Analytica '90 (Core Area Stand)

Munich, F.R.G. – May 8-11, 1990

Laboratory Supplies, Equipment, Instruments, Diagnostics

This biennial event is an indispensable link between science, research, industry and users. Analytica features processes, equipment, supplies and chemicals for biochemical and instrumental analysis, laboratory installation and equipment, exhibits of biotechnology and genetechonology as well as environmental analysis. In 1988, some 660 exhibitors from 55 nations participated and some 28 500 visitors attended.

Informat '90 (National Stand)

Barcelona, Spain – June 4-9, 1990

Computers and Data Processing

Twelve Canadian companies are expected to participate at this annual show which features hardware, equipment, software services and telecommunications. Spain currently has one of the strongest economies in Europe and Canadian exports are booming. Until 1992 Spain will provide an open door to the European Economic Community (EEC), through joint-venture opportunities. In addition to
