#### Babies' Lives Saved by LACTATED FOOD

Lactated Food is the right and proper nourishment for the babe that cannot be brought up on breast milk. It is the only food that keeps the child strong and vigorous.

Thousands of grateful and thankful mothers in Canada bless and praise Lactated Food because it was the means of saving the lives of their little ones in the hot summer weather. There are a host of prepared foods on the market, but no other has ever received such indorsation as Lactated Food. Remember, dear mother, your babe needs this health-giving food if it is not thriving on breast milk, or if it is deprived of nature's food entirely. Ask your druggist for Lactated Food.
