

KING NOW OUT OF IMMEDIATE DANGER, SAY THE PHYSICIANS

His Condition Satisfactory in Every Respect.

THE BULLETINS ELICIT CHEERS

Message From King Edward to the Emperor of Germany—Malicious Articles in German Press.

London, June 28.—"The King is now out of immediate danger." This announcement made in the 10:45 a.m. bulletin, spread quickly throughout the metropolis and caused general rejoicing. The verdict which the nation had so anxiously awaited caused a longer consultation than usual. Lord Lister, Sir Frederick Treves and other doctors discussed the patient's condition for nearly an hour before they committed themselves to the important pronouncement. It was read at Buckingham Palace by only a small crowd, the public being practically assured by yesterday evening's reports that everything was going well. Yet, to use the words of the Westminster Gazette, the bulletin was "FULL OF INTENSE RELIEF."

The underlying suspicion that the doctors might fear more than they wrote, the sensational rumors of his Majesty's death, which continued even so late as yesterday, and the lack of definite unofficial news all combined to create intense nervousness.

Such hopeful statements as the Associated Press had been able to make were not available to the British public, who, however, were spared the sensational reports, now so palpably absurd, which were cabled to America.

By June 30 the doctors are expected to announce that all danger of any complications has passed. The King was very cheerful this morning, after four or five hours' sleep, and his temperature was normal. On Sunday his Majesty will probably be transferred from his bed to a couch, where he will be able to receive his guests. He is already able to slightly raise himself by the aid of a pulley. When he first made an attempt to do so, the queen adjusted the pillows so as to form a back rest, and with a sigh of intense relief the King exclaimed: "Ah, that is better."

THE KING'S BEST DAY

Crowd Cheers When Good News of King's Progress is Bulletin.

London, June 27.—"It's the best yet," was the popular comment with which the bulletin posted at Buckingham Palace at 11 o'clock tonight was greeted. A small crowd waited before the palace until the bulletin was brought out, and when the good news became known there were cries of "Hear, hear," and cheers. Lord Churchill, the acting lord chamberlain, drove up to the palace just as the bulletin was issued, and he expressed his keen pleasure at the doctors' report of the King's condition. After learning the contents of the bulletin the crowd at the palace quickly dispersed, and the rejoicing which was already apparent in the crowded streets increased in keeping with the terms of the latest report.

The 11 o'clock bulletin was as follows: "His Majesty's condition is in all respects satisfactory. The King has had a comfortable day and has made substantial progress.—Treves, Laking, Edward."

From an authoritative source it is learned that the King reads and converses continually with the Queen and the Prince and Princess of Wales. All that the doctors insist upon is that he shall not be worried by matters requiring careful weighing.

London, Saturday, June 28.—King Edward's improvement has been maintained at 1 o'clock this morning.

UNSEASONABLE WEATHER!

This June Has Broken the Record for 28 Years

For Heavy Downpour of Rain and Low Temperature.

Montreal, Que., June 27.—This month so far has broken records in rainfall and temperature extending over 25 years.

According to the records at McGill observatory, 5.64 inches of rain has fallen during 26 days of this month. The average rainfall for June during the last 27 years has been 3.53 inches. The average temperature for the 26 days of the month has been 60 degrees, while during the last 25 years it has been 55, showing that the present month has been on the average 5 degrees colder than previous Junes.

King Edward's calmness, cheerfulness and pluck are considered most favorable auguries for a speedy recovery, and the messages of Queen Alexandra and Sir Francis Knollys, the King's private secretary, in reply to expressions of solicitude and the statements of persons most familiar with the situation, all bear out the confident hopefulness which prevails.

The Daily Mail this morning says that all King Edward's functions are working admirably. The drainage pipe has not yet been removed, says the paper, but the general progress is very sure and steady.

In spite of the arrangements made for closing the special United States embassy after Mr. Reid's audience of the Prince of Wales today, it has been decided that the flag shall remain flying tomorrow, owing to the receipt of an official intimation that Queen Alexandra will personally receive Mr. and Mrs. Reid.

At Washington, D. C., Acting Secretary of State Hill received the following cablegram from Whitehall, London, June 27: "The King is now out of immediate danger. The drainage pipe has not yet been removed, says the paper, but the general progress is very sure and steady."

At Washington, D. C., Acting Secretary of State Hill received the following cablegram from Whitehall, London, June 27: "The King is now out of immediate danger. The drainage pipe has not yet been removed, says the paper, but the general progress is very sure and steady."

THE HOBBOES MAKE TROUBLE

Demonstrations in the Provinces—Bonfires Started in Spite of the Authorities.

London, June 27.—The provincial "hoboes" in several minor towns who were deprived of their expected feasts and the opportunity to "Maffick," indulged in angry demonstrations against the local authorities who had provided dinners and festivities. Smashing windows was the favorite form of protest. In some cases they lit the bonfires that had been prepared for the celebration of the coronation.

The most serious disturbances occurred at Watford, fifteen miles from London. During the early hours of this morning, a mob overpowered the police, wrecked several shops and set fire to a store owned by the chairman of the town council. A number of special constables were sworn in and the disturbance was quelled.

