

Where'er one turns
He finds a STEARNS.

There is a "best"
in everything.

The --- Yellow --- Fellow

It is one thing to be a cyclist, and still another to be a satisfied cyclist.

The pleasure and profit to be derived from cycling depend largely upon the wheel ridden.

The Stearns is so light and easy running there's not a thought of exertion in its use. Then, too, it is the embodiment of strength, grace and speed.

The '97 Stearns (the acme of mechanical genius) is a feast for the eye. The delight of progressive wheelmen, and the wheel for you. Your name and address will insure the receipt of our beautifully Yellow Fellow Year Book.
