A terrible accident occured at the station yard, Woodstock Saturday, by which John Meors of Millville, York Co., suddenly lost his life. The unfortunate victim of the accident was working on the gravel train, which at the time of the accident, was passing up the yard preparatory to going on a trip up the line. Moore had his dinner kettle in his hand, which he placed on one of the flat cars, and then stepping between two cars and placing a hand on each he attempted to spring up. He fell back with his legs across the track. The wheels passed over his thighs cutting and mangling him in a dreadful manner. Drs. Sprague and Smith were soon on hand, but medical skill could avail but little. After suffering terrible pain for about two hours, death ensued. Deceased had a wife and four young children on a new farm at Millville. He had been at work only one week when the accident happened. In the agony of his last moments, the lamentations over the helpless condition of his family were extremely saddening.

At the recent closing exercises of the Baptist Seminary, St. John, Miss Ethel Estabrooks, daughter of Warden Estabrooks of Prince William, was among the graduating class. She also captured the French prize, and her work in English was thus spoken of by the St. John *Globe* : "Miss Estabrooks of Prince William, York Co., was introduced, and read an excellent essay on Queen Elizabeth. This young lady, without doubt, has been a close student of English history, and is an enthusiast in her admiration for good Queen Bess. She has a finely-modulated voice, and an easy delivery, and possesses the happy faculty of presenting her facts in a concise manner." Before the visitors left the examination they inspected a number of beautiful crayons and work in oil. The landscapes from the brush of Miss Estabrooks, and a collection of fruit, were beautifully painted, and received much praise from all. The position which Miss Estabrooks took in the institution reflected great credit upon her ability and industry, and on the county which she so well represented.

Why let your children die, when a few doses of Nelson's Cherokee Vermifuge will expel the worms, and nearly all diseases of children arise from worms.

Robert Moore's Death.

THE EVIDENCE AT THE INQUEST.

In last week's FARMER, brief mention was made of the sad death of Robert Moore of this city, which occurred at Annapolis, under painful circumstances on Monday, the 22nd of June. Further particulars are furnished below : Mr. Moore was known to very many people in York County, having served for several years, with Mr. A. D. Yerxa as Deputy Registrar of Deeds. Some months ago received serious injuries,it will be remembered, by the falling of an elevator in Clarke, Kerr & Thorne's warehouse, St. John. Since that time he has been unable to work and had just started on a holiday trip, when the

FATAL ACCIDENT OVERTOOK HIM.

Arriving at Annapolis on the Friday evening preceeding his death, Mr. Moore put up at the American House. On Saturday evening, while going up stairs he was heard to fall and when picked up an instant after was found to be unconscious ; and though medical assistance was immediately summoned, all efforts proved of no avail, he continued to grow weaker and expired about half-past 10 on Monday morning.

At the Coroneer's Inquest, the proprietor of the hotel testified as follows :

Deceased put up at my house on Friday afternoon and seemed perfectly well. I was taking supper when he fell. When called I found him lying at the foot of the stairs ; I was called up by Professor Tuck ; deceased had taken his tea on Saturday night. When we picked him up he was lying at the foot of the upper stairs ; the only cut I saw was on the chin ; he did not speak after I saw him ; did not hear him complaining ; he died at 10.30 Monday morning.

PROF. TUCK, TESTIFIED.

I was not personally acquainted with the deceased till he came here ; formed his acquaintance on Friday afternoon ; on Saturday evening I was sitting in the parlour and saw deceased pass up stairs ; I came out into the hall ; noticed he was walking slowly ; when I got to the hall I heard him fall and heard a sound as if some one was falling down stairs, also a peculiar cry ; saw him on the floor at foot of stairs, his body was bent up ; he was motionless when I first got to him, in a moment there was a slight quake or shiver ; he did not speak : I thought he was severely injured and called for help ; from the sound and the position and the position he was in when I went to his assistance, I think his head struck on the stairs, and the thrashing sound was caused by his feet striking on the steps as he fell ; his necktie was lying on the steps half way up ; there is no railing on the upper stairs ; cannot say that he would not have fallen if there had been a railing on the stairs ; have not seen him since half an hour after he fell ; I noticed a bruise on each side of his forehead and a cut under his chin that bled a little ; his head was turned very much to the side ; we straightened him out and put some cold water on his head ; I consider the the stairs safe to one acquainted with them.