Considerable rioting was indulged in at Dunstable. A protest meeting was held and the crowd afterwards proceeded to the residences of mayor and rector, where, amid much rioting, windows were smashed. A move was then made to the Chiltern Hills, where a great coronation bonfire was lighted contrary to orders.

A riot also occurred in Hemel Hempstead, owing to the decision of the coronation committee to sell the beef and provisions obtained for the coronation dinner for the poor. The disappointed poor collected in crowds and smashed the windows of members of the committee.

At Newton, Montgomeryshire, the committee decided to postpone all festivities indefinitely. Several residents being of opinion that citizens should not be disappointed, requested the chairman of the district council to consider the matter. This they refused to do. When the chairman emerged from the committee meeting he was hooted by a large crowd. He took refuge in an inn, which was immediately surrounded by hundreds of persons.

MESSAGE FROM THE KING

Signaled to the German Fleet by the Kaiser—Cheers in Italian Chamber.

Kiel, June 27.—Emperor William today signalled by flag to the fleet the following message from King Edward with reference to his appointment, announced by the emperor here yesterday, as an admiral at sea in the German navy: "I am deeply touched by your kind thought, and proud to be an admiral of your fleet."

Rome, June 27.—At the close of the morning sitting of the Chamber of Deputies today the president of the house, Signor Biancheri, read the latest bulletin regarding King Edward's condition. Its hopeful wording was greeted with prolonged cheering.

FROM THE QUEEN

Ottawa, June 27.—The following cable was received by Sir Henry Strong, acting governor-general to-night: "London, June 27.—Her Majesty the Queen and the Prince of Wales, on behalf of the royal family, desire to express their warm thanks to you and people of Canada for message of loyal sympathy in his Majesty's illness. Please, also thank the mayor and city of Ottawa." (Signed) Chamberlain.

POLICY OF THE PREMIERS

Laurier, Barton and Seddon Chief in the Conference.

Will Not Commit Themselves to Any Hastily-Formed Conclusion.

New York, June 27.—The colonial premiers and ministers, while sorely disappointed over the postponement of the coronation, are consulting among themselves, cables the London correspondent of the Tribune, and receiving cues from Colonial Secretary Joseph Chamberlain respecting the imperial conference next week. There is reason for the belief that the conference will gain attention.

The collapse of the general festivities, since public attention will be centered upon it. Premiers Laurier, Barton and Seddon will be the chief figures, but there will be strong men behind them. There is a hopeful feeling among the Canadian ministers and the premiers that with the help of Mr. Chamberlain something may be done in the direction of preferential trade. Astute men like Premier Ross from Ontario and Ministers Fielding, Mulock and Patterson do not wish to commit themselves prematurely to any statement of policy, but they are convinced that the self-governing colonies have in Mr. Chamberlain a resourceful leader who commands support.

COMING BACK FROM SOUTH AFRICA

Fifteen Hundred Canadian Troops Sailed Yesterday.

MORE START ON WEDNESDAY

Coronation Contingent May Not Leave England for Some Time—Died of Fever.

Durban, Natal, June 27.—About 1,500 Canadian troops sailed from here for home today. Two thousand additional Canadians will start for home July 2.

WOULD KEEP THEIR ARMS

Ottawa, June 27.—The militia department received a further message today which goes to confirm the impression that the Canadian troops in South Africa are about to return home. It seems that the men wish to keep their arms and the government has been asked to state its wishes in the matter. The force was equipped by the imperial government, and if the soldiers are to be allowed the privilege of bringing their rifles home as a souvenir of the active service for the empire, the Dominion Government will have to pay for them. The question will probably be dealt with at an early meeting of the cabinet. It is understood that the militia authorities are in favor of allowing any man who wishes it the privilege of taking the arms.

DIED OF FEVER

The following message received from the casualty department, Cape Town, today: "Death from enteric fever, 24th June, C. D. W. S. A. C. 1553, Warren Craig. Please inform father, Newcastle, N. B."

THE CORONATION CONTINGENT

London, June 27.—Tomorrow the Canadian troops will visit the fleet assembled off Spithead and other festivities will be enjoyed early next week.

There is now a probability that the Canadian coronation contingent will remain in England until the arrival of Viscount Kitchener, whose return to England is expected shortly.

The Canadian troops will remain in England until the arrival of Viscount Kitchener, whose return to England is expected shortly.

LOST HIS LIFE IN INDIAN RIVER

Hope Watson, a Well-Known Hamilton Man, Drowned.

WOMAN MANGLED BY A SAW

Man Fatally Hurt in Saving His Horse—Drowning in Toronto Bay—Fatal Fall.

Port Carling, Ont., June 27.—A sad accident, resulting in the drowning of Hope Watson, of Hamilton, happened about 10 o'clock last night. Mr. Watson, in company with Mr. Mewbourne, also of Hamilton, left the cottage of Mrs. Barnett, at the mouth of the Indian River, in a small skiff to go to Fennelade, a distance of about two miles. The night was very windy and the lake rough.

