Record Crowd To See Battle For the World's Heavyweight Title

Paris Agog Over To-Day's Fistic Bout

PARIS, July 2.—Crashing banks, wars, reparations, Silesia and other public questions were thrust into the background by this morning's newspapers, which gave the most prominent place in their columns to the news regarding the Dempsey-Carpentier battle in Jersey City. Even Communist organs devoted themselves to dispatches from New York dealing with the coming international glove contest.

AMERICAN WILL MEET FRENCH CHALLENGER BEFORE \$9,000 FIGHT FANS.

STAGE ALL SET IN JERSEY CITY ARENA. Carpentier and Dempsey Clash In Title Contest At 2 o'Clock London Time.

WASHINGTON, D. C., July 2.—Partly cloudy weather with a temperature of between 80 and 85 degrees and a good deal of humidity was the weather bureau's forecast this morning for weather conditions around the New Jersey arena where Dempsey and Carpentier go into the ring to-day. Betting on the fight opened briskly this morning. Several large bets were recorded with Dempsey the favorite at 3/4 to 1.

NEW YORK, July 2.—(Canadian Press Dispatch.)—New York and the entire metropolitan area, which reaches out and embraces the now famous "Boysie Thirty Acres," in Jersey City, reached to-day with a frenzy of excitement wholly unprecedented in the annals of sport as the hour rolled slowly on for the fistic clash for the world's heavyweight championship between Jack Dempsey, United States titleholder, and Georges Carpentier, idol and champion of Europe.

New York's mansions and her gorgeous hotels began disgorging brilliant parties of men and women, intent on catching the parade of the new automobile highways that lead to Promoter Tex Rickard's mammoth arena in Jersey City. Less opulent fight fans had begun the parade from the Jersey City hotels earlier, by ferry, by trolley and by train. But even the earliest arrivals this morning found themselves out-generated by an adroit guard of about 300 men and boys who had spent the night in line at the big arena, waiting for first crack at \$5.00 unreserved seats.

THE GREAT HOPE. Dempsey is described as "the greatest heavyweight champion since John L. Sullivan," while the handsome Frenchman, who has been called variously a "Green god," "mystery man," "man of destiny" and "wonder man," is acclaimed as the "greatest heavyweight Europe has produced."

THE BOUT UNQUESTIONABLY HAS excited the greatest interest ever aroused by a pugilistic encounter. The crowd that was struggling in way to get into Jersey City all through the forenoon assembled from every corner of the world. Representative citizens from the Far West, Middle West, South and East have been rolling into the city for 48 hours on every train; hundreds came from Canada, while steamers deposited hundreds of enthusiasts from Great Britain, France, Spain—even from far-away Japan and China.

Promoter Rickard announced last night that the seat sales had exceeded the \$1,250,000 mark, and he estimated that the final sale would pass \$1,500,000, with at least 80,000 of the 11,163 seats in the huge arena taken. A full arena would mean a sale of about \$1,750,000. Purchasers who bought seats from speculators at advances of 400 to 500 per cent, over marked prices, groaned to-day when they learned that some of the "scalpers" had become panic-stricken and cut prices to 20 and 30 per cent below Rickard's prices. Even at these prices and speculators' tickets were sold slowly. This was believed to be due more to the scare over counterfeit tickets, however, than to a lessening demand for seats.

U. S. MARINES LAND AT ISLAND

Protect Citizens Left Defenseless By Greeks. 4,000 TURKS SAVED Before Leaving.

PARIS, July 2.—A detachment of United States marines has been landed at Ismid, a town about 50 miles southeast of Constantinople, in Asia Minor, for the purpose of protecting United States citizens there upon the retirement of Greek troops, says a dispatch to the French foreign office.

A small French detachment is at Ismid and it reports that a number of bodies of Moslems, who were assassinated before the departure of the Greeks, have been found. The French, however, succeeded in saving 4,000 Turks in the town, it is said.

CADETS GO TO CAMP AT NIAGARA-ON-LAKE

TORONTO, July 2.—Approximately 4,500 cadets of Ontario went under canvas at Niagara-on-the-Lake to-day. The Toronto contingent, numbering 1,500, were taken across the lake at 7:30 and 8:30, the boat leaving at the latter hour.

HOW CABINET STANDS.

Upon the last point, as already indicated, the cabinet is divided. Mr. Birkenhead and Churchill may be depended upon to go a long way, but what, it is asked, if Lloyd George himself should be swept back into power? Nobody knows this better than Mr. Lloyd George himself. He is without a peer as a strategist, and hence the fear and the doubt.

Then again, both Arthur Griffiths and Eamon De Valera are expected to prove hopeless as negotiators. None disputes their dealism and few doubt their courage, but nobody who knows anything of their caliber as practical statesmen has the least respect for their ability. "One is ridiculously tactless and the other is colossally verbose" is continued on Page Two.

RUBBER CAPS SAVE BOYS FROM SPANKING

CHICAGO, July 2.—Stores in the vicinity of the bathing beaches have puzzled over the number of rubber bathing caps sold to small boys and Friday one of the dealers solved the problem.

"Why do so many of you boys buy these rubber caps?" he asked of one small urban. "Are they for your sisters?"

"Sisters nuthin'" said the small boy. "Say, don't you know that when we wear these caps our hair stays dry and our mothers don't know we've been swimming? They used to tell it by rubbin' their hands over our heads, but now we've got 'em foiled."

"If I'd only known that in my day" mused the merchant, "how many spankings I would have escaped."
