New Church of England Cathedral Opened

In Halifax with Impressive Ceremony Participated in by Bishop of London and other Distinguished Clergy--Bi-Centenary Celebration at Annapolis.

A great gathering of distinguished churchmen, including most of the Anglican Bishops in Canada, many from the Protestant Episcopal Church of the United States, the Bishop of London and several others from the Motherland are attending the Church Congress at Halifax this week.

Saturday and Sunday were devoted mainly to the opening services of the new cathedral of All Saints.

During the three following days, the Congress has held its sessions, at which many able papers and speeches were read and delivered and many important subjects discussed.

There are to be a large number of Mass Meetings, to which the public are invited.

Tomorrow there will be an excursion to Windsor, to attend a special Convocation of King's College, the oldest Royal Charter University in Canada, or indeed in the British Dominions overseas.

On Friday the great gathering will make an excursion to Annapolis, the scene of that historic Thanksgiving Service two hundred years ago, and there, on that and the following day, will be suitable ceremonies for the commemoration of that event, including also the unveiling of a monument to the memory of Rev. John Wood, one of the early missionaries of the Society for the Propagation of the Gospel.

Doubtless many of our readers will attend the Annapolis portion of the Celebration on Friday of which we give the programme below--

The Street at Night Bad Place for Boys.

The worst habit that boys can fall into is that of loafing around on the streets at night. It is then they cast their lot in slippery places when at any moment they are likely to fall from grace. All good and noble lessons taught them by their mothers are there counteracted and nullified. They learn nothing that is good--but everything bad. The boys who spend their evenings in the sacred precincts of home, with good books for their companions are the future hope of this republic; they will find our legislative and congressional halls, and sit in judgement upon men and measures, while the boys who run the streets will find our penitentiaries, almshouses and lunatic asylums. Parents who are responsible for these broken laws of decency will have broken hearts and bowed down heads in the awakening years that will inevitably follow.

Every statement concerning Red Rose Tea is made most carefully. Every claim that has ever been advanced has been fully borne out by the tea itself. You, if you use it, have always found it good tea. So good that no other tea pleases you as well. You may try substitutes but you always return to Red Rose simply because it has the fine quality and full value that pleases and satisfies.

Prices: 30c., 35c., 40c., 50c. and 60c.

Threw \$1,200 Worth of Notes in Coal Scuttle

Lost Adv. in Local Paper Saved Them from Flames.

(Moncton Transcript.)

Everybody reads the Transcript--of course they do! The advertising columns are read just as closely as the news columns. They are always interesting.

In the Transcript the other night, an advertisement inserted by Mr. Alonzo Keith announced the loss of a number of promissory notes in his favor, amounting to over \$1,200.

Little Leo LeBlanc, son of Mr. Amos L. LeBlanc, 131 Victoria St. and barely of school age, playing along Lotz street, saw on the side-walk a number of pieces of paper with writing on them, and which had been soiled by the foot-prints of pedestrians.

The little fellow, in childish glee, ran into the house and showed his mother his find. The mother, being very busy, told the child to put them down and the youngster, unnoticed by the mother, threw them into the coal-scuttle. Her husband came home and he filled the coal-scuttle full of coal.

Inquiry led to a search, and then, bit by bit, the story came out as here told; but fortunately the coal scuttle isn't emptied rapidly these days, and when the scuttle was emptied, from the very bottom, covered with coal, came out the identical notes, which were brought to the Transcript office and were identified. These papers were evidently not intended to be burned.

Port Wace

A steam ship is expected about the 15th to load with iron ore for Scotland.

Miss Edith John came home from Lynn, Mass., last week for a short visit with her parents.

Only a few men are now employed on the works here, which will be about completed this week. The large 7000-ton pocket is now full awaiting shipment, and with the improvements made recently the shippings will be very much facilitated.

The new Maister mechanic, Mr. Green, of the H. & S. W. was here Friday looking over and inspecting the works.

Mr. John Apt, Capt. of the Albert Lutz, was here looking up part of a crew for his vessel last week. The captain says he has been quite successful in the halibut trade.

Mr. Gilford Haynes family moved to St. John last week, after spending the summer in their cottage here.

A number of our people will attend the St. John Exhibition this week.

The schooner "Onward" Capt. Johnson, sailed for Boston last Friday, loaded with piling.

The Casey Brothers are doing a good business handling fish at Victoria Beach. Prices are high.

Mr. Marshall, drover, of Digby, was over here last week buying beef, cattle and lambs.

It had been expected that the Lieutenant-Governor and Mrs. Fraser would return to Halifax next week, but the condition of the health of the former is such that it is unlikely they will do so.--Chronicle.

The Margareville S. S. Company will have their new steamer ready for launching in about three weeks when she will be towed to Yarmouth where the machinery will be installed. About October 1st she will be placed on the St. John-Kingsport route. This will make two steamers sailing out of Margareville.

JOHN D. GETTS \$1,620,000.

John D. Rockefeller will add \$1,620,000 to his fortune on September 15, at which time the quarterly dividend of \$6 per share, declared yesterday by the directors of the Standard Oil Company, of New Jersey, will be paid.

Industrial Leaders Wanted

Speaking of the opinions he had developed while leading the Commission's work through the Maritime Provinces, Dr. Robertson expressed the idea that the development of the resources of this section of the Dominion would be accomplished much more thoroughly by local capitalists, and leaders of industry than by the aid of outside promoters.

"If a few hard headed and energetic Nova Scotians set out to bring their country to the front, and to realize fully upon her resources they will have no difficulty in securing all the outside capital that they need and will be able to direct it in the direction best calculated to be productive of permanent benefit. The man who comes in as a pure promoter, however, will remain selfish to the end."

