Senator Power said there was a great dock in Montreal. There did not seem to be justification for the expenditure of a large amount of government money to build another dock so near as the City of Quebec. There would not be enough work for the two docks and the expense of maintenance.

THOS. THOMPSON DIED THURSDAY

Well - Known Resident of Ward Seven Was Ill Several Months.

The death occurred yesterday morning of one of West Toronto's oldest and best known citizens, when Taximas Henry Thompson passed away at Gravenhurst, Ont. News of his death came suddenly to his wife and grown up family, for altho of late Mr. Thompson has peen in very poor health for some months following an attack of pneumonia early in the winter, yet it was not thought that his condition was serious.

The late Mr. Thompson was 56 years of age and was very well known in ward seven, especially in Orange circles. He was a past master of Golden Star L.O.L., No. 900, an officer in the MacCormack Black Preceptory, and a frequent visitor at the many other Orange lodges in this district. He was an enthusiastic Conservative in politics and at the time of his death was the president of the Ward Seven Liberal-Conservative Association. He is survived by a widow and a large grown-up family of whom Dr. J. J. Thompson of 1478 Dundas street is a son.

P. Quigley of 561 West Wellington street was injured in the head yesterday morning while at work in the abattoir of the Swift Canadian Company on St. Clair avenue. He was removed to his home in Speers' ambabases.

The civic works department has received petitions from residents in ward seven living on the following streets, against the proposed construction of macadam roadways: Weston road, south, from Keele street to the north city limits at a cost of \$17,748; Osler avenue, from C. P. R. to St. Clair avenue, cost, \$11,664, and St. John's road from Dundas street to Runnymede road, cost \$12,889. In some cases the protesting ratepayers desire a more permanent pavement than the proposed macadam surface.

A large audience was present last night at the first "story hour" for the "grown-ups" of Runnymede district, which was held in the library building, Herbert street. The library board have decided that, on account of the success of this, the first adult entertainment of this nature, they will henceforth be held at regular intervals and be made a separate department in the board's activities.

The Quebec survey and dry docks occupied the attention of the senate to-day along with routine business.

Senator Chequette moved for papers relating to the proposed drydoak at Quebec. He said Quebec had heard a sreat deal of talk about this drydock and he would now like to find out something definite about it. Senator Choquette said that the drydock had been the favorite subject of every minister who had addressed the citi-tens of Quebec.

According to the speaker, the location of the drydock changed with every speaker; and he wanted to find out if there was anything it, the report. His colleagues were getting impatient.
