

SOME PROBLEMS BEFORE CANADA

STIRRING ADDRESS TO THE CANADIAN CLUB

J. A. M. Aikins, K. C., of Winnipeg, Spoke Before Large Audience at Luncheon

The problems of immigration and the duties of Canadians towards those of foreign extraction who came to make Canada their homes, was the subject of an address delivered on Wednesday before the Canadian Club by J. A. M. Aikins, of Winnipeg.

Mr. Aikins was introduced by the president of the club, Dr. T. J. Jones, the latter taking advantage of the opportunity to impress upon the delegates to the Methodist Conference, a large number of whom were present, the importance of Vancouver Island and her resources. He invited them to visit the different sections and judge for themselves. British Columbia had the raw material and all that was needed to develop the country was capital and energy.

Mr. Aikins said that he had presided at the meeting where the first Canadian Club in the West was organized, and doubtless it was for that reason he had been invited to address the club. He thanked the people on behalf of the conference for the generous hospitality of the citizens in entertaining the delegates. They had come only over one line of railway and for that reason could not fully appreciate the greatness of the country.

The speaker told of a visit he made to the country over a quarter of a century ago when he, with many others, were not in love with the solitude of the West. Now they were all attracted by the prosperity of the same country. The land was being invaded by people from almost every country and very soon after their arrival were made to take part in the government. The difficulties that confronted them now was how to provide for and assimilate the immigrants. He believed in providing schools in order that they might be educated, and giving them churches so that they might be trained morally. Further, he believed in military education in addition. This would teach the foreigners obedience and discipline and thought that good drilling in schools would turn those who knew nothing about Canadianism into good citizens.

There were people coming to this country from every country, but he believed in making it as easy as possible for people to come here from the British Islands, and when they came they should find the conditions as near like those obtaining in England as possible, except that there should be more opportunities.

Reference was then made to the large number of people who came here. What influence would this have on the solidarity of the country? The cities of the east were as distant to them as were Berlin or Washington. These must be communities of community of sentiment and interest. The newspapers were filled with American dispatches. He, however, favored a better interchange of news between Eastern and Western Canada. (Applause.) He believed that as true Canadians they should see that the traffic of the country was from east to west and west to east. They should not do anything to prevent communication between the different parts of their common country.

There were influences at work to separate Canada from the rest of the world. They could not, however, forget the claims of the Americans in regard to the straits of Fuca, Hudson Canal, the fisheries of the east and Hudson Bay. He hoped the time would never come when Canada would claim the benefits of the Munro doctrine. Canada never should be a shed or lean-to to the great American republic.

Judge Lampman thanked the speaker in a few words in which he referred to the fact that these Galicians and others whom the speaker mentioned never came to this country except as capitalists when they did not want to work.

Lindsay Crease seconded the thanks which was carried with enthusiasm.

BRITISH COLUMBIANS AT RIFLE MEET

(Special to The Times.) Ottawa, Aug. 24.—Splendid weather prevailed for the third day of the Dominion Rifle Association meet and shooting was high.

The leaders in the grand aggregate at the close of shooting at the 500 yards range in the governor-general's match follow: Morris, 46th, 203; Bayles, 10th R. G., 202; Mitchell, 13th, 201; Freeborn, 13th, 200.

The scores of British Columbians were: Youhill, 198; Macrop, 198; Forest, 197; McDougall, 195; Chamberlain, Alberta, scored 195.

MAS NARROW ESCAPE. Bridge Foreman Takes Refuge in Ravine While Fire Rages Nearby. Misoula, Mont., Aug. 25.—To lie suffocating in a coyote hole while the flames of a great forest fire which raged nearby ignited the fuses that exploded twelve tons of dynamite, was the experience of Russell Jones, bridge foreman of the Puget Sound railroad, who spent a nerve-racking night in the Loop district fire zone.

