In the Financial World

PRICE MOVEMENTS WERE IRREGULAR

Realizing Sales Had Effect in Wall Street This Morning.

New York, April 28—Stock prices moved irregularly at the opening of today's market, with realizing sales causing fractional recessions in some of the motor, oil and sugar shares. Price movements of the industrial leaders were mixed, American Can moving up and U. S. Steel falling back, 1⅛.

Montreal Market.

Montreal, April 28—The local stock market opened up the week this morning in a dull manner. In the first hour there were few sales with little change in prices. Dominion Glass was up ¼ to 105½, Spanish down ⅝ to 99 and Power down ½ to 157.

Chicago Grain.

Chicago, April 28—Wheat, May 103¼; July, 105⅝. Corn, May 76⅞; July, 78. Oats—May 46⅜; July, 44⅝.

Cable Transfers.

Montreal, April 28—Cable transfers, 4.45½.

LARGER TRADE BUT LESS REVENUE

Exports From Canada in March Showed Increase—Some Decline in Imports.

Ottawa, April 28—A decrease in imports and an increase in exports as compared with March, 1923, is shown in the summary of Canadian trade for March, 1924, issued by the department of customs and excise. The figures are:

Merchandise entered for home consumption: March, 1924, $86,922,209; March, 1923, $91,881,427.

Domestic merchandise exported, March, 1924, $92,428,774; March, 1923, $76,557,599.

Foreign merchandise exported were, respectively, $1,185,528 and $1,229,706, making a grand total of Canadian trade for last month of $180,537,505, an increase of $11,000,000 compared with the corresponding period of last year.

Customs duties collected last month were $14,903,924, a slight decrease from March, 1923.

4 DIE, 30 HURT IN TRAIN CRASH

Smash-up Near London City as Footballers Are Going to Match

London, April 27—An early commuters' train crashed into a special train from northern England yesterday near Euston station and four persons were killed and 30 were injured.

The casualties were among those riding in the rear coach of the special which was bringing spectators for the Association football match at the Wembley stadium, and those in the forward coach of the commuters' train, as these cars were telescoped.

The smash-up took place at the mouth of the tunnel and the rescue parties had considerable difficulty in carrying on their work.

NOTES ABOUT LUMBER.

A correspondent of the Fredericton Gleaner writing from Juniper, says that the Fraser Companies have two crews, totalling 500 men, waiting there for driving operations to start.

Flemming, Gibson, Ltd. have erected a new mill at Juniper to replace that destroyed by fire and the machinery is being installed.

The Victoria Mills of Fraser Companies, Limited, below Fredericton, cut about 14,000,000 during the winter. Summer sawing of lumber will soon begin, with about 15,000,000 feet of logs that are said to be in safe water.

CANADA LOSES MUCH OF HER BEST BLOOD

One Third Overseas Strength, C. E. F., Gone to States Says MacNeill.

Ottawa, April 28. — Nearly one-third of the oversea strength of the Canadian Expeditionary Force has migrated to the United States in search of its bread and butter, declared C. Grant MacNeil, Dominion Secretary of the Great War Veterans' Association, in discussing the immigration situation in Canada before members of Flanders Lodge, L. O. L., on the anniversary of the formation of that lodge at St. Eloi, France, among the Canadian forces.

"The investigation of Canadian Veteran immigration had led to an investigation of the greater problem, and," said Mr. MacNeil, "we discovered that for the last two decades the migration to the United States had been far in excess of our total immigration from all quarters."

"Canada paid three and a half million dollars in 1928 for the privilege of giving the United States a quota equal to the total immigration, and 45,000 of our resident citizens in addition," he said, adding that Canadian immigration facilities were being exploited by Europeans to evade the United States quota laws.

"Why should we continue to invite hungry Europeans to sit down with us around a lean board with the cupboards of supplies locked up tightly?" Mr. MacNeil asked, in declaring that if we "unlocked the cupboards of our natural sources we would not have to look very far for new people desiring to share the new prosperity.

