Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold—your lungs are being heated, soothed, and the irritated bronchial tubes. Don't blindly suppress it with a stupifying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—what a late though—Congress says "Put it on the label, if poisons are in your cough. Mixture. Good. Very good!" Hereafter for this very reason, mothers and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on the label, but—read the name in the medicine. It must be as said to be those that know it best. A truly reliable cough remedy. Take no chance, especially with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the difference. No poison marks there! You can always be on the safe side by demanding