"The flames swept up the mountain with frightful rapidity," said Jones in relating his experience. "I could see nothing but a hundred foot wall of fire. The flames travelled faster than an express train and burning brands were sent high in the air for miles. I found a ravine in which was a little muddy water and tried to bury myself in the ooze."

"I thought I was a goner sure when twelve tons of dynamite that we had buried exploded. Later I found that the fire had burned to within ten feet of where I lay and then veered off."

SWIMMERS TO DISCUSS MATTER OF AFFILIATION

Central Body Wants a Fee From Each Individual Club—Meeting This Week

Ever since the annual meeting of the British Columbia Amateur Swimming Association, held on Saturday, August 6, the secretary, A. J. Brace, has been in communication with Leonard Norris, secretary of the Canadian Amateur Swimming Club, with headquarters at Montreal, in regard to the affiliating of the provincial association with the Dominion one. The condition under which the five clubs forming the B. C. A. S. A. wish to join the larger body is that they be allowed to affiliate together under one title, thereby paying but one entrance fee.

A letter has been forwarded by the secretary of the Canadian association to Mr. Brace, in which he states that he has received the proposition of the B. C. clubs, and has written in reply suggesting that they come in under the same rules as others, each club paying an entrance fee. The C. A. S. A. to be properly run should receive support from all its members. The western clubs, however, he points out, would be almost as independent as ever, as a vice-president of the C. A. S. A. is elected by the clubs in each district, and has control therein, although papers are sent to the executive committee here for the formal O. K. They would also appoint their own registration committee, who would, of course, be governed by the C. A. S. A. by-laws and constitution. By joining the C. A. S. A. they could also hold Canadian championship events, and western swimmers, who have been prohibited from taking part in championships hitherto held in the east, would have an opportunity of winning Dominion titles in future.

A meeting of the local branch of the B. C. A. S. A. will be held some time this week, when the proposal of Mr. Norris will be read and the matter thoroughly threshed out. If each swimming club in this province has to pay \$10 for admittance to the Canadian body it is likely that the proposition will be dropped entirely.

RUPERT CITY FOR CANADIAN-MEXICAN

Steamer Just Arrived From Unalaska Has Been Taken For Trade to Diaz's Country

According to a Vancouver dispatch the steamer Rupert City has been taken over by the Canadian-Mexican Pacific Steamship Company and will be operated between British Columbia and Mexico. On the same authority it is stated that the deal for the Lonsdale has fallen through and will remain tied up in Vancouver harbor.

The Rupert City was purchased by MacKenzie Brothers for the Vancouver-Prince Rupert route, but on the Canadian Northern Company entering the business with their two new lines, the vessel was dropped and the steamer was sent to Unalaska with coal, from which place she has just arrived.

SATURDAY'S LACROSSE TRIP IS CANCELLED

Locals Will Keep Training, However for Final Big Match Here on Labor Day

Contrary to the plans drawn up by the Victoria lacrosse club, there will be no trip to New Westminster this week-end by the representative twelve of this city, as the senior amateur organization of the Fraser River metropolis have written for a postponement of the match.

Tuesday John P. Sweeney received a letter from Manager Keary, of the Salmon-Belly team, asking for a rearrangement of the game scheduled for Saturday, claiming that they could not secure grounds, owing to Queen's park being contracted for by the professional teams.

However, the local team will keep on practicing for the final game here on Labor Day, when they play New Westminster and expect to be able to take the Fraser River leads into camp. The match will be played in the afternoon at three o'clock, and will be the final lacrosse match in Victoria this year.

If Victoria wins this game it will have clinched second place in the championship race, and it will be the first time in many moons that Victoria has been able to cross the finishing line of a league of provincial lacrosse ahead of the New Westminster aggregation.

The locals have certainly done better this year than they have in years past, and if the same executive and players stick together again next year as they did during the present season there is every reason to believe that Victoria will win the Kilmarlock silverware in 1911.

