IS THE SHORTHORN DOOMED?

Decidedly no, unless the advocates of this grand old breed succeed in confining her usefulness to the beef-type animal.

The advocates of a more sensible handling of the Shorthorn type are growing in number. The opposition is also keen.

One big reason why some Shorthorn breeders will oppose any performance pedigree is the extra labor involved in the working out of the scheme.

But foresighted members see that the present elevation of the beef type and the selling of animals because of beef qualities, and of their paper reputations, will drive the raising of Shorthorns from the average 100-acre farm.

There are difficulties in the way of unlimited expansion of the dairy side of the breed, but surely something can be done to maintain a certain standard of milking excellence that will induce our farmers to adopt and stay with the good old Shorthorn milk cow.

It is useless to argue that the average farm cow of to-day is better than she was years ago. That is absurd. Stockyards tell far different tales. But there is no reason why a return to better conditions cannot be made now. Farmers will welcome it.

It will be to the interests of every Shorthorn breeder if his annual meeting gets down "to its knitting," and does something along the line of what some may call heterodoxy in this breed society.

Many people believe that there are certain words in Shorthorn jargon and catalog diction that have been a curse to the business. Certainly one does not have to travel far among farm sales to see what this means.

This, indeed, has been heresy run mad, in the breeding of Shorthorns, and Ontario will do herself grand honors if she moves to-day in the annual meeting of her breeders.

Men who desire this change would do well to let all chaff blow off; no arguments along the good-enough line will be of service to future Shorthorn trade. Now is the time to fire the gun.

The Farmstead.

Attend the stock meetings this week. Seed Growers' convention is on at Ottawa.

Douglas' sale on Wednesday next in Markham. Farmers who have seed grain to sell would do well to advertise in these pages early.

The grange do move. Master Lethbridge reports good progress. Union Grange, Whitty, holds an oyster supper on Wednesday evening.

What about this poultry ads? Now's the time. Farm labor is going to be considerably cheaper this year.

Intensive farming on a small scale is a profitable and pleasant outdoor life. The application of lime to the soil hastens the decay of vegetable fertilizers and is therefore a valuable agent in producing direct results.

Altho snowbanks on the side roads are high, parties will do well to visit the sale of Alex. Douglas' at Markham, on Wednesday, when some of the best and most valuable animals at right prices.

Export certificates to the number of 113 were granted for Clydesdale stallions and mares sent to foreign countries from Scotland last year. Canada was by far the largest purchaser.

Announcement has been made several times of the dispersal sale of the Shorthorn cattle and Clydesdale horses, belonging to J. E. Disney & Son, Greenwood, Ont., to take place on Wednesday, Feb. 12, comprising 30 head of Shorthorn cattle and several imported and Canadian-bred Clydesdales. Much importance attaches to this sale, as it is an old established herd, and is therefore a valuable agent in producing direct results.

Those people who intend having auction sales this winter and spring, will do well to try advertising on the Farming and Live Stock pages of The Toronto World. It can safely be said that more people read The Daily World in Ontario than other papers. It gives the advertisers an undoubted publicity, snaring no pains to place the wares of the people before their buyers.

Dates for the prominent British horse shows for the coming season have been arranged as follows: Glasgow stallion show, Feb. 5; London Shire horse show, Feb. 25-27; London Hackney show, March 2-6; Liverpool Cart Horse parade, May 2; London Cart Horse parade, June 8; Richmond horse show, June 12-13; International at Olympia, June 18-27; English Royal show (Newcastle-on-Tyne), June 30-July 4; Scotch Highland and Agricultural show (Aberdeen), July 21-24.

DOM. CATTLE BREEDERS DISCUSS WINTER FAIR

Is Guelph Likely to Be a Success? Attention Given to the Prouction of Poultry and Eggs Pays—Keep Good Birds.

