from James Baird Ltd.

Shipping Notes.

S.S. Stella Maris has cleared for Halifax from Channel with 517 cases lobsters, 1897 quintals codfish, and a quantity of pickled herring, dried caplin and salmon.

Schr. General Ironsides has entered at Grand Bank to load fish from S. Harris, Ltd., for Europe.

S.S. Trompenberg has cleared for Newport News from Sandy Point with 1152 cords pulpwood.

Schooner Max Horton has sailed from Grand Bank with 4311 qts. codfish for Oporto.

Schooner H. H. Macintosh is loading herring at Sandy Point for Halifax.

S.S. Cranley arrived last night at Botwood from London with 90 tons general cargo to the A.N.D. Co.

Schr. Gertrude of Denmark entered to load codfish for Kemp Bros., Plantilla, for Pernambuco.

Wedding Bells.

JONES—BANNISTER.

A very pretty wedding took place on yesterday afternoon at St. Michael's Church, when Mr. W. Bannister and Miss Louise Jones, both of Trinity East, were united in wedlock by the Rev. E. Nicholas. The bride looked charming in a dress of pink Georgeine, with hat and veil to match and carried a bouquet of sweet peas. The bride was given away by Mr. E. Vivian and Misses M. Fowlow and M. Carter acted as bridesmaids, while the groom was ably supported by Mr. Frank Fowlow. After the ceremony the happy couple motored with their friends to Bowring Park, afterwards returning to the home of Mrs. George Fowlow, where an enjoyable evening was spent by about twenty guests. A large number of presents were received from their friends, among them being one from the employees of Marshall Bros., where the groom has held the responsible position of manager for a number of years. Mr. and Mrs. Bannister leave for their future home at Trinity East on Thursday morning accompanied by the best wishes of their many friends.

Fishing Vessel Cuts Down Motor Boat.

TWENTY-FIVE MINUTES IN WATER.

Two fishermen of Cape Broyle, named Michael Kelly and Francis Leamy, had a narrow escape from drowning recently when returning from the fishing grounds in their motor boat. Just outside the harbor a Canadian banker beating in port under parted canvas cut down the motor boat and threw its occupants into the sea. Leamy managed to climb on to the bowsprit of the schooner, but Kelly struck the vessel several times, but though clad in oil skins and heavy boots he managed to keep himself afloat. He was in the water twenty-five minutes before being rescued in a dory by his companion and one of the crew of the banker. But for the fact that Kelly was a strong swimmer and kept his presence of mind, he certainly would have met a watery grave.

Shipping Notes.

S.S. Stella Maris has cleared for Halifax from Channel with 517 cases lobsters, 1897 quintals codfish, and a quantity of pickled herring, dried caplin and salmon.

Schr. General Ironsides has entered at Grand Bank to load fish from S. Harris, Ltd., for Europe.

S.S. Trompenberg has cleared for Newport News from Sandy Point with 1152 cords pulpwood.

Schooner Max Horton has sailed from Grand Bank with 4311 qts. codfish for Oporto.

S.S. Cranley arrived last night at Botwood from London with 90 tons general cargo to the A.N.D. Co.

Schr. Gertrude of Denmark entered to load codfish for Kemp Bros., Plantilla, for Pernambuco.

Odd Fishes.

The angler, or fishing-frog with its mouth almost as wide as its body is long, is one of the very queerest of fishes. On its back it has a number of threadlike appendages which others think are the small organisms which form their own food.

Before they have discovered their mistake they have fallen a prey to the frog, which does not miss much, with such a capacious mouth. Its appetite, too, is enormous; for in the stomach of one as many as 75 herrings were found!

The sea-horse of Australia lives amongst seaweeds, being camouflaged by a floating fringe resembling the weeds, which enables it to lure its prey close enough to be captured.

Another instance of camouflage for the sake of obtaining food is that of a prawn and a small fish which live inside the mouth of a gigantic anemone. They are both white, with red lines, and these colors act as a snare to numerous small creatures which the anemone kills, and all three have a share in the spoils.

There is a curious family of fish to which the climbing perch of India belongs. They are constantly in and out of the water, and often travel overland. In the rainy season they pass from stream to stream, and from pool to pool. When the hot weather comes they bury themselves in mud, from which they emit a gurgling sound. If put in an aquarium they will escape if they are not covered in.

The callichthyis, found in the rivers of tropical America and the West Indies cannot live for more than a quarter of an hour under water, and has to rise to the surface to breathe. It has been known to live for five days entirely out of water.

The periphithalmus, common on the shores of Indian and Australian seas, frequents roots of mangrove trees. When at rest it lies with its body ashore in search of food.