For the present they want to get that second place and they will fight against the Westminsters for supremacy on Labor Day. Practices will be held regularly from now on and all players are requested to be on hand so that Victoria may terminate the season with a win.

FORMER U. S. SENATOR DEAD

Washington, D. C., Aug. 25.—Former United States Senator Wilkinson Coates, of Florida, died yesterday of apoplexy. He sustained a slight stroke Sunday and gradually became worse.

Coates was adjutant-general in the Confederate army. He has played a prominent part in Democratic politics. He was first elected to the senate in 1885 but was not allowed to take his seat. He afterward served in the senate from 1879 to 1897.

The average growth of a finger nail is an inch and a half a year, those on the right hand growing more rapidly than those on the left and all growing more rapidly in summer than in winter.

DELEGATES OPPOSE WORLD-WIDE STRIKE

Congress of Sailors and Marine Firemen Will Probably Reject Proposal

(Times Leased Wire.) Copenhagen, Aug. 24.—With the majority of the delegates opposed, a declaration of a general strike among the sailors and marine firemen of the world, the international congress of the two classes of seafaring men is in session here to-day. The agitation, begun by the English union and backed by a few American representatives, sought the betterment of conditions for sailors and seafarers throughout the world through a world-wide strike.

Although the formal discussion of the question has not arisen, it is known that a large majority of the hundred odd delegates is opposed to a strike.

SIR WILFRID RETURNS FROM PRINCE RUPERT

Arrives at Vancouver on Grand Trunk Pacific Steamer After Pleasant Trip

(Times Leased Wire.) Vancouver, B. C., Aug. 24.—Returning from the youngest born of Canadian cities and ports, Sir Wilfrid Laurier arrived on the Grand Trunk Pacific steamer Prince George at noon, looking as though he had enjoyed his trip north immensely and had been refreshed for his journey east. When he landed at Prince Rupert last Saturday the whole population of the city were at the harbor to acclaim him; when he left on Monday night the whole population were out to wish him God-speed.

WEDDINGS

A quiet wedding was solemnized Tuesday afternoon in St. Paul's manse, Rev. D. Macleod officiating. The contracting parties were Mr. Jas. Cadey and Miss Helen Campbell. Miss M. McFawn attended the bride and Mr. W. Merton supported the groom. Mr. Cadey presented his bride with a white chatelaine bag, and the bridemaid with a gold watch. The best man was the recipient of a gold fob. Lunch was served for the wedding party at the Hotel. The honeymoon will be spent at Alberni, and on their return Mr. and Mrs. Cadey will reside at 715 King's road.

A quiet but very pretty home wedding was solemnized at 2.30 Tuesday afternoon at the home of Mr. and Mrs. James Simpson, 91 Johnson street, when their third daughter, Miss Rose Simpson, became the bride of Mr. Ernest Leslie Gleason, Rev. Dr. Campbell officiating. The bride, who was given away by her father, was most becomingly gowned in a white lace dress over tulle, made in semi-princess style and trimmed with satin bands. Her bridal veil was held in place with sprays of orange blossoms and she carried a white bouquet of white bride's roses and sweet peas, with streamers of white satin ribbon. She was attended by Miss M. L. Macquarie, who looked very prettily in a dainty bridemaid's dress of white mull, trimmed with valenciennes insertion, and carried a bouquet of pink roses and sweet peas. Mr. Thomas Christie supported the bride. The exterior of the house had been gayly decorated for the occasion with flags and bunting by the friends of the contracting parties, and the interior carried out a very effective color scheme of pink and white, sweet peas being used in great quantities. Dainty refreshments were served, and the happy couple left on the Estern boat for Seattle and Vancouver. They were accompanied to the wharf by a merry crowd of young people, who showered them with rice and confetti. The Saturday afternoon wedding was a smartly tailored blue serge and net blouse, with which she wore a very becoming old rose hat trimmed with white plumes. On their return Mr. and Mrs. Gleason will reside in Victoria while the weather remains favorable, after which they will reside temporarily with the bride's parents. Only the immediate relatives and a few intimate friends were present at the wedding.

