

# No Other Phonograph Can Do It!

No other phonograph even dares the test which the New Edison underwent Nov. 11, before a large audience at the Opera House.

That fact is something for you to think about.

The test of comparison with living artists is the only phonograph test which means anything. It is the only way in which a phonograph can irrefutably prove its realism. It is the most drastic of all phonograph tests. To sustain it, requires absolutely perfect realism—nothing less.

On Nov. 11th, the New Edison stood by

Leola Lucey's side in the Opera House. If you were there, you heard the living voice and the *Re-Created* voice brought into direct comparison. You know that there was no difference between the two voices.

By this wonderful performance, the New Edison has placed itself apart from *all other phonographs and talking machines*. It alone has sustained this drastic test. It alone has proved, concretely and conclusively, that it gives you the living performances of great artists.

*"The Phonograph with a Soul"*

*Any Official Laboratory Model you buy in our store will positively sustain the test made at the Opera House. We will give you our guarantee to that effect. Come in and hear this instrument in some further tests of its realism.*