The bleeny quite commonly leaves the water, apparently liking plenty of air. In South African waters swims a fish something like a toad, and rejoicing in the name of billy-blow-up. This is derived from its practice of puffing itself out when caught.

Another of its peculiarities is that of being poisonous. Pilchards—to come back to our own fish—have a wonderful sense of smell, and can detect a favorite food, consisting of the spores of olive seaweed, fully 20 or 30 miles away, especially after spawning, when they are thin and ravenous.

It is a curious fact that, if food is abundant, the fish appears in shoals; but when it is not particularly plentiful, they do not arrive in such great numbers, as if some instinct told them just how far the supplies would go round.

A straight line satin frock shows an unusual sleeve; it separates the upper arm, the upper half being of white, the lower of black, giving the effect of an elbow-length black glove.

A charming wrap of afternoon or evening wear is a linen-colored cotton crepe with an all-over Persian design in soft colorings. The collar is the deep, crushable sort, and the lining a French blue Japanese crepe.

No Cost for this ten-day test. See what it reveals to you. Then judge for yourself how it pays to fight film. Send the coupon for your ten-day tube. The test will be delightful.

Those Pretty Teeth

How careful people get them

Careful people—millions of them—are brushing their teeth in a new way. They do it almost the world over, and largely by dental advice. Whiter teeth is one result. You see them everywhere. Now we urge you to try the method which they use. Ask us for a ten-day test.

Just remove the film

It is film that makes teeth dingy. That viscous coat clings to the teeth, enters crevices and stays. The tooth brush used in old ways has left much of it intact.

Film is what discolors, not the teeth. Film is the basis of tartar. Most people's teeth are kept cloudy by it, more or less.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. It breeds millions of germs, and they, with tartar, are the chief cause of pyorrhea.

All these troubles have been constantly increasing. And most of them are traced to film—old-way brushing left on teeth.

What must be done

Dental science, after long research, has found two film combatants. Able authorities have proved

their efficiency. Now leading dentists, here and abroad, are urging their daily use. A new-type dentifrice has been created, called Pepsodent. It complies with modern requirements. And these film-fighting methods are embodied in it. Every use attacks the film in two effective ways.

Aids Nature too

Gummy starch deposits also cling to teeth, and often ferment and form acids. To digest them, Nature puts a starch digestant in the saliva. Every use of Pepsodent multiplies that starch digestant.

Nature puts alkalis in the saliva to neutralize mouth acids. Each use of Pepsodent multiplies those alkalis.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. It breeds millions of germs, and they, with tartar, are the chief cause of pyorrhea.

All these troubles have been constantly increasing. And most of them are traced to film—old-way brushing left on teeth.

The New-Day Dentifrice

A scientific film combatant, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

Ten-Day Tube Free THE PEPSODENT COMPANY, Dept. N-1X, 1104 S. Wabach, Ave. Chicago, Ill. Mail 10-day tube of Pepsodent to Only one tube to a family.

As the North Sees It.

THE HUNTER DEAL DEADLOCK.

While promises from political banner bearers have fallen low in connection with the great Hunter project, yet some with the gift of the gab, must try and deceive the electorate in a near coming election by advocating things that are not real. Do the Armstrong people in England mean what they say when they claim a sanctioning of the deal by the electorate, before any capital will be forthcoming and also that no obligations are to be theirs in connection with the Railway, although Mr. Squires would like, as report goes, to have it so.

A split in the Executive government is also reported, and now the deal is at a standstill.

When the public get what is most needed and that is a reduction in taxation, then will the people be ready to listen to speakers and only those who aim at bettering conditions generally. We are tired of hearing about what may be done or will be done, or ought to be done, and unless some actual demonstration is forthcoming and a move made to build up the proposed structures of education, etc., no faith will be placed in those who lecture to public, whether they are true to convictions and working for advancement or whether they are paid spokesmen for a falling political power.

Many promises there have been and the Hunter deal has been talked of long before some of us were born. If men of principle and virtue, step into the arena showing their qualities as laborers for the common good, no doubt but that all would be glad to sit and listen attentively to what the speakers deliver to us.

SERVING MAMMON? The writings of Mr. Boone in the Advocate calls forth comment, and to read about people who claim they would die for the F.P.U. and others who say they would rather sever one arm, than their connection with the Union, seems to give one the opinion that the writer, who severed his connection with the ministry, might tell of more who would die for the true religion.

If the local member of the Union have lost ground and cannot face the assemblies of men, it hardly needs a fast writer or a speedy speaker trying to put a metal facing on the untruths so prevalent around. To exaggerate often shows a fear that the party is becoming weak, and that the only course is to pick up the most fragile remarks which sounds the best.