A wedding of interest to many Victorians took place recently in Vancouver, when Miss Katherine E. Macdonald, eldest daughter of Mrs. Macdonald, was united in marriage to Mr. Albert E. Sage, of Nelson. The ceremony, which was followed by a reception, took place at the home of the bride's mother, Howe street. It was performed by Rev. Dugald Campbell, Armstrong. Mr. and Mrs. Sage are spending their honeymoon in California, and on their return will reside at Armstrong.

The marriage was solemnized on Wednesday, August 10th, at Christ Church cathedral, of Mr. Louis C. Impey, youngest son of the late B. Impey, Hitchin, England, and Miss Minnie Alexander, Lanale, youngest daughter of Mr. C. J. Lansley, Sheffield, Surrey, England.

SEARCH FOR MURDER SUSPECT

Oakland, Cal., Aug. 25.—Captain of Detectives Peterson has received information from W. G. Iagau, electrician and baggage master on the overland run from Oakland to Ogden, that Henry Yamaguchi, a noted connection with the mysterious murder of the Kendall family near Casadero, is now in southern Idaho. Iagau states positively that a Japanese whom he believes to be Yamaguchi travelled from a central California point, accompanied by a strikingly beautiful American woman. The couple left the Overland Limited at Ogden, buying tickets to Gooding, Idaho.

LOCAL NEWS

The regular monthly sitting of the County Court will be held on September 12th at 11 a. m.

The death occurred Wednesday at the family residence of Edwin Herbert George Buxton, infant son of Sgt. Buxton, Work Point barracks.

On Monday next all the public schools throughout the province will re-open for the fall and winter term. Since the last school term the education department has enlarged the scope of the free textbook branch, now supplying free textbooks, Latin grammars and drawing books to the pupils of the lower high school grades.

The mayor's office has been temporarily transferred to the old committee room at City Hall, pending the completion of a process of renovation now in progress in the old quarters. The cleaning-up movement which is working such a transformation in the various department offices at the city hall is shortly to be extended to the city clerk's room.

The prize of \$250 offered recently by the provincial government for the best design for laying out the grounds of the new Quikmill retreat has been awarded to K. McLaren, of this city. There was no other bidder. The contract for the erection of the new farm buildings at the retreat has also been awarded to the Westholme Lumber Company. The barns are already well advanced towards completion.

A. T. Goward, manager of the British Columbia Electric railway's local office, has just returned from a trip of inspection to the immense power plant which the Vancouver Island Power Company is constructing at Jordan river. Mr. Goward stated to the Times Wednesday that work was progressing rapidly, and that it appeared likely that the plant would be in operation by the first of the year, as previously anticipated.

A new vocal teacher, successor to Mr. Chas. Bethune, has arrived in Victoria in the person of Mr. Paul Edmonds, a well known vocalist and professor of singing from London, England, who was principal baritone with Madame Tetrazzini on her last British tour. He has opened a studio at Messrs. Watt's piano stores, Government street.

In future the rule of the road, especially in the downtown districts, will be rigidly enforced by the police. Complaints have from time to time, been made by the police in regard to the danger of accidents ensuing from glaring breaches of the regulations affecting traffic and City Prosecutor Harrison Tuesday brought a test case in Mr. Hallie's hands. The Vancouver mill will be managed by Mr. McAfee, and the Arrow Lakes mills by Rand Gibbons.

James Forman and John Dean, the valuers recently appointed by the city council to adjudicate claims on Port street arising out of the widening provisions during the month was much less than is commonly supposed.

Instead of upwards of one and a half million dollars' aggregate loss, Mr. Gladwin estimates the total losses of the month at \$40,000 in timber and \$317,760 in improvements, which latter include the various mining buildings falling a prey to the flames.

