

St. Ann . . .	Formerly good. Now few salmon taken. Mill-dam across.		
Mount Louis . . .	Important stream. More noted of recent seasons for sea trout than salmon.		
Magdelaine . . .	Salmon river, clear.		
Dartmouth . . .	First-class stream, flowing into Gaspé basin. Abounds with salmon.		
York . . .	Do.	do.	do.
St. John's (<i>du sud</i>) . . .	Do.	do.	do.
Grand . . .	Fine salmon-fishery. Mill above.		
G. Pabos . . .	Salmon-fishery. Superior station.		

Flow into Bay of Chaleurs.

G. Bonaventure . . .	Large and valuable stream. Many tributaries. Abounding with salmon.
Cascapediaes . . .	Both the little and great Cascapediaes yield high numbers of salmon.
Nouvelle . . .	Good salmon fishery in bay.
Matapediac . . .	Considerable magnitude, and abounds with salmon.
Restigouche . . .	Noble river. Has fine tributary streams. Salmon frequent it in large numbers, and of heavy weight. Head of Bay Chaleurs.
Patapediac . . .	Branch of Restigouche. Salmon ascend it about forty miles.
Mistouche . . .	Feeder of Restigouche. Salmon river.

Nearly all the rivers described in the foregoing schedule are tidal streams, and most of them have stationary salmon and trout fisheries within the embouchure, and at bays, coves and inlets on either sides. Those upon the north shore of the St. Lawrence descend out of wild, rocky and mountainous country.

Most of these streams, with their numerous tributaries, and the large lakes at the head of each branch, present every variety of river and lake adapted to the breeding and feeding of fish.

Where there are mill-dams it is specially so noted. None elsewhere.

The names of certain Rivers at present advertised for sale are printed in italics.

The true salmon (*Salmo Salar*), and the tide trout (*Salmo Trutta Marina*), are herein mentioned.