THE CORONER,

in charging the jury, stated that when called in he found the deceased as already stated ; he was unconscious, and apparently suffering from concussion of the brain or spinal column, and took it for granted that he had fallen while in a fit ; the peculiar cry referred to precedes a fit of epilepsy ; from the state in which I found him, would not say positively that the blow caused by falling was the cause of death, but it may have brought about a state that resulted in death ; people often die while in fits without there having been a concussion.

The jury returned a verdict that death was caused by falling down stairs, receiving injuries to the head, causing concussion of the brain, and supposed to have been in a fit at the time of falling The remains of the deceased were interred in this city on Wednesday.

The Barnum and London Shows.

AN EXHIBITION OF FIFTEEN HOURS CROWDED INTO ONE OF THREE.

On Wednesday July 8th, at 8 o'clock, A. M., the great free street-parade of the Monster Combined and United Barnum and London Nine Shows will occupy the streets of this city, and in the afternoon at 2 o'clock the grand exhibition will commence. Like everything else in this great country, these mammoth shows keep abreast of the times, and this year have grown to such proportions that if all the attractions were exhibited in one or two rings, as in former years, it would take fifteen hours to show them. Now three rings, each 46 feet across, an elevated stage 60x80 feet, a hippodrome track 40 feet wide and nearly half a mile around, a museum, two menageries of wild and trained animals, an ethnological congress of strange tribes, are comprised in these mammoth shows, and by using the three rings, stage and hippodrome track, and showing as many as eight or nine acts at one time, the whole entire equestrian performances of 100 acts can be given in less than three hours. But in the rest of the departments the visitor can spend an entire day and still not see them all, so much is there of interest and instruction. With the Barnum and London Shows this year are the Sacred White Elephant, bought from King Theebeu for $200,000, the only genuine one ever leaving the Buddhist country ; Jumbo ; besides a herd of others of great size ; 32 camels, 400 horses, 115 ponies, 33 golden chariots, dens of wild animals, baby camels, lions, tigers, kangaroos, sea lions, hyenas, bears, hippopotami, and trained animals of all kinds ; 300 performers, 79 railway cars, 614 people of all grades : and the daily expenses are $6,800, while the capital invested in the enterprise is $4,000,000.

A rambler has discovered in Sussex, England, fair stretches of unspoilt country where everything retains primitiveness which can hardly be believed unless seen. Her Majesty's monster ironclad Ajax is evidently as defective as its twin ship the Agamemnan in its steering power. In steaming round from Sheerness at about 13 knots it was found that two-and-a-half turns of the helm were necessary to enable her to steer a straight course. Sometimes, after steaming for three or four hours with this amount of port helm, a change occurred, and it was found necessary to give her as much starboard helm.

THE HARD WORKED MAN of business, toiling day by day with little chance for rest, should take occasionally PHOSPHORIZED Emulsion to give activity to the brain and strength to the constitution, and thereby prevent the attacks of fever and other destroying diseases. It will take a year to set up Bartholdi's Statue of Liberty in the harbour at New York. Upon its completion, and when it first stands forth in full view, it will be of a bright, good-like colour such as that of a new penny. The metal is pure copper, and not bronze, so that is will have a strong reddish instead of a yellowish tinge. The winds and rains of one or two winters, however, will change this bright colour, and the statue will take on its permanent tinge of dark reddish brown.

Mr. C. E. Riggins, Beamsville, writes : "A customer who tried a bottle of Northrop & Lyman's Vegetable Discovery says it is the best thing he ever used ; to quote his own words, 'It just seems to touch the spot affected.' About a year ago he had an attack of bilious fever, and was afraid he was in for another, when I recommended this valuable medicine with such happy results."