"While in the Lower Provinces I visited dozens of towns of three and four thousand people which I think are bound to go ahead and become manufacturing centres, known all over the Dominion. The slight disadvantage that they suffer as to freight rates in the West in comparison with the Upper Provinces is more than overbalanced it seems to me, by their climate, the quality of the workmanship they have ready to hand, and the more healthy conditions under which their workmen labor. More work and better work can be done in a colder climate."

"The difference in freight rates to the West from the Upper and from the Lower Provinces is only eight cents per hundred weight. This is a small matter and does not much bother the shoe and stove manufacturers of New Brunswick. I have seen boxes in a Fredericton shoe factory directed to almost every place of importance in Western Canada."

Dr. Robertson estimates that the Commission will have reached the Pacific Coast, and will have completed all the work on route by December 15, afterward Toronto and Montreal will be revisited.

Institution for the Deaf and Dumb

The school will re-open after the summer holidays on Monday, September 12th, when it is hoped all pupils will arrive promptly. At this school all pupils are taught to speak and to understand speech by reading the movements of the lips. There are throughout the Maritime Provinces many children, not actually deaf and dumb, but deaf enough to prevent their taking advantage of the ordinary public school instruction. Such children are eligible for admission to this school and should be sent, as their speech would be greatly improved as well as their powers of lip-reading. Parents are only called upon to pay travelling expenses and furnish clothing. The Institution providing board, education, etc. Pupils may be admitted between the ages of six and eighteen years.

Doctors, teachers and clergymen are earnestly requested to communicate with Principal Fearon if they know of any deaf or partially deaf children in their neighborhood.

Re-visit Old Home

Mr. and Mrs. M. P. Miller, of Roxbury, Mass., and Mr. and Mrs. Jos. H. Miller, of Winchendon, Mass., recently spent a few days with their sister, Mrs. W. A. Stark, of Port Lorne. Of a family of twelve children, Mrs. Stark is the only one left in the home place, the others having one by one drifted away, and are now residing in different parts of Massachusetts, with one exception, that of a sister, Mrs. John Robinson, who resides at Bloomington, N. S.

Although the father, mother and four children have been taken from the number by death, the recollection of the pleasant memories of the past, led these two sons to visit the old place once more, and as a lasting tribute of love for those gone they had a beautiful granite monument erected on the family lot in Port Lorne cemetery. W. B. Miller, of Brockton, and Lloyd P. Miller, of Boston also contributed towards the memorial. The work was done by W. J. Hoyt of Bridgetown.

Lawrencetown School Gives Exhibition

A movement which proved to be a great success was originated last spring at the home of Mr. and Mrs. Bancroft, on the occasion of a small gathering of friends interested in schools in general, and especially in the school at Lawrencetown. The proposition grew and grew until on the 2nd of September an exhibition was held at the school-house, when a large and enthusiastic gathering assembled to participate in the entertainments of the afternoon. Long tables were arranged on which vegetables and fruits of various kinds grown by the boys were displayed, also bread and biscuits, etc., made by the girls of the school. Prizes were awarded a large number of pupils for the best specimens exhibited for the best specimens exhibited for the best specimens exhibited.

Dominion Exhibition at St. John, N. B.

Fourteen Thousand People Passed the Turn-stiles on Monday--Finest Exhibition ever Held in the Maritime Provinces--City Brilliantly Illuminated from King Square to Exhibition Ground.

The Dominion Exhibition opened auspiciously at St. John on Saturday last. The weather was fine and many visitors were on hand for the opening although the arrangement of exhibits was not complete. Addresses were made by Premier Hazen, Hon. Dr. Pugsley, Sir Robert Parks and Lieut. Gov. Tweedie.

On Monday the exhibits were almost complete and the attendance was a record one for a first day, over fourteen thousand people being present. All departments were well filled. The St. John Board of Trade has an exhibit of "made in St. John" goods which places that

city in the lime-light as an industrial city with wide possibilities.

The city is in holiday array and its illuminations have a splendid effect. Incan descent electric lights are strung from King Square to the Exhibition grounds, so that the visitor stranger in the city could have no difficulty in finding the grounds which in themselves make a fine appearance in the sparkle of the electric lights. King Square and Queen Square are brilliantly illuminated.

The hotels are taxed to their utmost capacity and a large proportion of private homes are open to accommodate the visitors to the city.

Boston Passengers Detained at Yarmouth.

Two Hundred Passengers Held up by Immigration Officials at Yarmouth.

Yarmouth, September 3--Great excitement was caused last evening at the D. A. B. dock, when Collector of Customs Harding, forbade the D. A. B. officials from taking more than six hundred passengers on their steamer, Prince Arthur, that being her certified limit. When that number was reached, the gang planks were ordered in and the steamer immediately departed for Boston, leaving behind about two hundred passengers which arrived here by the Bluebonnet. This act on the part of the customs, caused the passengers great inconvenience as a great many were returning from vacations and so great was their indignation that all kinds of threats were made towards the customs officials. In some cases when the ship was pulling out from the dock her officers almost resorted to violence to keep the passengers from climbing on to her railings. After about an hour's time, the crowd quietly betook themselves to the various hotels, where they will have to remain till Monday.

A LIVING MEMORY.

My absent daughter--gentle, gentle maid, Your life doth never fade! Oh, everywhere I see your blue eyes shine, And on my heart, in healing or command, I feel the pressure of your small, warm hand That slipped at dawn, almost without a sigh, So softly out of mine! --Wm. A. Croft.