No fewer than 401 fires received official attention during the month, the government's expenditure in fire fighting amounting to \$40,183.53 in salaries and expenses, while private companies or individuals are credited with the disbursement of a further sum of \$20,000, making a total expenditure in forest protection and fire fighting for the month of upwards of \$60,000. Of the total of 401 fires, upwards of 25 per cent are attributed to C. P. R. locomotives. Ninety-five per cent of these fires were discovered in time and extinguished without much loss or exceptional cost of labor. Eight lives in all were sacrificed, six men perishing in the fire at the Lucky Jim mine, and two others, an Englishman and a Japanese, being killed by falling trees while engaged in fighting fires.

Arrangements are being made to fittingly celebrate the jubilee anniversary of St. John's, Douglas street, on September 13th. Services will be held morning and evening, at which appropriate music will be rendered and games given to the evening following, a social gathering will take place in the schoolroom, which will be handsomely decorated for the occasion. The musical programme is being arranged by Mrs. Crane and Mr. Williams, and particulars of this will be given later. It is hoped by those having the matter in hand that the services throughout will be attended by audiences largely representative of those who from the first have been adherents and worshippers at St. John's.

Princess Victoria Overhauled Since Yesterday and Back at Moorings this Morning.

Looking spick and span, the ferry steamer Princess Victoria came around from Esquimalt this morning after having received her semi-annual cleaning. A large gang of men was employed during the night and the job of cleaning the hull of the big steamer was rapidly done. The Victoria completed an exceptionally fast passage from the Sound to Victoria yesterday, making the distance from dock to dock in three hours and a half. She resumed her service on the triangular run this afternoon, leaving for Vancouver at 2.15 o'clock.

STAGE ACCIDENT

Queens, Aug. 24.—Slipping into a rut, the heavily laden stage from Ashcroft to Soda Creek was overturned a few days ago near Ten-Mile Spring, and passengers were thrown out. Mr. Stewart, a member of the James Smith survey party, who was a passenger on the stage en route to the Peace River district, was severely bruised by falling from the coach, and could not continue the journey with his companions.

FOUR COMPANIES IN BIG MERGER

MILLS ACQUIRED BY \$5,000,000 CONCERN

Alberni, Port Moody, Arrow Lakes and Vancouver Plants Are Amalgamated

Four of the largest lumber companies in the province have been merged by a deal which was completed last night. The new corporation, which will be known as the Canadian Pacific Lumber Company, is capitalized at \$5,000,000, and includes the present Canadian Pacific Lumber Company, of Port Moody; the Barkley Sound Cedar Company, of Port Alberni; the Anglo-American Lumber Company, Vancouver, and the Gibbons Lumber Mills, Arrow Lakes.

The timber holdings which have been merged approximate 135 square miles of valuable limits, and the total capacity of the four mills at present is about \$90,000 feet for a working day of ten hours.

The company intends to erect a large mill at New Alberni, on land which it now owns, upon the completion of the E. & N. railway extension from Nanaimo, which will give it access to Victoria. It is expected that a large trade with the Orient will be built up from this mill, and the intention is to make it one of the finest on the island.

Thomas Meredith, of New Westminster, who was a director in all four of the companies merged, met with other interested parties last evening and completed the merger. The company's officers and directors are: President, Mr. Carlin, Victoria; first vice-president, Robert W. Gibson, Victoria; second vice-president, J. D. McArthur, Winnipeg; manager, Thomas Meredith, New Westminster. Directors: Messrs. C. G. Major, New Westminster; Geo. E. Caribou, New Westminster; W. W. Fraser, Winnipeg; D. C. Irwin, Vancouver; Rand Gibbons, Revelstoke.

J. F. Halle will have charge of the present mill at Alberni. When the proposed new mill is erected the mill now operating will be devoted entirely to the production of shingles, and the management of the two plants will be in Mr. Halle's hands. The Vancouver mill will be managed by Mr. McAfee, and the Arrow Lakes mills by Rand Gibbons.