The annual meeting of the Dominion Cattle Breeders was held at the Palmer House yesterday afternoon. President John Gooderham in the chair. The proposal of the executive to better the quality of the stock to be shown in Canada was discussed. Messrs. A. W. Smith, John Bright, A. P. Westervest, R. H. Harding, J. Lloyd-Jones, W. A. Dryden, R. J. Mackie, Robert Miller and others took part in this. It was the opinion of the meeting that sales in the west ought to be left to private enterprise, while a car load of animals might be sent there by the association for show purposes.

Mr. Mackie, hereafter breeder of Oshawa, made a strong appeal for better representation of this breed at the Guelph Winter Fair, and this opened the whole question of the annual report that the entries in all live stock this year were considerably lower than for the last four years.

It was strongly contended that amateurs and counties should have more enough vices many novices. Altho attention paid their exhibits, Mr. Lloyd-Jones of Burford made the assertion that it might be better to take the fair to Toronto or to some other place for the dressed carcasses. He had an exhibitor at this fair for some time, and had had come to the conclusion to quit the fair. He contended that many of these exhibitors, the entries were under harder restriction than at Chicago.

It was evident from the tone of the meeting that the winter fair at Guelph was not a harmonious proposition. Messrs. Archer, Johnston and John Bright had a motion passed for the following breeding classes from the lists.

DISNEY'S CLYDESDALES. J. E. Disney and Son will sell several choice Clydesdale fillies and an imp. stallion of recognized worth on the 12th.

Boy in Blue, a son of Top Gallant, is a big well-made mare with best of legs and style in appearance, she will be a good investment for some one. Her breeding is first class.

For sale, Lady Hillview, by Holsteane Chief, Imp. She weighs over 850 lbs. and is a pure bred, rising two-year-old.

Holsteane Chief (imp.) will need no recommendation to bring buyers. His stock in the sale will be guaranteed enough that he has the right kind of winning horse Robin Oig (3765) by McGregor.

Nelle of Hillview is a late yearling, naturally neat in her conformation. She has such crosses as Brown J. Imp., Red Gauntlet, imp., and Champion.

Brookfield Maid, raising 3-year-old, is another good example of the kind of stock that Holsteane Chief gets.

Hilvies Wilkes (1245) is a rising 3-year-old, and is as neat a thoroughbred trotting stallion as one will see in this time. He was sired by a yearling, first in Oshawa and Markham as a 2-year-old, and also diploma holder.

These horses there were sold a Border Duke mare, 3-year-old, a model for constitution and limbs, supposed to be a foal, a general purpose mare, a driver, 3-year-old; 1 filly 2-years, and 1 gelding, 2 years, exceptionally large.

Mr. Disney's sale should be well attended, as he has proven his ability to breed good animals, and his reputation for honest dealing will ensure everyone getting a square deal. All accommodation will be given to visitors. Be sure to be present.

New British Battleship. DEVONPORT, Feb. 3.—The keel plate of the new British battleship Collingwood was held here this afternoon. The vessel will be launched next September. She will be of 19,200 tons register, and the plans call for an improvement on the famous Dreadnaught.

WARM FEET. KINGSTON, Feb. 3.—Because James King had contracted the cold from Ernest Blackman of "A" Battery, swore at Magistrate Farrell in the court this morning, giving him a year in the Central Prison for his crime, the magistrate asked the constables to put the prisoner back into the stocks and to his sentence a year—added another year for contempt of court.

The invitation extended by the department of agriculture to have the Pomological Association meet in Ontario this year, is placing an article on a shelf in the cellarway when she fell rather heavy. She sustained a broken arm, dislocated thumb, and concussion of the brain.

Heavy Hog Receipts. It fairly rained hogs during the month of January, not only at Chicago, but at all markets. Receipts at Chicago broke the January record, with many to spare, and lacked only 200 of wiping out the month's record established November, 1899, when 1,111,000 hogs were received. There never was such liquidation in hogs as developed since the first of the year. Prices were crushed so low that it was unprofitable to feed 5-cent corn, and there was a general panic throughout the country. At the five principal markets of the country January receipts total 2,470,000, which is an increase of 700,000 over last year. Prospects are that the supply will be rather heavy in February—Chicago Live Stock World.

