

Norwich, England, 1786.

COOPER'S ALUM OINTMENT.

Norwich, New York, 1886.

UNGUENTINE.

"Very many good 'Cerates' we doctors have seen,
But the 'facile princeps' is Unguentine."—Doctor Le Seur,

Cooper's Alum Ointment, modernized by the addition of Sir Joseph Lister's sheet anchor, Carbolic Acid, together with Ichthyol and a Petroleum base, is Unguentine, a thoroughly antiseptic and non-irritating, astringent but soothing surgical dressing and ointment, which is indicated in all cases where there is inflammation.

Fourth Edition of Clinical Notes and Reports, with Sample, sent upon request.

The Norwich Pharmacal Company, Norwich, New York.
51 John St., New York

At Druggists, in Four Ounce, One and Five Pound Packages.

We invite your attention to our **Alpha Atomizers**. Note the tube in its different views, A B C D.

This tube is simply an air reservoir into which the bulb empties itself. By gradually collapsing it forces the air forward, the full supply of air not being entirely exhausted before the bulb again fills the tubes.

WE CLAIM that our **ALPHA ATOMIZERS** produce an abso-

lutely continuous spray with less labor to the hand than any other single bulb atomizer upon the market. Examine the cut and you will see how simple yet effective it should be.

For Sale by the Drug Trade, or

ALPHA RUBBER CO., Limited,

Illustrated Catalogue on Application.
