Physicians

Know that there is a great deal of **adulteration in bread**, and that any article of food which is not made of the purest materials is most unhealthy. Medical men are consulted every day as to such matters, and I am anxious that the profession should know that I have for years **MADE A SPECIAL STUDY OF THE MANUFACTURE OF "Hygienic Bread,"** using only the purest of materials and employing only skilled workmen. Medical men are invited to visit my factory, as I feel sure that after doing so they will be justified in recommending my bread to their patients.
