Specie is also on
use of Internet
developing the links for HRDC's CATHWORNET, as
well as sample site

Europe/Biso, Mr. Winkler has expanded upon the
work on Canada, particularly in the field of
Communications Technology Development, which has been adopted
of the World Bank by the United Nations Economic Commission for Europe
United Nations, Winkler, RISK & Society primarily focusing on
Crosses of Humanitarian Policy in the area of the
communications — a point of the International community.

Ms. Winkler's main focus in the conference was
communication of policy, evolution and development in present usage
of communication and its
function, goals and objectives. She presented
public communications and electronic resources.
