

A Beautiful Girl

Dead Recently at a New Hotel, was a Suicide.

she had contracted consumption, this means of forestalling its long and misery. Every person who takes colds and neglects them, is virtually committing suicide. In these days of enlightenment every one should know how important to their well-being, and how delicate is the mucous membrane that lines their whole respiratory system. Paroxysms of coughing rack and inflame this delicate membrane and until it is for its office, until finally it is weak and flabby and succumbs to the bacilli of consumption. Before a case of this happens try Douché. It is made of the best known to the scientific world—herbs and extracts—precisely the physician would prescribe for you if you would have made up at a triple the expense of Shiloh's. Do show some common sense and save yourself suffering and expense. United States, 25c, 50c, and \$1 a bottle, in 12, 24, 36, 48, and 60.

Michie's Coffee

Has a reputation which words can add but little to. There are still some housekeepers in Toronto who do not know its superiority and excellent value—or, knowing it, are not taking advantage of it, and to them this little adv. appeals.

CHANCE FOR CANADIAN PRODUCTS.

A Good Trade Can Be Built Up With the West Indies if Proper Methods Are Observed.

Alex. W. Murdoch, colonial agent and promoter of the Canadian West Indies Company, Co. operating between the West Indies and Canada, furnishes the following from recent advices:

The Federated of Grenada, W. I., says: "There is not a sign of rain as yet in the clouds and there is a speedy change in the weather. Vegetation is dry and parched, and livestock have scarcely anything to live upon. In fact, if we have no rain soon, all our crops will be dropping dead from sheer starvation. Every blade of grass has been burnt up by the sun, and there is no fodder anywhere, and how the livestock continue to exist is a kind of mystery."

The price of food stuffs is high. With the war, imported provisions have increased in value, whilst native foodstuffs are so scarce as to command famine prices. This is now the chance for Canada. A commitment or two of foodstuffs and provisions from the Dominion will restore prices to their normal position, and will result in giving Canadian fellow-citizens a good footing in our market.

"Large tracts of young cocoa in some parishes have been burnt up by the weather, and fields of nutmegs have been almost absolutely destroyed. In some cases the nutmeg fruit have been burnt and charred by the sun, and the mace and kernel were almost pulverized."

To aggravate the sufferings of land-owners, several fires have occurred, principally through peasants firing the dry weed and bushes. On Monday evening, for instance, about 50 acres of cocoa at St. Rodney, in St. Patrick's, the property of Mr. F. Copland, was destroyed in this way, and several fires have occurred at Beaufort, in the parish of St. George's, the property of Mr. P. Neekles."

Off to the Saguenay.

Allan Douglas Brodie (Herbert Chesnut), the well-known Canadian writer, and Mr. D. B. Stettin left for the Capstan Saturday for Montreal, where they will be joined this week by Mrs. Chesnut and children.

The party will then proceed to Quebec and the lower St. Lawrence, and up to the head waters of the Saguenay.

In the vicinity of Chicoutimi and Roberval Mr. Chesnut will devote his time to studying the folk-lore and habits of that picturesque region, the Montagnais Indians of the Laurentian Hills.

Railway Notes.

The Grand Trunk Railway have decided to make a change in their city office at King and Yonge-streets, which will come as a surprise to railway men. Mr. W. W. Hamilton is to be succeeded by Mr. W. J. Ryder of Quebec, who will take charge on Dominion Day.

The Canadian Pacific Railway will run a special train to the G. W. A. meet at Peterboro, leaving Toronto on Thursday evening next at 9 o'clock.

SCHOONER JANE GRAY ASHORE,

But Not Sunk as Reported—Crew Safe—Yukon River Is Very Shallow.

Victoria, June 25.—The steamer William, the Seattle schooner, Jane Gray is ashore near Kyugot. This is the schooner which was reported to have gone down 80 miles out at sea, with a loss of all hands, save the few who escaped in Major Ingram's steam launch. It seems, therefore, that when the survivors saw the Jane Gray disappear she was simply swept over by a wave, and subsequently drifted to almost the same spot where the launch made the landing.

The Indians who reported the wreck had made no examination and could not say if any bodies were on board. The Government steamer Quadra leaves for the west coast to-day and will visit the wreck to make examination.

Reports from the north say the Yukon river low and few steamers will be able to get up. The Colonel calls upon the Dominion Government. In view of this, to forthwith supplement the provisions of the act, so that as much rail as possible can be laid between the Yukon and Lake Teslin during the next 100 days.

BOYS' BRIGADE GAMES.

First Annual Field Day at Island Park on Saturday Afternoon.

The Winners.

Toronto Battalion of the Boys' Brigade, held its first annual field day at Island Park Saturday. The following companies were present. No. 1 Eglinton Presbyterian, No. 3 St. Marks Presbyterian, No. 4 Zion Congregational, No. 7 West Presbyterian, No. 9 Returned Episcopal, No. 10 Carlton Methodist, No. 11 Broadway Congregational, No. 12 Broadway Methodist, No. 13 Central Presbyterian, No. 14 Bathurst-street Methodist. The entries were numerous and the competition keen, yet although the young athletes fought staunchly for honors, everything came off smoothly, good nature apparent with vanquished as with victor.

The day's work high gave Co. No. 11 the gold medal, resulted as follows:
