Fredericton, N. B., Feb. 14.— The house did no business teday, but the afternoon was given up to the conclusions of the debate on the address, which was finished before six o'clock. The speeches were characterized by coinsiderable moderation so far as the local issues were concerned, but it now looks as if the dominion politics would come in for more than usual attention during the balance of the session. The attorney general seems to be anxious to show that he is not a luke-warm liberal, and it is stated in the corridors that the full strength of the local government will be put forth to the utmost for the liberals of St. John at the general election.

Fredericton, Feb. 16.-According to the auditor general's report which was trought down on Saturday, there was a deficit of nearly forty-three thousand dollars on the year's opera-tions. # THE MARKETS.

Revised Every Monday for the Weekly Sun.

COUNTRY MARKET. Butter continues to be one of the most interesting features of the market, and it is clear that old dairy stock, of which there is still a good deal on hand, must suffer as the season advances. The central creamery of Charlottetown is placing a large quantity of its roll butter on this market. The large supply of creamery stock shoves the dairy made product very hard. Beef is easier than a week ago, but pork is higher. Fowl and chickens are higher, although poor stock would not sell as high as our quotations. Turkeys are also higher. Cabbage is higher. Veal is quoted at 7 to 8c. by the carcass. Eggs are unchanged.

We have the privilege of publishing the following letter from one of Al-monte's wealthiest citizens, Mr. J. K. Cole: "I was completely helpless for six months from rheumatism, I tried almost every known remedy, without any benefit, and when South American Rheumatic Cure was recommend-ed I secured it, though I must confess I had no faith whatever in it. The first bottle agreeably surprised me, and four bottles drove the disease completely out of my system. It is the very best medicine I have ever taken. I have recommended it to many friends and I know that it has done them great good."

Sexton urging him, on the ground of party needs, to reconsider his refusal of the chairmanship of the party, and offering to withdraw from the party if that will purchase Mr. Sexton's acceptance, or the heartiest co-operation of the Healyites, whose only wish, he says, is to make Mr. Sexton's tenure of the chair agreeable and honorable. London, Feb. 15.—The Times says that for diplomatic relations it is probable the leaders of the opposition in parliament will withhold their criticisms of the Venezuelan question during the discussion of the amendment offered by L. Atherley-Jones, radical M. P., deploring the absence from the queen's speech of an assurance that the whole boundary dispute will be referred to arbitration, in accordance