The skiff upset about 5 o'clock this morning very much exhausted. He was not able to tell much about what had happened, but it appears that the skiff upset about 5 o'clock this morning very much exhausted. He was not able to tell much about what had happened, but it appears that the skiff upset about 5 o'clock this morning very much exhausted.

A DALMATIAN STOWAWAY

Unexpectedly Finds a Cousin in New York City.

Ran Away From Home and Hid in Boiler on Board the Umbria.

New York, June 27.—At two bells of the afternoon watch on Thursday, as the Umbria was pounding her way through rough seas toward this port, the engineer descended the stoke hold. He saw a head pop up through the manhole of the donkey boiler and then duck between the shell and the tubes. The lad was captured, given a bath, a square meal, and imprisoned in the ship's hospital. At Ellis Island the boy, who answered to the name of Bozo, told how he had had a quarrel with his father at Sebenico, Delmatia, and how he had stowed away in the ship's boiler.

The commissioner decided that if he could find anyone who would answer for his support he would give the lad his freedom.

An inspector was sent with the lad to the only colony of Dalmatians in New York. In a second avenue tenement the boy recognized his cousin. The cousins fell to embracing and Bozo was free.

A CRUEL TREATMENT

Some Unfortunates Diet Themselves Almost to the Point of Starvation.

Food Distresses Them. Therefore They Do Not Eat—The Body Craves Nutrition Yet the Stomach Refuses to Digest.

What is a dyspeptic to do, when everything he eats gives him pain and distress. Many answer this question by advising the unfortunate to abstain from food.

But he is ravenously hungry. His body craves the food necessary to sustain the strength for his daily labor, and not to eat means a constantly diminishing strength.

Physical weakness invites disease, and hampers and hinders in the race of life.

It is not necessary to live on a starvation diet in order to get rid of stomach trouble.

Dodd's Dyspepsia Tablets make it possible for the dyspeptic to eat heartily without any painful after-effects.

Dodd's Dyspepsia Tablets are a specific for diseases of the stomach only. They give instant relief, and if a full treatment is taken according to directions, they completely and permanently cure the worst cases of Dyspepsia, Indigestion, Heartburn, Sour Stomach, Bloating, Headache or Other Stomach trouble.

You may feast without fear, if you are careful to take one or two of these little Digestive Tablets immediately after each meal.

You may eat what you like for Dodd's Dyspepsia Tablets will digest the food every particle of it without any assistance from the stomach, and this complete digestion means an entire absence of all unpleasant symptoms.

Dodd's Dyspepsia Tablets have changed many a miserable sufferer to a healthy, happy man, or woman, capable of enjoying all the good things of life.

They are sold wherever medicine is sold, and thousands of living men and women today testify that they have cured their stomach trouble after everything else had failed.

A remedy which has an unbroken record of victory over all diseases of the stomach, is surely worth the thoughtful consideration, and a fair trial by anyone afflicted.

SAVED TO POSTERITY

Names of Men After Whom Townships Have Been Named.

Toronto, June 27.—Several new members of the legislature are honored in the government's choice of names for the townships to be immediately surveyed in the Temiskaming region. They include Tudhope and Davidson, the Liberals who returned two of the Simcoe ridings. There are also Truax and Gross, who were members of the last Parliament. Others are Lawrence and Cawthra, two Ontario farmers in North York. In Catharine and Boston a graceful tribute is paid the memory of the late Mrs. Geo. W. Ross, those being her first and her maiden names respectively. There are also the townships of Eby and Otto which had been previously named, but not surveyed. A survey will likewise be made of Melick, a new township of 36,000 acres. The surveyors engaged for the work are as follows: Alex Niven, Haliburton; T. B. Speight, Toronto; T. R. Deacon, Rat Portage; G. E. Stacey, Sudbury; James Robertson, Gloucester; James S. Dobie, Bruce Mines; Alex Baird, Leamington; Abraham S. Code, Alvinston; William Galbraith, Bracebridge.

Speakers' Nervous Throat. Public speakers and singers know how useless and sickening are cough mixtures, sprays, lozenges, etc., for irritable throat. Probably the simplest, safest and most efficient remedy is Peppermint Cure. Twenty drops in sweetened water gives immediate relief and this treatment should be supplemented by bathing the throat with Peppermint Cure. To say it acts quickly is to express the result. Sold everywhere in large 25c bottles.

Lord Henniker, governor of the Isle of Man, died at the Isle of Man to-day (Friday). He was born in 1842.

William Lines Mintony, naval contractor, U. S. N., retired, who supervised the construction of the ill-fated battleship Maine at the Brooklyn navy yard, is dead at his home in Brooklyn, aged 73 years.

The Cause of Nervous Headache. This most distressing and common malady doubtless has its origin in some unbalanced condition of the nervous system. Probably the simplest, safest and most efficient remedy is Peppermint Cure. Twenty drops in sweetened water gives immediate relief and this treatment should be supplemented by bathing the throat with Peppermint Cure. To say it acts quickly is to express the result. Sold everywhere in large 25c bottles.
