

WHITE DISTANCED GLENN CURTISS

English Aviator Speed
Around Course at Mile-
a-Minute Clip, Winning
Special Cup.

A. V. Roe, Another Eng-
lishman, Not So Fortu-
nate—Wrecked Machine
and Suffered Injury.

Boston, Mass., Sept. 15.—Speeding his swift Blériot monoplane round and round the course of the Harvard aviation field at Atlantic, Claude Grahame-White, of England, maintained his supremacy of the past few days in the closing event of the Harvard-Boston aero meet, defeating Glenn H. Curtiss, the world champion by 10.45 seconds in a 5 1/4 mile race.

White also made the best time witnessed on the course, his winning mark in the speed events of the contests which closed Tuesday night being 6.01. His mark today was 5.47.45 for the same distance, Curtiss' time was 6.04.35.

By laps of a mile and three-quarters length, White's time was: 1st lap, 1 minute 56.25 seconds; two laps, 3 minutes, 50.35 seconds; three laps, 5 minutes, 47.45 seconds. The time of Curtiss by laps was, 1st lap, 2 minutes, 4.15 seconds; 2nd lap, 4 minutes 4.45 seconds; 3rd lap, 6 minutes, 4.35 seconds.

The second extra day of the meet brought the first injury to an aviator during the meet. A. V. Roe, of England, who brought two triplanes, the only ones of their kind and smashed one last week, wrecked the second late today and was somewhat injured himself. The triplane had been sold to the Harvard aeronautical society and Roe was desirous of showing that it was practicable. He made a good flight, ten feet in the air, the length of the straightaway. The power to move the big flier was inadequate and when Roe attempted to turn the pylon and swing around the course, the extra strain brought the triplane to the ground with a crash.

The plane struck on its left side and Roe was thrown into the midst of the debris. He was struck across the face and forehead by a bar support which caused a bad bruise and tore open the skin, necessitating six stitches to be taken. His left hand was also slightly bruised. Mr. Roe was able to extricate himself from the debris and making his way to the ambulance he was taken to the field hospital where his wounds were dressed.

Dropped Eggs For Bombs.
The practicality of the dropping of bombs from an elevation of 1800 feet or better, was given a good try-out by Ralph Johnstone in a Wright biplane and Grahame-White in his Farman. Both took six eggs and attempted to strike a 200 foot square of canvas on the ground. None of White's eggs were seen to strike. Two of Johnstone's struck an automobile a thousand feet away. Johnstone was declared the winner of the event and won the city of Boston cup while White gets the John Hays Hammond cup.

The remainder of the flying was of a general yet spectacular order. Grahame-White carried up passengers on trips about the field and over the harbor, William Carroll Hill and A. J. Philpott, Boston newspaper men; L. G. L. P. Stone of the U. S. S. Chester; W. Stirling Burgess of Marble Head; C. P. Curtis, of Boston; Carl A. Sylvester, of Waltham, and Sydney MacDonald, of England. Ralph Johnstone took up J. V. Martin, of Boston in a Wright machine. Tonight the aviators and masses of spectators gathered at the city club by Mayor John F. Fitzgerald.

—Accident In Crandall Mill
—News From Campbellton.

Special To The Standard.

Newcastle, N. B., Sept. 15.—The opening of the big game season today assures unprecedented success for sportsmen. There has been a phenomenal influx of local and American hunters and the woods are now full. When the curtain rose today some famous sportsmen started on quest for moose. The parties included prominent citizens from Pittsburg, Boston, Plattsburg, Mayor Senecal of the latter place being among the visitors, all registered at the Miramichi Hotel.

Chief game warden Dennis Doyle and James P. Whalen are extremely busy with the opening of the season. Big game, especially moose, are reported plentiful. Several excellent specimens have been recently seen and an unparalleled season is confidently expected.

