Rainfall, 1882, 27.85 inches
 " 1883, 27.65 inches.
 " 1884, 23.49 inches.
 " 1885, 23.14 inches.

Rainfall, 1886, 27.59 inches.
 " 1887, 38.05 inches.
 " 1888, 25.77 inches.

W. T. LIVOCK.

The climate of the interior is drier, more severe, and more bracing than that of the Coast; but neither in length of winter nor severity can it compare with that of the North West.
