PLEASE QUOTE REF.

Lt. Col. Wilfred Bovey, O.B.E. Secretary's Office, McGill University, Montreal, P.Q.

Dear Colonel Bovey,

As I presume it will pass through your hands, I am enclosing a copy of letter I am sending to General Currie, with a request that you will steer it into the right basket.

It is self-explanatory, and I think it possible that you may have men passing out of McGill to whom the opening might appeal.

I cannot say that this branch has been very remunerative, so far, as we have spent a good deal of money and a lot of gime on spade work, but that is inevitable, on starting anything, and in these days I feel reasonably satisfied if I can make an engineering practice pay at all.

With kind regards,

Yours very truly, Haccout Prus
