great amount of capital is necessary.

The principal and probably the sole

requisite of success is a mental incli-

ahead with the work that anyone can

find in this country who chooses to

look for it. Dr. Barnardo's boys con-

tain a lot of raw material which, as

matter more from a humanitarian than from a practical standpoint. Can-

ada is under no moral obligation to

look after the waifs of other countries.

The bringing of these boys into this

country must be determined solely

from a practical and selfish stand-

point. The old countries of Europe

must look after their own waifs. Whe-

ther the six thousand and odd boys

and girls who have been sent to Can-

ada have succeeded or not is a fact that can be determined upon the evi-

derce that is available. The general

feeling in the country seems to be ad-

verse to a continuation of the system,

and this feeling has no doubt arisen

from the experience that the public

boys. We have just received bulletin

56, issued by the Ontario Bureau of

Industries in regard to the Agricul-

tural Statistics of Ontario for the pre-

sent year. The returns are based on

reports from nearly two thousand cor-

respondents on different matters af-

fecting the farmers. Under one head-

ing we find certain extracts on the

subject of "farm labor." Ten of the

twenty-seven extracts have a bearing

on this very subject, and by quoting

nation and the physical ability to go

MR. LOWE RETIRES.

Warmly Worded Address Presented by the Departmental Staff and a Feeling Reply.

Ottawa, Dec. 4.-Mr. John Lowe the Department of Agriculture, as its Deruty Minister, to-day. The members of the departmental staff, who have had the pleasantest relations with Mr. Lowe during the past 25 years, waited upon him and presented him with the following address, which was read by Mr. H. B. Small, secretary of the department:

we have had are not calculated to improve the moral tone of the community.

This evidence is certainly one-sided. It is, furthermore, evidence that is unsought and that is practically disinterested. We have given every quotation that bears on the question, and it will be noticed that there are only two or three expressions that can be considered as favorable to the boys, while the majority are decidedly adverse to this class of immigrants. In view of this evidence we do not see that The World was far astray in publishing the carton to which Judge Ardagh so strongly objects.

BICYCLE TUBING.

There are eleven factories in England where bicycle tubing is made. There is one factory in France, another in Belgium and a great plant in Wales. In the United States there are three tubing plants in operation and three more are getting ready to manufacture this article. One of the plants in the United States is five times as large as any of the others referred to, except, perhaps, the Mannesman plant in Wales. It will turn out ten Mr. Lowe's Feeling Reply.

to, except; perhaps, the Mannesman plant in Wales. It will turn out ten million feet of tubing this year. These figures would seem to justify the establishment of one or more tubing plants in the Dominion of Canada. The industry could be added as an accessory to some company that is now engaged in the iron and steel business. The acclimatizing of the industry in Canada would be greatly facilitated if the question of tariff were scientifically considered in its relation to this particular manufacture.

The company's latest blunder. The Consumers Gas Company has made many a foolish move in its present difficulty with its customers. Probably its greatest tactical blunder is in negotiating for and accepting the support of the paper that has latterly done its best to get the city to part with its water franchise to a private corporation; the paper is always to company and the fact hat I shall for the whole the million feet of tubing the support of the paper is always to company that it is million feet of tubing the support of the paper is always to company that it is million feet of tubing this greatest tactical blunder is in negotiating for and accepting the support of the paper is always to company that its water franchise to a private corporation; the paper is always the corporation; the paper is always to company the corporation of the fact that my years are considerably beyond the age of retirement indicated by the statute, not, however, made compulsion, the form the paper that has latterly done its best to get the city to part with its water franchise to a private ment of the paper is always to company that is million feet of tubing the probably service seems of personal pain. But I have yet thought it advisable, cwing to circumstances, in view of my leight of service and of the fact that my years are considerably beyond the age of retirement indicated by the statute, not, however, made compulsions of the fact that my years are considerably beyond the age of retirement indicated by the statute, not, however, m terly done its best to get the city to part with its water franchise to a private corporation; the paper is always found on the side of schemers, and is always ready to betray the interests of the citizens. The Gas Company might just as reasonably expect to regain its reputation for honesty and fair dealing by accepting the advocacy of this paper as a man might expect to acquire a reputation for morality by consorting with prostitutes in the pubwords in relation to her, and to say that she will retain a grateful memory of many kindnesses from members of