From a series of expert observations of the length, depth, and duration of ocean waves, it appears that the largest wave observed had a wave of half a mile, and spent itself in twenty-three seconds. During storms in the North Atlantic waves sometimes extend to a length of 500 and 600 feet, and last from ten to eleven seconds. The most careful measurements of the heights of waves give from forth-four to forty-eight feet as an extreme limit ; the average height of great waves is about thirty feet.

COSSITT'S

New Model Buckeye Mowers,

AND

COSSITT'S

Ithaca Horse Dumping Hay Rakes,

as sold by us are too well known to need a full description here.

All Mowing Machines cut well when new, unless very carelessly made. The difference in them is not much in the work they do, but there is very much in the ease with which the team and driver can work the different machines. Some machines are made to sell quick and to wear out quick.

Cossitt's Buckeye Mowers,

WILL

Run Easy, Wear Long, and do good work.

It has all Iron frame with *patent adjustable crane shaft boxes.* Improved in seasons 1882 and 1883. It has the STRONGEST yet the SIMPLEST SYSTEM of gearing made in any Mowing Machine. There are only 4 gear wheels. Skilled mechanics and scientifically trained Engineers, when called upon to superintend long and thorough field trials have testified that the BUCKEYE PRINCIPLE OF GEARING, COMBINE the GREATEST DURABILITY, and was not surpassed by any other in lightness of draft. Cutter Bar is 4 ft. 4 in. long.

Over 7000 of these Mowers and Rakes have been sold in this Province.

Every Mower and Rake fully warranted.

For sale on most liberal terms by all our Agents, and at our Head Office, Fredericton.

JUMBO'S ONLY VISIT !

FREDERICTON, WEDNESDAY, July 8.

BARNUM & LONDON 9 UNITED SHOWS.

BARNUM RETURNS NO MORE.

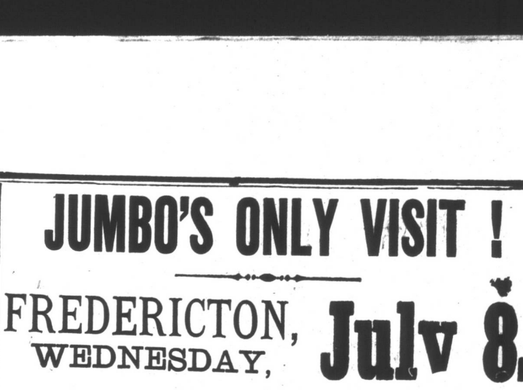
GREETING AND FAREWELL TO HIS AMERICAN PATRONS.

With mingled regret and pride, I announce to my patrons that this is positively the last chance to see my GREATEST SHOW ON EARTH and the GREAT LONDON CIRCUS on American soil.

I regret being forced to take away from my fellow citizens an exhibition which they have enthusiastically appreciated and lavishly patronized, but the amusement seeking people of Europe demand the opportunity of seeing this combination which has a world-wide reputation, and no counterpart in any country. I have made all arrangements and contracts for its transportation in its vast entirety across the Atlantic. My able and experienced partners, Messrs. James A. Bailey and James L. Hutchinson, will conduct this unparalleled enterprise under my personal supervision.

The public's obedient servant,

PHINEAS T. BARNUM.



PATRONIZED BY THE MOST FASHIONABLE AND ELEGANT AUDIENCES EVER SEEN IN ANY ENTERTAINMENT.

Greatest and Grandest Exhibition ever given by P. T. BARNUM, and certainly the Most Magnificent ever organized. The Press and the Public rivals in testifying their appreciation of these NINE ENORMOUS SHOWS COMBINED IN ONE.

P. T. BARNUM'S

GREATEST SHOW ON EARTH IN UNION FOREVER WITH THE

Great London Circus!

Sanger's Royal British Menageries and great International Allied Shows,

3	Grand Triple Alliance Circus, with Three full Companies in 3 Rings.	3
