FIUMAN NAVY FORMED strike in Great Britain over the BY D'ANNUNZIO-FROM

Named As Units.

Pola, Monday. Sept. 22.-Four Italian warships, the battleship Dante Alighieri and the destroyers Mirabello, Nulla and Abba, are named as units of the "Fiuman navy," in a proclamation written by Capt. Gabriele d'Annunzio and distributed in this city.

The proclamation praises the men of these ships for "their loyalty to the Fiuman cause," and extols them for their "valorous acts." It is stated here it was because of the desertions of these four vessels from the regular Italian navy that allied commanders were forced to withdraw from the harbor of Fiume, which was considered unsafe while the Dante Alighieri was anchored there, and was loyal to the d'Annunzio cause. warships, the battleship Dante Ali-

Dispatches from Fiume soon after Capt. d'Annunzio's coup stated that the Dante Alighieri was unable to leave that port because her machinery had been damaged by the crew, but more recently it has been reported she had departed, having on board Admiral Cassioniva, who was placed under virtual arrest in Fiume when he landed and attempted to interfere with Capt. d'Annunzio's control of the town. There is no record in available lists of the three destroyers named in the foregoing dispatch, and it is probable they are vessels which have been built since the beginning of the war. The action of the railway executive came somewhat unexpectedly, despite the gloomy forecast of an approaching crisis given by Secretary Thomas in the house of Commons yesterday, as inquiry among leaders of the railwaymen's union during the morning revealed a feeling that his opinion did not accord with the general view of the men. Before the meeting at which the ultimatum was framed, which was a session of the full executive body of the national union of railwaymen the belief was voiced in most quarters that Continued on page 3.

Paris, Sept. 24.—"As a nation we consider the Fiume matter settled, because we have actual possession," said Gen. Giuseppe (Peppico) Garibaldi to an Associated Press representative here this morning. Garibaldi had just reached Paris from Rome, coming on what was said to be an important mission, from which he would go to meet Capt. Gabriele d'Annunzio, the insurgent Italian leader in possession of Fiume.

"Had d'Annunzio not gone in," continued Garibaldi, "we would have done it within fifteen days. If President Wilson were moved by the right spirit," he added, "he would permit the whole question to be decided by Great Britain, France and Italy. In that case, we are satisfied that our rights would be recognized by the majority of Americans."

FORMER GOVERNOR TO SEEK SETTLEMENT WITH D'ANNUNZIO

Rome, Tuesday, Sept. 23.—It is announced by the Idea Nazionale that Admiral Umberto Cagni, who was appointed governor of Fiume shortly after the armistice was signed last fall has agreed to proceed to that city to set the government's propositions with regard to Fiume before Gabriele d'Annunzio.

A dispatch to the Messagero from Fiume quotes d'Annunzio as declaring he rejected in advance the project of assigning Fiume to Italy, and turning over Abbazia and Volosca, across the bay from Fiume, to a small buffer state.

Washington, Sept. 24.-Francisco Villa, "general-in-chief of the revolutionary forces in Mexico, in "manifesto for the nation," a copy of which has just reached Washington, assails President Carranza as "a traitor," and calls upon Mexicans to join him in a new campaign against the regime of Carranza. STRIKE SITUATION

Reports from all steel centres today recorded little change in the
alignment of the opposing forces of
the labor unions, and the steel companies. In the Mahoning Valley of
Ohio, the strike is complete.
All of the 45,000 wage earners idle.
Elsewhere the struggle is being
carried on with various success, the
issue still being doubtful on the
great strategic sectors radiating
from Pittsburg and Chicago.
In the Pittsburg district the Carnegie Steel Company announced today that the situation "looks good"
and backed up its optimism with
claims that men were returning to
work in considerable numbers. These
claims were stoutly denied by W.
Z. Foster, chief of staff for the
unions.

The situation around Chicago is more definite than that in the Pennsylvania region. A majority of the mills are closed, and those still operating are doing so with reduced forces. The threatened sympathetic strike of the lake seamen seemed nearer as the result of the refusal of the eleven ore freights to dock their vessels.

William Z. Foster Says That Workers Will Not Consider "Peace Plans" At Meeting Today-Will Discuss the Advisability of Extending Strike To Include Seamen and

Pittsburg, Pa., Sept. 24.—Interest in the nation-wide steel strike which has been in progress since last Monday, centres today in the meeting here of the national committee for organizing iron and steel workers. Those in close touch with the strike are of the opinion that the session called by William Z. Foster, secretary-treasurer of the committee, will bring out important facts of workers who heeded the call of their leaders.

Mr. Foster declared that the committee will not consider "peace plans." but will discuss the advisability of extending the strike to include seamen on Great Lake carrier vessels and union trainmen. The question of financing the strike will come up, and Mr. Foster says he will bring to the attention of the committee the "unprovoked assaults" by state troopers on strikers. According to the secretary, the union is preparing for a long struggle, and declares the workers will "fight to the bitter end."

STEEL STRIKE CONSIDERED AS START OF BIG INDUSTRIAL WAR

Washington. D. C., Sept. 24.—Congress is inclined to view the steel strike as "the first skirmish in industrial warfare," possibly only the pre-jude to the long-talked-of "showdown" between capital and labor, which many have predicted would come in the readjustment from war to peace.

The open statement by some of the strike leaders that the strike is 'he start of a movement to socialize the basic industries of the country, coupled with the fact that the railway workane already have proposed, in the so-called Plumb plan, to socialize the transportation highways is regarded in congress as very significant.

The pending resolution by Senator Kenyon (Republican, Iowa) to have the senate labor committee investigate the causes of the strike, hearing both Chairman Gary of the Steel Corporation on behalf of the workers, on behalf of the workers, is planned to open behalf of the senator from Iowa explains it.