A Gift to the Experimental Farm. is being benefited by the importation of these orphans and waif children. Although it is said that "only the flowers of the flock" are sent to Canada, it must be admitted that the flock embraces the very scrub of the earth. In any event they would be useful in Canada for work on the farm only, and as we know by experience it is difficult enough to keep our own boys on the farm. When we take these youths over here we find them quite new to their surroundings. It is necessary for us to educate them and run all the risks of their turning out well. As far as immigration is concerned, we believe it is a good policy to lay down that no one, man or boy, should be brought into this country unless he possesses energy, industry and the inclination to work on the undeveloped land of this country. With a man who possesses a desire to succeed, no recent to the consumers had not that confidence in the City council which one should naturally be expected to have in the City council which one should naturally be expected to have in the City council which one should naturally be expected to have in the municipal management of his country uniest in the municipal management of his control was much gratified the Experimental in the municipal management of his country was much gratified with the progress which had been made in this country the customers of the Gas Company, and the rest of half a cent for each 1000 feet of gas consumed the rest of half a cent for each 1000 feet of gas consumed in the rective of assistance of his control was much gratified hex the Experimental in the municipal management of his city, the customers of the Gas Company, and the customers of the Gas Company should create a fund, each substitution and the generosity of the generosity of the generosity of the generosity of the sent municipal management of his city. The customers of the gas consumed in the generosity of the generosity of his grating

assisted in making a selection for Otta-wa. These were duly forwarded and have been safely received. This col-lection includes 179 species and vari-eties of trees and shrubs, and cuttings of 24 species of willows, nearly all of which are new to the colection here. A package has also been received re-cently from Siberia from Prof. Max Sivers, of Roemershof, containing six species of trees and shrubs from that country, also some tree seeds. Among country, also some tree seeds. Among the trees sent are specimens of the Siberian larch and the Siberian spruce, both new to the farm collection. When hese additions are planted in the spring the among the siberian are the siberian spruce. hese additions are planted in the spring the arboretum will contain more than 1000 species and varieties of trees and shrubs under test. Thus far a large proportion of those tried have been found hardy in this climate. The information gained in this branch of the work is proving of great value to the country generally, by showing the capabilities of the Canadian climate and by supplying valued information to lovers of trees and shrubs in all parts of the Dominion.

County Court Cases, The County Court, with Judge Mor gan presiding, convened yesterday morning at 10 o'clock. over till next week.

The first case taken up was Jaume v. Goldstein, and occupied the attention of the court during the afternoon.

Fixing Mimself for the Winter James Spencer, no home, was arrested last night by Detective Cuddy, charged with stealing an overcoat and pair of mitts from George Henderson, a guest at the Commercial Hotel. last night by Detective Cuddy, treed with stealing an overcoat and or of mitts from George Henderson, aguest at the Commercial Hotel.

Sencer was wearing the mitts when sets of the sale of seats will begin next.

Los Angeles, Cal., Dec. 4.—Rev. Dr. Joseph F. Johnson, rector of Christ Church, Detroit, Mich., has been elected Bishop of the new Episcopal Diocese of Southern California.

Scott's Emulsion

is Cod-liver Oil emulsified, or made easy of digestion and assimilation. To this is added the Hypophosphites of Lime and Soda, which aid in the digestion of the Oil and increase materially the potency of both. It is a remarkable flesh-producer. Emaciated, anæmic and consumptive persons gain flesh upon it very rapidly. The combination is a

most happy one. Physicians recognize its superior merit in all conditions of wasting. It has had the endorsement of the medical profession for 20 years.

Don't be persuaded to take a substitute

In "Bonnie Scotland," which will be the attraction next week at the Grand the department.

Mr. Scarth, the new Deputy Minislovers of the new and novel, The play is not only a novelty, but an interest-While, as we have said, the institu-tion is engaged in a commendable work as far as England is concerned.

A Gift to the Experimental Farm. ing and pleasing one as well. The the large collection of trees and shrubs which has been brought to-with stirring climaxes and dramatic situations. It is picturesque and ro-mantic, and theauthor, Mr. Sidney R. Ellis, has woven through the plot of the most emphatic success. It appeals in every way to the amusement-leving public, and is a mingling of intense and stirring scenes with mirthful comedy, catchy songs and brilliant specialties. The company is a large and strong one, and includes the strong wall known and clears records.

A baby girl of 6 years, who can recite whole books of the Bible, and can answer instantaneously any question in connection with the history of Canada or the United States, or the facts of any other incident of which she has heard once before, will be the premier attraction at the Edem Museum next week. The little prodigy is Miss Gertie Cochran, whose remarkable memory has made her the object of the greatest interest to scientists, medical men, and the general feats is answering without hesitation each one of the long list of questions prepared by a committee from the au-dience.

nigan's Ball" comes to the Toronto Opera House next week. The skit is one of the funniest of its kind, replete with good specialties, catchy medleys, up-to-date parodies, sidesplitting dialogue and situations, and brightened by half a score of pretty young women, who add dash and chic to the performance. The company is headed by Murray and Mack, the well-known eccentric Irish comedians, who have long been favorites in the vaude-ville world. They are supported by a clever company, numbering fully 20 people, including George H. Emerick, the author of the force; Bert Leslie, Clayton E. White, Charles Lamb, Vincent Minelli, Gracle Cummings, the cent Minelli, Gracie Cummings, the Loring, Edith Newton, Lonie Deane, Winifred Stewart and Clara Burgess.

The announcement made this morning that the trustees of the Massey Music Hall have been able to secure morning at 10 o'clock.

The cases of Wiles v. Bishopric and Galpi v. Gage were settled, and Clary v. the G.T.R. and Fox v. Shaw laft over till next week.

The first case taken we was James of the concert for Toronto by the great prima-donna, Melba, and her superb concert company, with a complete orchestra, will no doubt be hailed with delight by all music-loving people. cess made last October will not soon be forgotten, and will no doubt have a repetition on the evening of Monday week, when they appear again in the Massey Music Hall.

> Wednesday morning at the box office of the Hall. "Thrilby" a Good Show. The Garrick Burlesque Co. continues to draw good houses at the Princess and "Thrilby" is pleasing its audiences. The specialties are unusually good, and the music and songs catchy. At the Saturday matinee the prices will be reduced to 25, 35, 50 and 75 cents

> 9 and 75 cents. Kingston, Ont., Dec. 4.—John Miller of Flinton was shot through the right hand and seriously wounded by the accidental discharge of his rifle. He was carrying it on his shoulder with

> his hand on the muzzle of the gun. People who have used Dr. Laviolette's Syrup of Turpentine five years ago in their family are still using it and pronounce it to be the most palatable and most effective remedy they have ever used.

> Kingston, Dec. 4.—William Prowdey, aged 40, farm laborer, was thrown from a rig near Kingston Mills last night, his skull fractured and he died in the General Hospital this morning.

aged 40, farm laborer, was thrown from a rig near Kingston Mills last night, his skull fractured and he died in the General Hospital this morning.

Struck a Gusher.

Kirygsville, Ont., Dec. 4.—The Standard Oil and Gas Company have been drilling in No. 5 welf, two miles east of Kingsville, over a month, and today about noon they struck a gusher, estimated at seven million pressure, estimated at seven million pressure, and said to be the strongest well in Kirygsville, Ont., Dec. 4.—The Standard Oil and Gas Company have been drilling in No. 5 well, two miles east of Kingsville, over a month, and today about noon they struck a gusher, estimated at seven million pressure, and said to be the strongest well in the field.
