

## ANNEX I

## INTERPRETATIVE NOTES

*General Note**Sequential application of valuation methods*

1. Articles 1 to 7, inclusive, define how the customs value of imported goods is to be determined under the provisions of this Agreement. The methods of valuation are set out in a sequential order of application. The primary method for customs valuation is defined in Article 1 and imported goods are to be valued in accordance with the provisions of this Article whenever the conditions prescribed therein are fulfilled.
2. Where the customs value cannot be determined under the provisions of Article 1, it is to be determined by proceeding sequentially through the succeeding Articles to the first such Article under which the customs value can be determined. Except as provided in Article 4, it is only when the customs value cannot be determined under the provisions of a particular Article that the provisions of the next Article in the sequence can be used.
3. If the importer does not request that the order of Articles 5 and 6 be reversed, the normal order of the sequence is to be followed. If the importer does so request but it then proves impossible to determine the customs value under the provisions of Article 6, the customs value is to be determined under the provisions of Article 5, if it can be so determined.
4. Where the customs value cannot be determined under the provisions of Articles 1 to 6, inclusive, it is to be determined under the provisions of Article 7.

These standards may be broad guidelines of general application as well as detailed practices and procedures.