What fools some mortals be, and what capital will do for boomerang lifters in this generation.

Fashions and Fads.

A frock of terra cotta waistline has pipings of sand color and embroidery in gold thread. The waistline is quite high.

Worn with a blue and white printed dress was a blue hair hat trimmed with black leaves and shiny black grapes.

One smart Fall hat has a black velvet brim and a crown of champagne felt. Narrow ribbon in both colors trims it.

An unusual dress of white crepe marocain has huge pleated sleeves very wide at bottom and reaching the edge of the skirt.

Very little feather and flower trimming is being used on French millinery. One sees much more embroidery and metallic effects.

The wide sleeves of frock of Hawaiian blue grosgrain are finished with cuffs of llama chinilla. The shawl collar is of the same.

Black and white printed silks in bold design, or white silks showing all-over traceries of black, are very popular for the hotel luncheon.

Side drapery is much affected, varying from that placed toward the front to the drapery placed directly at sides or well toward the back.

A gown of almond green velvet has a deep collar of lace, which hangs below the waist in black, and a side sash of the lace, deep cream in tone.

Dalhousie University.

Halifax, N. S. Arts, Science, Commerce, Music, Engineering, Pharmacy, Law, Medicine, Dentistry.

EIGHT VALUABLE ENTRANCE SCHOLARSHIPS. Three of \$200, five of \$100 each. Awarded on results of matriculation examinations, September 27-30, 1922. One reserved for Halifax County, one for Cape Breton, one for New Brunswick, and one for Prince Edward Island.

FIRST YEAR SCHOLARSHIPS. Three of \$200, three of \$100 each. Awarded on results of first year, and tenable during second year.

UNIVERSITY HALL residence for men, on Banks of North West Arm. SHIRREEFF HALL new residence for women students.

REGISTRATION DAYS in all faculties (except for Final students in Medicine and Dentistry, who must register on September 12th) are October 2nd and 3rd. Halifax students must register on the 2nd.

LECTURES BEGIN Wednesday, October 4th. FOR FULL INFORMATION apply in person or by letter to the Registrar.

PUBLIC NOTICE.

Tenders will be received at this Office until noon on Monday, the 21st day of August, 1922, for two suitable Steamers to ply between St. John's, Nfld., and the West Indies.

The steamers to be classed X 100 A1 at Lloyds (England), and to have a speed of at least 12 knots. They must have about 2000 tons dead-weight capacity, be fitted with all modern improvements, and have first class passenger accommodation for 20 persons.

Under the proposed service a steamer will leave St. John's every 3 weeks, calling at Havana, Jamaica, Porto Rico, Martinique, Barbados, Trinidad and other islands in the West Indies, making one call each trip at the above ports. The service to be continuous throughout the whole of each year, and the contract to be for a term of 5 years to be computed from the date of commencement of the service. The service to start with one steamer in October or November next; the second steamer will take up the work in October, 1923. Tenders to specify the rate per round trip at which such service will be performed, which rate will also cover the carriage of mails by the said steamers. Envelopes to be marked "Tenders for Steam Service to West Indies."

Further particulars may be obtained on application to this Department. The Government do not bind themselves to accept the lowest or any tender.

ARTHUR MEWS, Deputy Colonial Secretary, Colonial Secretary's Department, July 27th, 1922. Jy28.29.31.aug1.3.5.8.10.12.15.18.19

HOUSEKEEPERS-- WASHERWOMEN-- EVERYBODY-- BUY SUNLIGHT SOAP.

Sunlight Soap sells in St. John's at 15 cents for a 12 ounce twin bar. Lever Brothers 1,000 Pounds Guarantee of Purity is your security when you buy Sunlight Soap.

Every bar of Sunlight Soap is all pure soap; so pure indeed, that it will not injure even a baby's tender skin. Clothes washed with Sunlight Soap will last longer than clothes washed with impure soap.

When you pay 15 cents for a 12 ounce bar of Sunlight Soap you get it at the rate of 8 ounces for 10 cents, so that Sunlight Soap costs you no more than any 8 ounce soap for which you pay 10 cents.

Don't permit anyone to deceive you with the untrue statement that an 8 ounce bar of soap for 10 cents, is cheaper than a 12 ounce bar of Sunlight for 15c. Sunlight Soap, considering its unapproachable purity, is ounce for ounce the cheapest soap you can buy. The whole world knows this to be true and this is why Sunlight Soap is preferred above all others.

If you do not wish to spend 15 cents for a 12 ounce twin bar of Sunlight Soap, buy half a twin bar for 8 cents; but for your clothes sake, for your hands' sake, for your pocket's sake, buy Sunlight Soap; it always is the best and purest soap.

Intelligent women everywhere
