

U. S. Separator.

1904 MODEL.

A TRIUMPH OF PERFECTION. RIGHT UP TO DATE.

Not Only the Cleanest Skimming Separator
the World Has Ever Seen,

HOLDS THE WORLD'S RECORD - **AFRASE TEST FOR 25
CONCRETE PUMPS. .0138.**

**BUT THE HANDIEST AND
EASIEST OPERATED.**

The 1904 Model U. S. has the only
practical **LOW SUPPLY CAN.**

Fast Turn-Bushing - no lost motion
as soon as you pull on the Crank
the band begins to turn, and the
gearing stops when the crank is
released.

Safest Machines on the market, gear-
ing entirely opposed.

Easy for Service and Efficiency.

Investigate its merits and you will
buy none but

The U. S.

Read what President Dairying Authorities Say about the 1904 Model.

UNITED STATES COLLEGE, Dairy Department.

Urbana, Iowa, March 28, 1904.

Your new 1904 Model U. S. Separator has just arrived at our school, and has been
tested by a committee. The final figures are now placed in operation, they compare favorably
with the former style. The bearing on the crank has been a great improvement. The
figures that you have had here are a result of this latest given excellent satisfaction.
W. L. MILKER, Professor of Dairying.

UNIVERSITY OF CALIFORNIA, Agricultural College.

Davis, California, March 15, 1904.

The No. 1 U. S. Separator (1904 Model) runs much easier than the old style, and is a
very attractive and well made machine.
A. H. WATSON, Prof. of Dairying.
