REACTION IN CORN AFTER EARLY RISE

Chicago Inclined to View Argentine Rumors With Distrust—Wheat Sold Off.

CHICAGO, Jan. 25.—Corn and wheat today were steady, provisions firm and wheat heavy.

Wheat attained the best prices of the day early on an advance at Liverpool and in sympathy with corn, all the continental markets were generally lower. Heaviness developed later when corn failed to hold all of its advance, and the trade became convinced that various reports that stocks of wheat in the principal cities of accumulation are very large. New York, for instance, claimed that a lot of it is being held on track on demurrage. A red winter wheat at Kansas City were additional bearish factors. Clearances in wheat and flour equaled 34,000 bushels, while primary receipts were 1,195,000 bushels against 700,000 a year ago.

Bullish Argentine Reports.
Corn owed its early strength principally to an advance at Buenos Ayres and reiteration of reports that the wheat in the principal cities of accumulation are very large. However, the Buenos Ayres advance, however, was mostly lost and traders took cognizance of the fact that most of the bullish crop reports were coming from the Argentine central speculative market rather than from the corn belt proper. The local market then reacted from the top and may closed only a shade over yesterday. Spot corn was dull.

Trade in oats was small and fluctuations followed those of wheat and corn, May closing a shade up. The best buying was by shorts, while the selling seemed to come from more influential sources. Spot dull. Provisions were dull but higher in sympathy with higher hogs, although the week's receipts were larger than those of the previous week. Local longs were sellers on the advance, but the close was 5c to 7½c to 20c over yesterday.
