

LONELY FISHERMAN PROBABLY MURDERED.

He Had Lived Alone for Many Years-- Body Found Covered With Blood-- Robbery the Motive.

ELLISWORTH, Me., Jan. 9.—Evidence of murder, with robbery as the probable motive, developed today with the discovery of the body of Wm. W. Robbins, a fisherman, in an isolated spot three miles from Deer Isle, and where he had lived alone. The head was crushed in and the body covered with blood. As Robbins, who was 46 years old, had few callers, he was not missed until last night, when J. E. Eaton, his nearest neighbor, living a quarter of a mile away, recalled that no light had been seen for several nights. Fearing he might be sick, Mr. Eaton sent his son to investigate this forenoon. Through the window he saw Robbins' body upon the kitchen floor in a pool of blood. His first thought was of suicide, and word to that effect was sent to Judge E. F. Spofford, Deer Isle, Judge Spofford, accompanied by Dr. C. E. Wasagat and Geo. L. Beck, began an examination. They found the only entrance unlocked. The kitchen, one of three rooms of which the structure consisted, plainly revealed the fierce struggle Robbins must have had with his assailant. Blood stains were upon the door and walls as high as the ceiling, and all over the furniture. The clothing was saturated with it. The man's head was beaten in and cut almost beyond recognition. The stock of a gun which the murderer undoubtedly used, was found near the body, and its broken barrel in a corner of the room. The broken end of the barrel was matted with blood and hair. Dr. Wasagat gave it as his opinion Robbins had been dead nearly a week.

TWO MASTED SCHOONER WASHED BY HIGH SEAS.

Captain Nelson and Crew of the W. R. Chester Safe in New York-- Skipper's Wife Aboard.

NEW YORK, Jan. 9.—After a rescue in mid-ocean and a narrow escape from death, Captain Wm. Nelson, his wife and five seamen, of the two-masted schooner W. R. Chester, arrived tonight as passengers on the Atlantic transport line steamship Minnehaha. The schooner was abandoned in lat. 39.02, lon. 52.20, the crew being taken aboard the steamship Anglo-Chilian, which landed them at Havre. The Chester left Jonesport, Maine, on Nov. 24, lumber laden, and bound for Barbados. She ran into rough weather soon after sailing, which continued until Dec. 11, when she was struck by a wave which threw her on her beam ends. She rolled over to port so far that her captain and his wife thought she would turn turtle, and the captain gave the order to cut away the masts. This was done, and when they went by the board, carrying away the bowsprit and other hardware, the vessel slowly came back to an even keel. To add to the peril of the situation, Captain Nelson found that his rudder was broken, and the schooner wallowed and rolled at the mercy of every sea which broke over her. "Fortunately," said the captain, "she did not leak. We huddled in the cabin and did the best we could for four days and a half. There was plenty to eat and fresh water. There came a lull in the storm on the evening of the 15th, when the Anglo-Chilian came along. We lit signals of distress and the mines, but owing to their great number navigation will be unsafe for a long time. Only government craft will be allowed to enter the harbor. It is probable that Dally will soon be permitted to neutralize the situation. Japanese companies are preparing to establish weekly services to that port. It is proposed shortly to float a fourth domestic war loan under the same conditions as the third was negotiated. Headquarters Japanese Army at Port Arthur, via Fusan, Jan. 8.—Lieut. General Fock and Smirnov had decided to go to Japan as prisoners of war. The result of the London conference held at Port Arthur and General Fock commanded the fourth division of the army there. Gen. Fock says he will still be in Japan. There are five Russian admirals at Port Arthur, one of whom will go to Japan. Among the admirals is a prince. Twelve foreign naval attaches have visited Port Arthur and inspected the remains of the Russian fleet. The Russian admiral will leave Dally Jan. 15th on a Japanese transport for Nagasaki. He will be accompanied by other parole officers. The Russians probably will remain in Japan a few days and then proceed on a French steamer to Europe, going by way of the Suez canal. General Nogt reports that the officers paroled to date number 441 and orderlies 225. Reports previously received here were to the effect that both Lieut. Generals Fock and Smirnov had been killed at Port Arthur. On Jan. 2 a French despatch denied that Fock had been killed, but admitted that he had been wounded. A despatch received from Mukden Jan. 7 said that while the death of Fock had not been published, it had for weeks been accepted there as a fact. The report of General Smirnov's death had never been confirmed. The only prince admitted to have been at Port Arthur was Rear Admiral Prince Ouktomsky. A St. Petersburg despatch on Saturday said that information had been received there from the Poo to the effect that Rear Admiral Prince Ouktomsky, disguised, had arrived at Cha Poo on board of a launch. TOKIO, Jan. 8.—General Nogt's report, received at 11 o'clock Saturday, announces that the transfer of the Port Arthur prisoners was completed Saturday afternoon. Saturday's transfers were as follows: Officers, Men. General Stoessel's Kwantung command, 9 39 Gen. RUSSIAN PRISONERS MOVED FROM FORTS

Port Arthur to be a Naval Station. Nearly Nine Hundred Officers and 24 Thousand Men the Total Number of Prisoners.

TOKIO, Jan. 8, 1 p. m.—The transfer of prisoners from Port Arthur was completed at 4.30 p. m. yesterday. The total number of officers transferred was 878; men, 23,481. TOKIO, Jan. 8, noon.—The Japanese intend to establish a naval station at Port Arthur. Vice Admiral Y. Shibayama will probably be placed in charge of it. The military administration of Port Arthur will retain only a small garrison as soon as the prisoners are withdrawn and order is restored. The fleet is busily engaged in clearing the mines, but owing to their great number navigation will be unsafe for a long time. Only government craft will be allowed to enter the harbor. REV. JOHN LATHERN DEAD.

Was Probably Best Known Methodist Minister in Maritime Provinces. HALIFAX, Jan. 8.—Rev. John Lathern, D. D., died last evening after a long illness. He was prominent in every good work. No Methodist minister in the province was so well known as he, and no one was better liked by members of other churches. He was born in England. Dr. Lathern was descended from an old Northumbrian family and was born in Cumberland, Eng., in 1831. He was trained for mining engineering, but obeying a call to the ministry, entered the British Wesleyan conference in 1855. He was ordained in 1859 and joined the newly organized conference in Eastern Canada and became pastor at Fredericton. After holding different pastorates he was president of the N. S. conference in 1882 and was elected editor of the Wesleyan. He is the author of Institute Lectures, The Macdonaldian, Fry, and born in Cumberland, Eng., in 1831. He married Miss Mary Elizabeth Simpson, daughter of the late John Simpson, at one time Queen's printer for N. B. During his ministry Dr. Lathern had charge of many of the more important Methodist churches in the three provinces. He was pastor of the Centenary from 1888 till 1871, and was the General Conference's representative at the death of Dr. McMurray a good many years ago. Dr. Lathern became chairman of the board of regents of Mt. Allison University, holding that position until his death, though on account of infirmity he was unable to attend the last meeting. He retired from the editorial management of the Wesleyan some years ago. It is understood that notwithstanding his feeble health Dr. Lathern was during the last two or three years of his life engaged in the preparation of a book which has not yet been published. When in the active ministry he was one of the most eloquent and impressive speakers in the Methodist connection, and there was a few speakers who had a higher reputation as a lecturer. Among his popular lectures were "Cromwell and the Ironsides," "Cobden and the Corn Laws," "Layard and the Bible of Luchnow." The last mentioned was delivered many times and always stirred an audience to enthusiasm. Dr. Lathern was a successful pastor in the best sense. He was a gentle, kindly man, loved by all, and yet true and strong, so that all respected him. One of his daughters, a graduate of Mount Allison University, is on the staff of the Ladies' College in Sackville. ALBERT'S NEW COURT HOUSE

Japs' Kindly Treatment.

Carried Effects of the Weary Russian Prisoners--Latter Feel Their Position Keenly.

Headquarters of the third Japanese army at Port Arthur, Jan. 6, via Yiu Kow and Tien Ts'in—Five thousand men of the Russian garrison at Port Arthur were marched from the village of Yamufsu, on the shores of Pigeon Bay, for 15 miles to the railway station at Changtingtsu at 3 o'clock, and the other detachments followed soon after. Each detachment was accompanied by six loaded transport carts. The Russians during the night will be taken on special trains of open trucks to Dally, and there will immediately embark for Japan on transports now waiting in that port. The long procession of the remnants of the gallant Russian garrison was a pathetic spectacle. The first arrivals at Changtingtsu were four drookates containing the staff officers who had refused to give their parole. All wore their swords. A few minutes later the first detachment arrived. As the Japanese soldiers crowded about them with evident curiosity the faces of the Russian officers were an interesting study. All of them appeared to feel their humiliating position keenly, and though some seemed to be resigned to their situation, others were resentful at being regarded with curiosity. The men looked to be well fed, but their faces, like those of the officers, indicated the awful physical strain they had undergone. The prisoners were treated with the greatest respect and kindness. The soldiers were given food, cigarettes and beer, and the correspondent of the Associated Press saw soldiers voluntarily carrying the effects of the prisoners when they were overcome by fatigue.

