#### MANY DISAPPOINTED

Lack of Interest in Meeting to Organize for Trafalgar Day Scored.

By a Staff Reporter.

HAMILTON, Thursday, Oct. 14 .-Judging from the attendance at the meeting held in the city council chambers at the city hall yesterday afternoon for organization for the collection of funds on Trafalgar Day, Thursday, Oct. 21, to be expended by the British Red Cross Society in its work on the battlefield and in the hospitals. the citizens are showing little interest in the matter and those present were

While those present represented the city and many societies and other or-ganizations, nothing definite in the way of organization was decided upon, and the public will again be requested to attend a meeting which will be held in the council chambers at 8 o'clock Friday evening. Nearly 200 invitations were sent out to prominent business men and women of various societies about a dozen was present. Sir John Disappointed

Sir John Gibson was disappointed that so few took enough interest in the work to be present. He suggested that no further action be taken in the matter of organization, and to allow the people to give as they saw fit. He said that at no time was the British Red Cross Society in greater need of furds than at the present time, and asked what work could be more pressing or for a greater cause. He scored the citizens of Hamilton for the lack of interest in such a great cause, and suggested that the city impose a tax so that everybody could be reached, and that substantial grants be made by the city. If a tax was imposed, not only those who would give freely and allow the willing to do it all.

Mayor Makes Appeal.

Mayor Walters, who will act as chairman of the organization, said that Hamilton as a city and its citimatter of organization, and to allow the people to give as they saw fit. He

that Hamilton as a city and its citizens should do full justice to the cause and respond liberally to the call for funds. He made suggestions that everyone should donate one day's pay, that collections should be made at all the schools, that the theatres and other places of amusement should be asked to donate the receipts of Trafelgar Day, that a tag day could be held and that a small tax be placed on the people. While the dependants of the soldiers should not be forgotten and that many other calls for funds are continually being made, the citizens of Hamilton should respond nobly to this cause, which is the greatest of all.

Soldiers' Insurance.

Hamilton has arranged insurance for all her soldiers who have passed the necessary military examination. Others will be insured as the need becomes imminent. Yesterday City Treasurer Leckie forwarded the city's cheque for \$45.841.40 to the head office of the Aetna Life Insurance Company. Married men have been insured for \$1000 and single men for \$500. The civic fathers believe they have secured a very advantageous rate. If but fifty married men are killed, the company must adjust claims of \$50,000, which is more than the total premium. A clause has also been added that if an insurance.

W. A. Robinson suggested that a tax of \$30,000 be placed on the citizens, which \$30,000 be placed on the citizens, which would be augmented by other donations, and this will be submitted to the meeting tomorrow evening.

Hose Wagon Struck.

While returning from an alarm about 9.30 last evening, the Bay street hose wagon was struck by a Brantford radial car near the corner of James and Main treets. The wagon was traveling along the track, and did not turn out in time to avoid a collision. The car struck the front of the truck and broke the footboard and one of the ladders. Three well-known girls employed in Miss McMurray's dressmaking establishment in the Central Chambers, 37 West King street, had quite an exciting experience last evening when they were locked in the building by the fanitor for several hours. They were working evertime and when they had finished they found that they were imprisoned. For some time they treated it as a huge joke, but in an hour commenced to think seriously of their predicament. They had fears of remaining in the building all right and set about to find some means of escape. They tried all the windows but could not raise them, and finally one of the girls, in desperation, broke the lock and halled Constable Emmerson, who was walking his beat. The officer tried to break in the door, but failing in this went to the central fire station and secured a long ladder, and with C. Smith of The Toronto World, returning to the building they carried the girls down the ladder to the street.

Technical Education. In an effort to convey to the pupils of the separate schools an idea of the value of technical education, an educational motion picture entertainment was given last evening in St. Mary's Cathedral Lyceum. Addresses were delivered by offi-cials of the Technical School, explaining the advantages to be gained by this form of education, and pictures were thrown on the screen illustrating actual work in technical schools, and of the results in

was directed against the government's lack of foresight in attempting to avert Bulgaria's understanding with Germany, and lack of energy in failing to arrange for an ample landing force at Saloniki to offset the German and Bulgarian move in the Balkans. In a ringing reply M. Viviani defended the course of the government. He declared that it was obliged not only to consult the parliamentary comonly to consult the parliamentary com-mittees but to maintain the good faith of its position with the allied governments, which did not permit it to lay a complete explanation of all the military policies before parliament. He declared that M. Delcasse's resignation was not due to any discord in the

tary policies before parliament. He declared that M. Delcasse's resignation was not due to any discord in the ministry, as M. Delcasse had always assented to the various steps taken.

Resignation of Delcasse.

Announcement was made at noon that Theophile Delcasse, foreign minister, had resigned and that Premier Viviani would take the portfolio of foreign affairs with the presidency of the council.

