## F. B. McCURDY ASKS FOR FACTS IN MINE MATTER

Calls For Frank Understanding In Wage Dispute

## ASKS SHOW-DOWN

Believes Coal Companies Should File Annual Statements With Province

By Canadian Press.

HALIFAX, April 15.—Hon. F. B. McCurdy, a former Minister of Public Works in the Federal government, in a published interview in which he deals with the wage-dispute in the Nova Scotia coal fields, declared that since neither party to the dispute is willing to acknowledge any fault or responsibility, it therefore appears that the local government should call a "show-down."

## ASKS FOR FACTS

"The public, including the miners, should be given the facts," he stated. "If no just grievances exist, the miners will not be in unjust demands and the difficulties, why not uncover the facts and as efficiently as possible solve the problem. Let us face our troubles," continued Mr. McCurdy.

"Frank understanding will promote confidence and settlement."

Mr. McCurdy expressed the belief that all coal mining companies should be required to file annual financial statements with the Mines Department.

## RIVER BUSINESS IS IN FULL SWING

D. J. Purdy Makes First Trip Today—Little Sign of Freshet Yet.

With the departure of the motorship D. J. Purdy for Fredericton this morning—the first trip of this new craft this season—also the first trip of the steamer Premier, under the captaincy of the veteran Captain Fred Mabee, river navigation has been established for 1925. The majestic D. J. Purdy, which has already made two trips to Fredericton and the Premier has been in service for a few days' addition to the fleet fully establishes water-borne traffic. The Hamilton is understood to have been in service for some time past. As for some years past the Kennecott tributary of the St. John is without boat service.

The D. J. Purdy this morning took away considerable freight, chiefly fertilizing materials and farming implements, as well as general stores in replenishment of merchandise stocks on both sides of the river, but particularly the eastern shore, where a big stream. Captain Gilchrist is again commanding the motorship.

Little Freshet Yet.

In the last few days there has been a rise of fully a foot in the river tide, but the freshet is not expected to begin to any marked extent until the rain has had full effect. It is usually the mid-April rainfalls that swell the streams. Nothing more than an average height of water is anticipated unless heavy rains set in.

The wharves at Indiantown show practically no new tide marks and no preparation has yet been made for plankton bridge street or the Indian town Square area with elevated sidewalks such as are necessary each spring season because of the river overflow.
