		5 2	6 52	11 55	

organs by suspending others). In a word Radway's Ready Relief braces up the entire system, and drives out every particle of malarious poison that may exist. In these cases it is necessary to regulate the liver, spleen, stomach, skin and kidneys to a healthy action; this is secured by Radway's Pills. Now let any person seized with Fever and Ague, as soon as the fever is off or the Chills on, take a spoonful of Ready Relief in water, every hour for six hours, and rub the spine of the back with the Relief clear; follow this up every day. To those that are subject to attacks, either every day or at longer periods, it will do more good than all the quinine and other remedies in the world. Take Radway's Pills in large doses every night, and a cure will soon be made, after which a teaspoonful of Ready Relief in water three or four times per day BEFORE meals, and two or three of Radway's Pills at night, will protect every settler in Ague districts against attacks. Let this be done if you wish to avoid attacks of Fever and Ague or any other malarious Fevers. For the prevention and cure of this disease alone, Radway's Ready Relief and Pills are worth a farm to every settler. No home or family should be without these remedies.

Ready Relief cures Snake Bites.

Ready Relief taken in water fortifies the system against Malaria.

Ready Relief and Pills cure Indigestion and Foul Stomach.