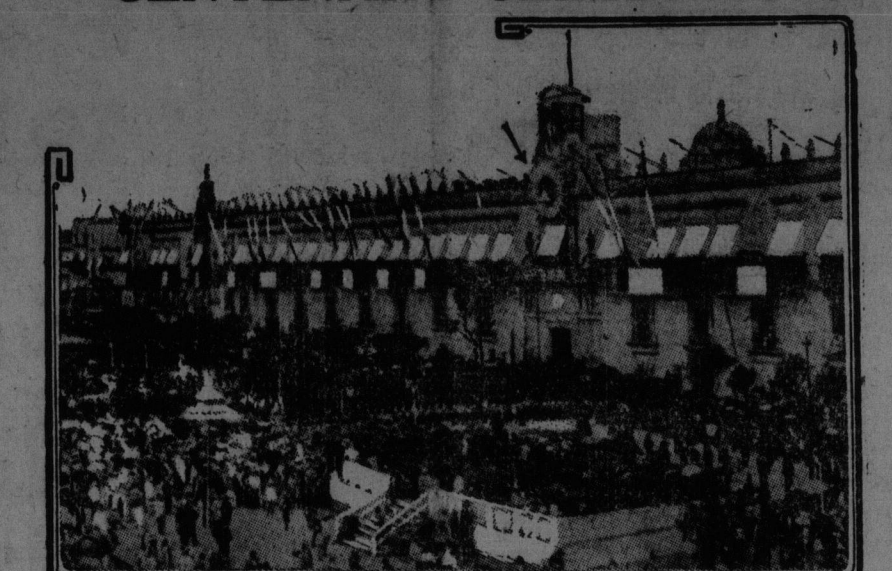

Word received today from Chatham states that the condition of Narcis Richard shows little change. Richard received severe injuries in the Crandall portable mill at this place, his clothing in some manner became caught in a large belt and it was feared he would become a victim of the machinery. Employees extricated him from his serious position. Dr. Nicholson was summoned and dressed his injuries. Richard had his left arm broken and sustained bruises to limbs. He was removed to Hotel Dieu.

Rev. Fr. Wallace of Campbellton was a visitor to town today. Excellent temporary quarters have been afforded for churches there.

NO MERCY FOR MURDERER OF POLICEMEN

Timothy Candy Found Guilty
Of Shooting Two At Mon-
treal—Sentenced To Hang
On Nov. 18th.

Special To The Standard.

Montreal, Sept. 15.—There was a dramatic scene before the court of Kings Bench this afternoon when Timothy Candy, the Englishman who shot and killed Constables Fortin and O'Connell, when the latter were attempting to arrest him for theft, was found guilty of murder. Judge St. Pierre, who was the trial judge, charged strongly against the prisoner, and the jury took only a few minutes to return a verdict of murder. The accused made a long plea for mercy, stating that he did not intend to kill the constables.

Judge St. Pierre in passing sentence broke down and wept, and there was a dramatic scene in the court room. The judge said that he couldn't entertain any plea for mercy and he sentenced the prisoner to be hanged on November 18.

Candy was a night watchman at the boot and shoe factory of Ames, Holden & Co. He stole a number of boots from the factory and was attempting to sell them to a second hand dealer when he was arrested and fired on the constables.

ing In Cumberland County
Checked By Downpour Of

The fire broke out on Saturday in the woodland of Ainsley Chapman, Chapman's settlement and swept over a thousand acres of valuable timber property. Over 100 fire fighters were out in force on Wednesday, but could do little to prevent the spread of the conflagration although several houses that were threatened were saved from destruction by their efforts. Rain set in yesterday and continued long enough to prevent further damage.

PROTESTANTS OF MONTREAL STIRRED UP

Reference By Bishop Of Lon-
don To His Faith In English
Church Leads To Great
Demonstration.

Special To The Standard.

Montreal, Sept. 15.—The intense feeling which Father Bernard Vaughan's description of Protestantism as a religion without a soul aroused in Montreal Protestants was accidentally revived tonight. The scene was the arena and the occasion, the opening of the Brotherhood of St. Andrews convention attended by 6000 people. The principal speaker was the Bishop of London, Eng., Dr. Ingram. In his address the bishop asked: "Why am I not a dissenter?" and answered the question by saying, "Because there is nothing from which I dissent."

Then he asked: "Why am I not a Roman Catholic?" A silence almost painful in its intensity fell upon the audience waiting in anticipation of the answer. The bishop paused for one moment, then he answered: "Because, thank God, I am an English-Catholic."

In an instant men and women were on their chairs and there followed five minutes of pandemonium, cheer after cheer resounding forth, the tumult only dying down after a full five minutes and when the bishop had three times raised his hand in appeal to the audience to allow him to continue.

Montrealers can remember no other such remarkable outburst.

ducing Plurality.

Danville, Ills., Sept. 15.—Joseph G. Cannon, speaker of the National House of Representatives was re-nominated for re-election in the 18th district by a reduced plurality. His opponent was H. P. Downs.

The defeated candidate is the only Republican who ever dared to beard "Joe" Cannon in his den. He is a Methodist elder and was roused to opposition by the use of whiskey booters in a Cannon parade. He fought his way to fore-ordained defeat with as jaunty a front as was ever worn by the leader of a forlorn hope.

