and for the most part showing a tendency to react.

A conspicuous feature of the trading was the decided neglect of the cotton and paper stocks, and to a less extent the power stocks. Only 200 shares of listed power stocks were traded in, and at the expense of buyers. In the cotton group, only Canadian Cottons preferred was traded in to the extent of a board lot. 100 shares changing hands at 81, unchanged from the previous close. In the papers, only Spanish River common and Wayagamack furnished board lot transactions, the former selling to the number of 55 shares at 19½, off the fraction from the week-end, and the latter selling to the number of 100 shares at 50½ to 50. The war loans were again irregular, with the old loans the stronger features, the 1931 adding 1½ per cent., at 99, and the 1931 adding 1½ per cent., at 99, and the 1931 adding 1½ per cent., at 99, and the 1931 victory was the only other war loans to show an advance.

ORE SHIPPED FROM TRAIL.
