### PUBLIC MEETING TO-NIGHT.

Remember the public meeting in the town Hall to night, for the discussion of the railway bonus by-law. It is important that all property owners should post themselves on this question so that an intelligent vote may be recorded on the 20th inst. Let everybody be on hand to night and listen to the arguments pro and con that will be advanced.

### FOR SEPTEMBER ONLY.

No lady, married or single, could spend their money or a week of their time in September more usefully than to learn dress-making at the reduced rate of $9, including a $5 system, or four learning together $8 each. Call for particulars at my rooms on King street, over W. Coleman's meat market.

MRS. WM. SANDERS, Ingersoll.

### THE TRAMP NUISANCE.

**Police Magistrates Will Now Deal Vigorously With It.**

Police Magistrate Morrison has received from the Attorney-General's department at Toronto, instructions which seem to indicate an intention on the part of the Government to rid Ontario of the tramp nuisance. The letter of instruction is as follows:

"It has been found upon investigation that most of the numerous burglaries and other crimes of violence commited recently in the various parts of the province have been the work of tramps of the class usually found working along the lines of railway and camping in woods and barns on the outskirts of cities, towns and villages. It is deemed necessary that these men should be driven out of the province as soon as possible, and it is thought by the department that the best way to bring about this result is for the magistrate before whom these tramps are brought upon charges of vagrancy to impose the full term of imprisonment in the Central prison allowed by law. The practice of giving them the option of a fine or so many hours to clear out of the municipality is producing very unsatisfactory results. You are requested, therefore, upon any of these men being brought before you to see that the law is strictly and vigorously administered."

### BEST TIME TO TAKE MEDICINE.

According to Professor Moritz, writing in a German medical periodical, the most speedy absorption of a drug into the human system is secured by administering it with water on an empty stomach. In many cases, he says, a definite effect will thus be produced, when no effect would be precept ible from the same dose administered shortly after taking food. Food taken immediately after medicine retards the absorption of the drug.

## THE TOWN COUNCIL.

**A MOVE TOWARDS MUNICIPAL OWNERSHIP**

**Of the Water Works and Electric Light Plants—A Petition Calling Attention to Violation of By-Law—The Roadway on King Street East to be Repaired.**

The Council met in the council chamber last night for the transaction of general business. All the members were present, Mayor Mills in the chair.

The report from R. J. Hiller, of Montreal, re the fire alarm system, was read. Referred to the Fire, Water and Light committee.

The Chief of Police's monthly report showing the number of cases, etc., was read.

A petition from twenty ratepayers was read calling attention to the frequent violation of the cow by law, and citing instances when cows are allowed to travel along the streets without any person in charge of them. The petitioners asked a that more stringent cow by-law be passed. Referred to the Police committee.

A petition was read from the ratepayers on the south side of Catharine street between Thames and Mutual streets, asking for an artifical stone walk to be built in front of their properties.

FINANCE COMMITTEE

The Finance Committee reported recommending payment of the following accounts: T. W. Nagle, $5.00; Bell Telephone Co., $13.20; Chronicle Printing Co., $15.60; G. N. W. Telegraph Co., 75c.

The report was adopted.

BOARD OF WORKS.

The Board of Works reported recommending payment of the following accounts: Bell Telephone Co., $1.10; R. A. Skinner, $13.00; John Morrow Machine Screw Co., $2.22; G. N. W. Co., $1.73; The Noxon Co., 50c; W. C. Bell, $1.28.

The report was adopted.

The Council went into Committee of the whole on the By law to bonus the Lake Erie Tilsonburg and Pacific Railroad with Mr. McCarty in the chair.

After some discussion Mr Fleet moved seconded by Mr. Berry, that the committee do now rise and report the by-law for bonusing the Lake Erie, Tilsonburg and Pacific railroad as passed in committee of the whole as amended.—Carried.

The Mayor drew attention to the fact that a public meeting would be held in the town hall on Tuesday evening and said the Council should be represented. He stated that he along with a couple of others had interviewed the railway men and tried to obtain some kind of a written agreement with them, but they were not willing to bind themselves in any way. All the information obtainable was that in all probability the road would be operated by an American company. Also that coal would be laid down in Ingersoll 50c per ton cheaper than it is now.

Mr. McCarty wanted to know who the Company was composed of.

Mr. Miller could not see that it made any difference who they were. The road had to be in running order before the $20,000 bonus would be paid over.

The Council concurred in the report of the Committee.

Mr. James Stevens addressed the council on behalf of the property owners on the south side of King street between Thames and Oxford streets and laid the following request before them in writing:

We, the undersigned, your humble petitioners, request your honorable body to cooperate in the cost of the construction of a drain suitable, in the rear of their respective properties on the south side of King street between Thames and Oxford streets and to connect said drain with the drain on the west side of Thames street, in order to prevent damages to the property of the ratepayers and other interested parties.

A. J. CLARK,
W. O. SMITH,
JAS. STEVENS.

Mr. Jas Waterhouse addressed the council in reference to the sale of lot No. 7 for taxes and stated that his sister had paid taxes on lot No. 7 for 14 years. He drew attention to the fact that there were three No. 7 lots in different surveys in the town and asked the council to remedy the matter.

The Mayor did not think it was the No. 7 lot that Mr. Waterhouse's sister owned which had been sold but he would refer the matter to the Finance Committee for investigation.

Mr. J. B. Jackson read a letter from representatives of the St. Charles Condensing Co. stating that it would be impossible for them to be here on Monday as arranged but they would be along on Thursday of this week and hoped that everything would be in readiness to close the matter up and allow them to let their contracts for building factory, etc., immediately.

Moved by Mr. Fleet, seconded by Mr. Berry, that in consideration that the franchises of the Ingersoll Waterworks Co. and the Ingersoll Electric Light Co. do expire in the year 1900, therefore be it resolved that this council be a committee with Mayor Mills as convener for the pur-

### LIQUID AIR AS AN EXPLOSIVE.

In using liquid air as an explosive the chief difficulty hitherto encountered has been to keep it in a liquid state, as at its extremely low temperature every addition of heat that it receives causes evaporation, and a half litre in an ordinary vessel will evaporate completely in from twenty to thirty minutes. To obviate this difficulty extensive experiments have been carried on at a German factory devoted to the manufacture of high explosives, and a form of receptacle has been devised in which the air can be kept liquid for days and even weeks. These vessels consist of double walled glass flasks with the intervening space exhausted and the interior of the outer glass wall coated with a silver amalgam; as the vacuum is a non-conductor of heat, and the silver surface acts as a reflector, the amount of heat penetrating to the interior is very small and the air remains in its liquid state.