One of the main reasons assigned for the retirement of M. Delcasse, who had taken a prominent part in shaping the foreign policy of the government since early in the war, was nervous exhaustion due to over work. In the chamber of deputies this afternoon the premier declared there had been no discord between M. Delcasses and the government upon the nation's foreign policy.

He was asked to read M. Delcasse's letter, but refused, repeating that there was no discord.

Interrogated Ministry.

Prof. Paul Painleve, president of the committee on foreign affairs, said he was saddened to hear the premier extent of foreign affairs. Prof. Painleve said in the agove also in the names of the presidents of the committees of the army and navy. "We do not," he said.

President Deschaneal finally restored order. Prof. Painleve concluded his remarks by saying that if feeling were running high it was merely on ac-count of anxiety that the French landing expedition should be organized

The members resumed an attentive silence when Premier Viviani arose. The premier began by saying that he did not wish to see the debate degenerate into "political puglism," and he declared that this was no longer the time for discourse but for brief, clear explanations.

Important Subjects Discussed at Meeting of Earlscourt -Business Men.

**DELIVERY OF EXPRESS** 

Better Accommodation Necessary and Communication is Read.

A general meeting of the Earlscourt Business Men's Association was held last evening in Earlscourt School, Dufferin street. President John Walshe occupied the chair.

Among other important subjects discussed were the necessity of cluster lights for St. Clair avenue, foot crossings between intersections on St. Clair avenue, the juvenile court and the park site for Earlscourt and express deliveries. The following resolutions were adopted: "That a letter be sent to Mayor T. L. Church, pointing to the fact that several communications to Ald. Maguire recluster lights for St. Clair avenue have been ignored, which have been sent from the association and requesting his assistance in the matter."

"That the secretary write Allan Royce, asking the amount he requires for the Royce property of about 32 acres as a probable park site for the district."

"That a deputation of three members wait upon Commissioner Edward W. Boyd of the juvenile court at his residence at an early date to discuss suggestions regarding the dispensing of justice at the juvenile court."

Need Breathing Space.

Regarding the matter of a park site for the district, Secretary C. H. Ralph said: "The people in the northwest section are in need of a breathing space and it is high time that something definite was done in the matter."

H. Keys said: "The association should disassociate itself from some opinions expressed at the meeting of the parks committee and board of control meeting on Tuesday last. We want a park in Earlscourt, but not a park at any price, and the secretary should be empowered to write Mr. Royce asking the amount he will sell his property of 32 acres to the city for."

It was decided to push the matter of crossings between intersections on St. Clair avenue to the utmost. The matter of the swimming pool was laid over.

M. Chaumet said that if the Saloniki expedition was in the same hands as that to the Gallipoli Peninsula, the chamber had reason to distrust its results. Prof. Painleve and M. ## FARMERS KEPT BUSY WITH LATE HARVEST

Present Season One of the Liveliest and Rivals Real Harvest Time.

Ontario-farmers have never experienced such a busy season as the pre-sent, rivaling even the harvest, the continued moisture in the land making t almost impossible to get on with anything except plowing on the well drained or high lands. Not more than 50 per cent. of the ensilage corn is cut, and less than that has been put into the silos. While there have been no severe frosts, the ensilage corn is, where not cut, almost ruined and valueless for food purposes.

"From 20 years' close practical experience in corn raising and curing, I am convinced that when cut immediately after the first or second frost no born in done to the corn

frost, no harm is done to the corn but repeated rosts remove all virtue," said J. Lockie Wilson, superintendent of fall fairs to The World. Mr. Wilson said that between Toronto and Milton yesterday he saw many fields of corn apparently ruined. This is regarded as being brought about thru inability to get the corn harvesters on the ground, and farm

help today was too scarce to permit of the old method of cutting with the sickle. Many farmers thruout York County, and over the province generally, have had recourse, however.

to this plan to save the crop.

Under the most favorable weather conditions, it is estimated that two weeks will be required to clear off the corn and roots before much fall plowing can be done. Little is done and everything depends upon the fall how the work is advanced; farm help is almost impossible to secure and work can be had for a time on any average farm in the county or outside of it.

#### ORGANIZED CLASSES FOR MEN AND WOMEN

Young People of Victoria Presbyterian Church Take Course in First Aid.

Victoria Presbyterian Church, Annette street, has organized both a young men's and a young women's class for a course in first aid. The men's branch is under the auspices of the young men's Bible class, and is directed by Dr. A. T. Macnamara. The women's missionary auxiliary, of which Mrs. D. T. L. McKerroll is president, is directing the women's class, with Dr. J. Dow as instructor. Examinations will be set and successful pupils will be given certificates. A number of the women purpose taking a course in home nursing at the conclusion of their training in first aid.