YOUNG BRAVADO Endeavoring to Terrorize His Native County.

Had Read Dime Novels and is Following the Example Set Therein—Twenty Years Old.

WORCESTER, Mass., Jan. 9.—Emulating the example of dime novel bravados, a youth of twenty years, armed with a shot gun, a repeating rifle and a bowie knife tucked away in a cartridge belt, has succeeded in terrorizing Worcester county, and attracted to himself the attention of the state and county police, who tonight had traced and followed him across the New Hampshire line. Late last Tuesday afternoon the young desperado arrived at the home of Mrs. Estimo O. Ward, in Petersham, and learning that the woman, who is a widow of 65 years, was living alone, installed himself in the house, where he remained until 10 o'clock the following night. Thursday night the woman reported that she had suffered abuse at the hands of the young man. Saturday the police began a systematic search for the young man. BATHURST, Jan. 8.—The County Council will meet tomorrow and there is not much of special importance to come before it, it is thought the session will be a short one. The matter of lighting the streets and bridges as well as the court house and jail will be discussed, and it is fervently hoped, will be so favorably considered that in a week or so will materialize. On Friday morning the dwelling of John Hollywood was destroyed by fire, which was not noticed till it had gained considerable headway. The occupants, Mr. Hollywood's wife, two children and mother-in-law, escaped in their night clothing. Nothing was saved. There was no insurance, and the loss, \$800, is a severe one to the owner. A skating carnival was to have taken place on the ice in the harbor on Saturday evening, but was postponed on account of the snow and rain storm. It will be held as soon as the ice is again in readiness. The funeral of William S. Hachey, who was accidentally killed by the shunting engine in Newcastle railway yard on Thursday night last, took place yesterday, and was one of the largest ever seen here. From 60 to 70 horses with sleighs containing friends of the deceased were in the procession. Mr. Hachey was a worthy man and a good citizen, and his widow and family have the sympathy of all. Telephone communication (before referred to in the Sun) has been established between the office of the manager of the light system and the power house. On Tuesday next the marriage of Miss Lena Melanson, daughter of Samuel Melanson, registrar of deeds for this county, to Frank Foote of Fredericton, will take place in the Church of the Holy Trinity, Bathurst Village. Congratulations. A MARVELOUS FLESH PRODUCER! That is the statement of those who have used "The D & L" Emulsion. It is said to be rich and sweet as cream and not unpleasant.

ALBERT'S NEW COURT HOUSE

HOPEWELL HILL, Jan. 8.—The S. & H. train, which left Albert last Wednesday, four days ago, got through to Salisbury yesterday, and reached Albert on the return trip this morning. The track being now clear. The train brought down a lot of passengers. Albert county's new Court House, at the Cape, which is about completed, will be opened for the meeting of the County Council next Tuesday. The painter is busy putting on the finishing touches this week. In the construction of the building, the contractors, H. Copp & Co. of Sackville, appear to have very faithfully followed the plans which were prepared by W. E. Reid of Riverdale, and the result is a handsome and convenient structure. Outside the building is painted a French gray, with white trimmings. The large columns, supporting the extended gable facing the Court House square, and much to the appearance of the building, which is certainly an ornament to the shiretown. The walls are of hardwood, and the walling being painted in terra cotta, and the woodwork done in hard oil. The ceiling is of metal, octagonal, and painted a lighter shade of terra cotta. The rails are of hardwood. The building is heated with a very large furnace, which was put in by Jordan Steeves, the well known hardware man of Hillsboro. Mr. Gould of Sackville was the foreman on the work. Amos Glyak did the greater part of the painting, and F. F. Burton did the finishing-innol. The plumbing has not yet been installed. Miss Martha E. Bray, who is to teach here in the place of her sister, who is ill, arrived today from Burnt Lake, Alberta, where she has been teaching.
