

ing-room and sleeping apartments. It has a velvet carpet, with easy-chairs and rockers and a piano. There is a neat kitchen, with all improved machinery, an armory and coat-room and the outside door has a door-bell. Under the car is a large coal and ice box. The rear platform is fenced in for kitchen buckets and game. There is also a common car for the dogs, boats and other necessary articles. By his contract any train which Mr. Marbo signals must stop and take his cars, and when he has reached a spot that suits him they are uncoupled and placed on a siding, there to remain till it pleases him again to move.

#### ANOTHER NONDESCRIPT.

We have seen a dog, a setter which is no better. This animal belongs to Myer Brown, of Portchester, N. Y. He is a pure white in color, save one lemon-colored spot on his head. His coat is neither wool nor hair, but appears a mixture of each. His tail is the longest that was ever on a dog; so long that it looks as if it had been spliced. It is so long that if it were not for a double curl it would look as if the tail owned the dog, and the body but a part of the tail. Here would be a veritable instance of a tail wagging a dog. Nevertheless this animal is well bred, being of pure setter lineage for four generations on each side. In the field, on woodcock, he is regarded by the shooting men of the vicinity to be a crack dog. On quail he is equally good. Brown has one consolation—no one would steal him, either for his beauty or to hunt with, if they did not know him.—*Turf.*

**BIG BAG.**—The Pt. Sarnia correspondent of the London Free Press says, Messrs. Joseph Taylor, Richard Ardle, Robert Hunter and Thomas Winfield, of Toronto, and Mr. Wm. Taylor, of this town, have just arrived from the Johnson Chenal, and bring back about 800 ducks. Mr. Winfield winged the largest drake.

The more heavily a gun is loaded the farther it will carry.

**BIG FISH.**—A monster maskinonge, weighing 52 pounds, measuring 5 feet 4 inches in length and girthing 26 inches, was caught in the bay at Belleville on Monday.

**SPARROW.**—Some English sparrows, imported into Strathroy a year or two, have increased and multiplied in a wonderful manner, and have established themselves in Watford, Parkhill, Forest and other places.

**POOR.**—Whitefishing on the Detroit River has ceased to be a profitable business, each year the number taken being much less than in the preceding one. This year the catch is so small that it seems ridiculous for men to waste their time over it. We have seen the nets drawn in repeatedly at several stations, and in no case were more than three fish taken at a haul, and in some cases none at all. Such a result for the labor of six or eight men and a pair of horses is certainly discouraging.

**CRICKETERS' BALL.**—Arrangements are being perfected for the annual ball of the London Cricket Club, which is to be held at the City Hall the latter part of this month. It promises to be quite as successful as its predecessor, and it was one of the best ever held in London.