The blame for the "immigration debacle" could not be fairly placed on the immigration authorities or the Government, but was due largely to the apathy of the Canadian people, he said. To solve the immigration problem veterans were proposing the following preliminary steps:—

A determination to colonize Canada, first with Canadian and then with British stock.

Honest co-operation between the immigration department and the employment service of Canada to prevent further displacement of the present population.

Extension of farm settlement and small holdings settlement among Canadians.

Acceptance of the Empire settlement scheme, under which the British Government will advance £300 to new settlers provided the Canadian Government advances a similar amount.

Assisting selected immigrants from Nordic races in Europe for settlement, and to clear and cultivate crown lands.

Emphasize settlement activities instead of immigration until a proper balance is struck.

St. John Man Is The Vice-President

A. T. McKean, formerly of St. John, is the vice-president of a new C. P. R. organization called the Canadian Pacific Association of Calgary. Co-operation will be the keynote of all meetings. A. S. Dawson, chief engineer, Dept. Natural Resources, is president. The vice-president, is divisonal freight agent at Calgary.

BUDGET DECISION CAUSING INTEREST

Woodworth Amendment's Fate Eagerly Awaited in Parliamentary Circles

Ottawa, April 27.—The decision of Speaker Lemieux whether the Woodsworth amendment to the budget is in order or not is eagerly awaited in Parliamentary circles. When the debate was adjourned on Friday it was intimated that the Speaker would hand down his decision tomorrow but there is, it is understood, some possibility that he may postpone his ruling. Consulting of precedents and authorities has involved a large amount of research work and this may not be complete by the time the House meets in the afternoon.

The tangled skein of procedure has created an extraordinary situation. First there came the Labor amendment as proposed by J. H. Woodsworth, of Winnipeg Centre. Then there was the Woodsworth amendment as modified after consultation between Mr. Woodsworth, the Speaker anad the authorities of the House. Then came the conservative amendment moved by A. J. Doucet, of Kent, N.B.

All three proposed amendments appear in Hansard, but only one—the Woodsworth amendment after modification—appears in the vote and proceedings as having been formally submitted to the House by the chair and even this differs in a minor point from the version given in Hansard. From the fact that the modified Woodsworth amendment is the only one in the votes and proceedings some authorities in parliamentary procedure draw the conclusion that it is the only one technically before the House.

FIRST AND PARAMOUNT, ABSOLUTE SECURITY TO POLICYHOLDERS

"I'M going to put my money in a home," you say.

A good idea. But don't forget that if death intervenes one payment made on a home will bind your widow to pay the mortgage or lose the home.

One payment made on an Imperial Life policy will bind this Company to pay your widow and save the home.

The proceeds of life assurance policies have paid off many mortgages.

We have an interesting booklet about this subject. Just ask for a copy of "That Home of Yours" and we'll send it to you post free.

A Lucky Boy ~A Farseeing Dad

Twelve swift years have come and gone since Frank Cooke's son romped about the house—a lovable, rosy-cheeked baby boy.

Last Summer he passed his Entrance Examinations and entered the Collegiate.

Four years more, an ambitious, upstanding young fellow, he will be on the threshold of the most important part of his training for the battle of life—a University education.

And Frank Cooke's boy *will* go to the University: for twelve years ago, Frank Cooke determined that the air castles he had built for a baby boy should some day become a reality—that his boy should have a chance.

He insured his boy's future on the North American Life Child's Endowment Plan. It appealed strongly to him because:

(1) It made certain that the boy would have a College Education.

(2) He knew that even if he himself died the North American Life Assurance Company would assume payment as planned.

(3) He learned that should the child die before his fifteenth birthday all the premiums paid plus interest would be returned, while if the boy's death occured after that age, the full payment would be made.

You too will be interested in our booklet "Child's Endowment." Write for it.