LOSSES FROM FOREST FIRES EXAGGERATED

Report of Provincial Fire Warden Shows \$387,000 Covers Damage in July

An interesting report from Chief Fire Warden Wynyard C. Gladwin on the damage occasioned by forest conflagrations during the month was much less than is commonly supposed.

Instead of upwards of one and a half million dollars' aggregate loss, Mr. Gladwin estimates the total losses of the month at \$40,000 in timber and \$317,760 in improvements, which latter include the various mining buildings falling a prey to the flames.

No fewer than 401 fires received official attention during the month, the government's expenditure in fire fighting amounting to \$40,183.53 in salaries and expenses, while private companies or individuals are credited with the disbursement of a further sum of \$20,000, making a total expenditure in forest protection and fire fighting for the month of upwards of \$60,000. Of the total of 401 fires, upwards of 25 per cent are attributed to C. P. R. locomotives. Ninety-five per cent of these fires were discovered in time and extinguished without much loss or exceptional cost of labor. Eight lives in all were sacrificed, six men perishing in the fire at the Lucky Jim mine, and two others, an Englishman and a Japanese, being killed by falling trees while engaged in fighting fires.

"I Honestly Believe 'FRUIT-A-TIVES'"

The Greatest Cure For Rheumatism in the World

"For many years I suffered from severe Rheumatism, and the attacks were very distressing and prevented me from doing my ordinary work. I tried many remedies and physicians' treatments, but nothing seemed to do me much good, and I was becoming very anxious for fear I would become a permanent cripple from the disease.

"I tried 'Fruit-a-tives' and this medicine has entirely cured me, and I honestly believe it is the greatest Rheumatism cure in the world."

Such a statement could not be bought from a man like Mr. Mills. He thinks too much of his good name, to sell it or sign it to an untruth. Mr. Mills tried "Fruit-a-tives" after all other treatment failed—and "Fruit-a-tives" cured him of Rheumatism. In the goodness of his heart, he wrote the above letter in order that sufferers in all parts of Canada would know that there is one remedy that actually does cure Rheumatism. This testimony was entirely unsolicited on our part. We did not know that Mr. Mills was taking "Fruit-a-tives" until we received the above letter.

It is a case like Mr. Mills' that proves the marvellous powers of "Fruit-a-tives" in arresting and curing disease. It may be stated, without fear of contradiction, that "Fruit-a-tives" will positively cure Rheumatism when properly used. "Fruit-a-tives" is the only medicine in the world made of fruit juices and is the greatest Rheumatism cure known to modern science. Fifty cents a box, 5 for \$2.50, or trial box 5c. Sold by all dealers or sent postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

We're Ready

Whenever you're ready to take a look at the new models in Fall Suits we're ready to show you.

We don't hesitate to say that we have outstepped ourselves this season—for we are showing the finest assortment of Men's Suits we have ever offered our trade.

Come in and take a look at the new styles and fabrics. You'll be interested, surely.

It is far better to come here and get the top notch of style than to be a few notches below it.

Suits at \$16.50, \$18, \$20, \$25 to \$35

Remember, always, that in buying a Suit it's the value and not the price that makes the bargain.

SEEK TO IMPEACH WITNESS.

Chicago, Aug. 25.—Concentrating all efforts toward breaking down the testimony of Representative Chas. A. White, principal witness for the prosecution in the trial of Lee O'Neill Browne, charged with legislative bribery in connection with the election of William Lorimer to the United States senate, the attorneys for the

defence yesterday subjected White to a sharp cross examination. The grilling cross fire of questions which probed into every action of the witness which the court would allow to be investigated by the defence was concluded at noon. At that time the counsel for the defence announced their belief that White had been effectually impeached. White seemed confused by the ordeal and several times his evasive memory saved him.