Gait Woman Severely Injured. GALT, Feb. 3.—(Special.) Mrs. Geo. Atkin, aged 79 years, a widow, met with an accident which may result fatally. 43 CARS AT JUNCTION GOOD CATTLE SELL HIGH

Scarcity Increases Values—Sheep, Lambs, Calves, Steady—Hogs Lower at \$5.15.

Receipts of live stock at the Union Stock Yards were 43 carsload, composed of 730 cattle, 342 hogs, 30 sheep and one calf, as well as 70 horses.

The storm hindered many consignments of cattle from reaching the market, as well as five carsloads of horses.

The quality of fat cattle generally was not good, only a very few loads being at all finished.

Owing to a light delivery, prices for cattle were firmer all round.

Prices ranged at from \$4.00 to \$4.40, but only one load at latter price, which was sold by Maybes, Wilson & Hall, who topped the market for export steers; export bulls, \$4 to \$4.50 per cwt.

Butchers. Choice picked lots of butchers', \$4.75 to \$5.00; loose, \$4.25 to \$4.50; medium, \$3.75 to \$4.00; common, \$3.00 to \$3.50; cows, \$2.75 to \$3.00.

Feeders and Stockers. None offered, but there is a fair demand for steers, 800 to 1000 lbs. each.

Thomas Halligan bought three loads of exporters at \$4.30 to \$5.20 per cwt. Alexander McIntosh bought two loads of exporters at about \$5 per cwt. J. L. Rowntree bought one load of mixed ed cattle, common, at \$2.50 to \$3.50; 500 lbs., 1000 to 2100 lbs. each, at \$2.50 to \$4.50 per cwt.

Market Notes. The high price quoted for the best load of exporters is no criterion for drovers to be governed by, as they were bought by a dealer who had special facilities in Chicago on account of the stormy weather. Hearing he might not get them in the boat in time.

Drovers must go easy, or they will be caught by a heavy delivery of cattle. The wholesale price of beef on the Toronto market does not warrant the prices paid to-day, especially for many of the better grades. Receipts at Chicago broke the January record, with many to spare, and lacked only 200 of wiping out the month's record established November, 1899, when 1,111,000 hogs were received. There never was such liquidation in hogs as developed since the first of the year. Prices were crushed so low that it was unprofitable to feed 5-cent corn, and there was a general panic throughout the country. At the five principal markets of the country January receipts total 2,470,000, which is an increase of 700,000 over last year. Prospects are that the supply will be rather heavy in February—Chicago Live Stock World.

British Cattle Markets. LONDON, Feb. 3.—London cables are steady at 1c to 1 1/2c per pound, dressed weight; refrigerator beef is quoted at 10c per pound.

Canada Buys Hams. Hams are being bought for export to Canada, and pay a duty of 2c per lb. A Provision specialist called attention to this fact, and it was taken as indicating that supplies of hogs and hams in Canada were not burdensome, and it was cheaper to buy hogs on this side of the line—Chicago Live Stock World.

Canadian packing houses are being offered Chicago-cured hams at less money than the uncured Canadian hams cost. Chicago cured hams can now be sold retail at 12c per pound at Toronto, after paying a duty of 2 cents per pound, as well as freight.

BOWINS' TRIAL SATURDAY. Prisoner Feared Appearance of Murdered Woman's Son. DETROIT, Mich., Feb. 3.—Attorney Kennedy, appointed by the court to defend young Bowins, brought here from Woodville, Ont., to answer to the charge of murdering old Mrs. Welch on Jan. 3, to-day made formal application to have Bowins' plea of guilty set aside. The motion was granted, and it is expected that the trial will begin next Saturday.

Mrs. Welch's son came over two hundred miles to have a look at Bowins. Bowins was afraid of the son, but the latter assured him that he would undoubtedly be equitably punished before he regained his liberty.
