Several Lots of Cattle Carried Over From Previous Day.

TRADE WAS DRAGGY

Business and Heavy Stock Declined Ten Cents on Market.

Receipts of live stock at the Union Stock Yards on Tuesday were 768 cattle, 214 hogs, 46 sheep and lambs, and 163

Stock 1870s on Tuosday were 168 cattle, 214 hogs, 46 sheep and lambs, and 163 calves.

There were several lots and loads of cattle, carried over from Monday's market, which, with the fresh arrivals, made a total of fully 1000, which had to be disposed of, a number that was more than equal to the demand.

Trade in consequence was dull and draggy, especially for the best heavy cattle, which again declined another 10 cents, if not more. Choice handy weight butchers also were on the easy side, and did not sell so readily as of late.

Stockers and feeders sold at steady to firm prices, that reached well up to value of the butchers' cattle of fair quality. In fact stockers and feeders were selling better than the fat cattle accordingly.

Milkers and springers of good to choice quality soid readily at steady to firm values, with Monday's quotations.

Veal calves came forward in larger numbers, and prices were again easier. The government regulations in regard to too young calves being sold on the market are being more rigidly emforced, there fore drovers must be careful, as to the class and age of calves placed on sale, It was reported that several were picked out and condemned on account of being too young.

Sheep and lambs sold at Monday's values.

Hogs were quoted at 15 to 25 cents higher values than we quoted on Monday.

After receiving a warning from the minister of war that in case of mobilization the public schools would be used to house troops, the municipal council met tonight (Monday) to discuss what measures would be taken in such an emergency. It was decided to have school sessions continued in hired buildings, substituting women for male teachers, who would be called to the colors. It also was decided that so far as possible street cars and other so far as possible street cars and other public utilities would be operated by women, provided mobilization resulted in a shortage of male employes.
