STEEL IN FAIR DEMAND

Reported That Equipment Orders
Were Coming Into
Market.

NEW YORK, April 28.—Tracing in
stocks today presented some unique
features in the sense that activity
and strength were most pronounced in
local specialties and a few of the industrial
and equipment issues, whose
companies are now furnishing large
supplies to foreign belligerents. Not
until the final hour did the usual
specialist favorites participate in
more than a small degree in the day's
operations.

Interboro-Metropolitan, common
and preferred, and Westinghouse
overwhelmed all other issues during
the first four hours, individual transactions
in the latter ranging from
100 to almost 3,000 shares, the stock
closing with a net gain in 9 points.
Advances of 2 to 3 points in fractions
were associated with the proposed
capital readjustment of the Interboro
Company, which promises successful
consumption.

Shares of General Electric, New
York Airbrake and the Locomotive
and kindred concerns rose 3 to 6
points, while Motors and more isolated
specialties trailed along to the
extent of 2 to 2 1/2 points.

The general advance of the last
hour, which was preceded by a brief
dip among the leaders, followed an
announcement that the \$3,000,000 of
Baltimore and Ohio 1-2 per cent.
notes offered by a banking syndicate
earlier in the day had been over-
subscribed, a few important stocks
failed to share in the general late
recovery, but a strong undertone
prevailed at the close, even secondary
rallies being noticed.

U. S. Steel was in fair demand
throughout the session, yesterday's
quarterly report being accepted as strong
proof of improved conditions.
This was supported by statements
from trade authorities to the effect
that many new orders for equipment
were coming into the market.
Total sales of stocks amounted to
\$94,000.

In addition to the B. and O. note
issue, it was understood that the
Pennsylvania and N. Y. Central roads
were completing the details connected
with forthcoming negotiations, presumably
in the form of bonds.

While changes thru the balance of
the day were smaller, they were on
the side of gains and closing quotations
for leading issues ranged from
about 1/2 to 2 points higher than the
previous day.

Canadian Locomotive and Iron
showed strength, as did Nova Scotia
Steel. Cement common was added
during the day to the list of stocks
taken from the committee's list.
Sales, \$230 shares and \$250 bonds.

MINING MARKET
AGAIN STEADY

Good Public Demand Appeared
for Some Issues
Yesterday.

BEAVER ON UPTURN

Gained Three Points—Timiskaming
and McIntyre Had
Reactions.

Mining shares were inclined to
strengthen on the Standard Stock Exchange
yesterday. There was a good
put in demand for some issues, but
others were almost neglected. The
buyers of mining stocks generally have
made good profits to date, since the
exchange opened, and are evidently
putting the profits into additional purchases.
Traders are not as a rule carrying
big loads of stocks, but are taking
profits in one and buying others, giving
the market a strong technical
position. This also accounts for an
active stock of one day being neglected
the next.

Timiskaming's actions were the centre
of interest yesterday and the stock
behaved well indeed, selling up to 20
on odd lot sales. The bid was 18.
Traders are of the opinion that there
would be little difficulty in putting out
a new issue of Dome Lake stock, which
seems to be necessary to the company
regarding its financial standing.

McIntyre eased off down to 32, and
traders sold yesterday, evidently antici-
pating that the statement to be sub-
mitted at the annual meeting next
week would not be as favorable as
expected. It has been pointed out that
this statement is only to March 31, and
actual mining of ore from the rich ore
bodies discovered some time ago has
been started since that date. It is
stated that the company will have
submitted at the annual meeting a new
statement of ore, which is at a higher
figure, 8 1/2. There was a big
market for the stock all yesterday, and
the street expects it will be the favorite
low-priced issue with the trading public.

There was little activity in the
Porcupine. Vipond was steady around
80 and sold at 13 1/2, and
Hollinger advanced to 24 1/2, a high
for some time.

Beaver was the feature of the
Cobalt list and gained 3 points to 37 1/2.
Timiskaming was very active, but
reacted to 39 1/2. Profit-taking again
appeared in the market, but the stock
took the selling well.

There was a general advance of
the last hour, which was preceded by a
brief dip among the leaders, followed an
announcement that the \$3,000,000 of
Baltimore and Ohio 1-2 per cent.
notes offered by a banking syndicate
earlier in the day had been over-
subscribed, a few important stocks
failed to share in the general late
recovery, but a strong undertone
prevailed at the close, even secondary

PORTO RICO PINES
IN LARGE QUANTITY

Shipment Received by Local
Wholesale Dealers for Dis-
tribution.

NEW CAULIFLOWER IN

Canadian Asparagus Was
Quite Plentiful and of Good
Quality.

Between fifteen hundred and two thousand
cases of Porto Rico pines came in
yesterday, and were divided among the
different wholesalers, the 1 1/2's selling at
\$3.50 to \$3.75 per case, and the 2 1/2's and
3 1/2's at \$3.75 to \$4 per case.

New cauliflower came on the market
yesterday, selling at \$2.50 per case.
Canadian asparagus was quite plentiful
yesterday and was of good quality, selling
at \$2.50 to \$3 per 11-quart basket, the bulk
going at \$2.50 to \$2.75.

White & Co. had a car of mixed vegetable
crops—carrots at \$2.50 per hamper, cauliflower
at \$2.00 per hamper, cabbage at \$4
per large crate; also a shipment of peas
at \$3.50 to \$4 per case.

James Brox had a shipment of asparagus
from J. A. Lindley, Burlington,
and cucumbers, selling at \$2.25 per 11-
quart basket.

McWilliam & Everist had a car of oranges
and a large shipment of asparagus,
selling at \$2.50 per 11-quart basket.

Chas. A. Simpson had a car of Ontario
potatoes, selling at 55c and 60c per bag.
Dawson-Killott had a large shipment of
Canadian potatoes, selling at \$2.50 per
11-quart basket.