Princeton Lead In Fight.

Trenton, N. J., Sept. 15.—Today's New Jersey Democratic State Convention nominated Dr. Woodrow Wilson, president of the Princeton University for the office of governor of the state. Dr. Wilson's nomination was brought about largely through the influence of ex-Senator Jas. Smith Jr. of Essex County, who is undisputed Democrat leader of the state. Besides this support, Dr. Wilson had with him a number of independent Democrats who believed that because of his standing as a publicist he would make an unusually strong candidate.

Dr. Wilson was nominated on the first ballot and received 40 more votes than was necessary to nominate him. Frank S. Katzenbach, Jr., who was the Democratic candidate three years ago, and who was not a candidate this time, although urged by his home county, was a favorite with individual delegates and received nearly 400 votes in the convention. The platform adopted was in line with the Democratic platform of three years ago, except that it urged a specific advocacy of reform measures, including conferring rate making power upon the present public utilities committee.

MEANS RETIREMENT.

Princeton, N. J., Sept. 15.—President Woodrow Wilson returned to Princeton immediately after finishing his speech of acceptance at Trenton. When Dr. Wilson was asked how his relation with Princeton would be affected, he said that of course he would resign.

Ottawa, Sept. 15.—The organization meeting of the Dominion Dry Dock Company was held today at the Windsor Hotel, Montreal. Those present were: Sir Thomas Shaughnessy, Sir Robert Perks, Mr. W. M. Dobell of Quebec; Mr. Davie, of Quebec; Sir Montague Allen, Mr. Andrew Allan, Captain Doc Newton, of Montreal; representing Mr. Foster, of St. John, N. The organization was completed, the following directors being appointed: Mr. Andrew Allan, Sir Montague Allen, Mr. G. M. Bosworth, vice president of the C. P. R., and Captain Newton. Mr. Andrew Allan was elected president.

The Dominion Dry Dock Company is the organization which is to build the dry dock at Levis, and is said to be arranging for the proposed dock at this port. W. E. Foster, who is interested in the company, said last evening that arrangements had already been made for the dock in Levis, and that the dock in St. John is now being arranged. Beyond this Mr. Foster would not talk.

It is understood that the matter of the St. John dock which is now being arranged for largely concerns the question of subsidy and assistance. It is the belief, however, that the dock will be constructed and that work will be commenced at an early date.

RAILWAY MEN GIVE EVIDENCE

Not Yet Known Which Train
Ran Over John McMullen—
Charles London Knew Noth-
ing Of Fatal Accident.

Fredericton, Sept. 15.—The inquest into the death of John P. McMullen was continued tonight by Coroner Weaver. The first witness called was Charles London, of St. John, who told practically the same story as in an interview at the St. John police station. He testified that the men had been drinking before the accident occurred. No. 53 train at Fairville. Witness said they got on a lumber car to steal a ride and he (London) fell asleep, and did not know anything that happened until he found himself in the baggage car where McMullen was being attended by a physician en route to Fredericton.

He didn't remember getting off the train or anything else that happened to himself or McMullen after leaving Fairville.

The crew of train No. 53 on that day consisting of Engineer John Artes, Conductor William Keefe, brakemen Russell, Rutherford and Thomas Heenan gave evidence, but could not say just how the accident occurred. They did not know any men were stealing rides on the train until they reached Fredericton Jct., when they put several men off the train but could not tell whether McMullen was one of them or not. They recognized London as one. They also could not tell whether train No. 58 or another train which followed had run over McMullen and for that reason it was decided to call crew of the second train to give evidence.

It came out that Artie Howe, of St. John was one of the party stealing a ride on the train. Charles May, of Fredericton Jct., who found McMullen alongside the track, also gave evidence.

The inquest will be resumed on Monday evening.

H. A. Brennan, C. P. R. special agent and C. F. Inches, C. P. R. solicitor, attended proceedings tonight as representatives of the C. P. R.

MAURETANIA BETTERS RECORD BY 10 MINUTES

New York, N. Y., Sept. 15.—Europe was brought 10 minutes nearer New York today when the giant Cunard liner Mauretania hung up a new trans-Atlantic record over the short route of 2780 miles from Daunt's Rock to the Ambrose channel lightship. Her time for the trip was 4 days, 10 hours and 41 minutes, just 10 minutes better than her record of Sept. 30, 1909. For this voyage her high day's run was 661 knots and her average speed 26.06 both marks identical with those established on her last record breaking voyage.
