Boland pitched well throughout and was brilliantly supported. Nath fell the last three innings. The score: Detroit, 8; Cleveland, 1. 320100001—8 14 Cleveland. 100000000—1 2 1 Batteries—Boland and Stangan; Coveleski, Ezzaman, Phillips and O'Neill, Numamaker.

New York 7; Boston 3. Boston, May 1.—Boston lost its home opening game to New York 7 to 3 at Fenway Park today. Loose pitching by Maye and indifferent support were factors in the visitors' triumph. Feeling between the teams was intense. Phip was expelled from the game for disputing with Umpire Connolly, and Maye and Pratt were separated by players before they came to blows. Morrigan filled the bases with non-outs in the eighth with his team leading 2 to 1. Quinn then re-leased Morrigan and Boston tied the score, only to see the visitors score two out in the ninth, make four runs on a double, a single, three errors, a wild pitch and two bases on balls. The score: New York, 7; Boston, 3. 020001001—7 9 1 Boston. 100000020—3 9 2 Batteries—Morrigan, Quinn and Pratt; Maye and Schanz.

WAS HELD UP BY THE INSPECTOR

Chatham World Says St. John Will be Shunned by Everybody if Arrivals Are to be Subjected to Indignities.

Chief Inspector Wilson and others have been indignantly denying the report that a New Brunswick professional gentleman was recently held up at the St. John station, by an inspector who wanted to search his grip, and here if another opportunity for them. Mr. Geo. M. McEade landed in St. John on Thursday, on legal business, and, as he walked through the front door of the railway station, he was followed and stopped by Inspector McEade, escorted by a number of persons who wanted to see the performance, and held up till his grip was searched. Just at that time the St. John Board of Trade, or the Tourist Association to get busy for the protection of visitors to St. John. The place will be shunned by everybody who doesn't have to go there if arrivals are to be subjected to indignities of this kind.—Chatham World.

Tanlac Elements Are From Remote Parts of Globe

Famous Medicine Draws Ingredients from Many Far Away Points—Noted Chemist Directs Laboratory—Opening Day of Sale in St. John Proves Splendid Success.

The ingredients or medicinal elements which make Tanlac come from many remote sections of the earth—West Indies, Mexico, Peru, Central America, the Alps, the Pyrenees, Africa, Russian Asia, Arabia, Persia, and our own Rocky Mountain sections, are among the points from which the principal parts of the preparation are obtained. In the laboratory of the Cooper Medicine, Inc., in Dayton, Ohio, and Walkerville, Ont., under the efficient direction of a celebrated chemist, these medicinal roots, herbs and barks are assembled in the rough and painstakingly developed so as to obtain the uniform preparation, Tanlac. In sterilized bottles, made expressly for the purpose, Tanlac is placed, labeled and cartoned; the preparation is inspected again and then crated, ready for shipment to points over the world where the demand grows.

Many called throughout the day yesterday at The Ross Drug Co. and F. W. Munro's Drug Store to find out just how the famous medicine Tanlac was sold, how it was prepared, and what the preparation actually looked like. In commenting upon the wonderful amount of interest shown, the Tanlac representative said: "The success of the opening day of the introductory sale of Tanlac has far exceeded my expectations. I have been greatly surprised by the knowledge the public seems to have of the preparation. While many came merely to see what the medicine actually looked like, equally as many came prepared to obtain the preparation. These people simply asked for Tanlac, and the facility with which the medicine was distributed throughout the day proved somewhat of a revelation to the management of our local agencies. "I am, indeed, gratified," he continued, "to see such marked enthusiasm and I now feel justified in predicting that Tanlac will prove just as successful in St. John as it has in the larger cities of the east, middle west and Pacific coast. I do not believe that I am overestimating the success of the medicine when I state that I am confident that from a thousand to fifteen hundred people will call and obtain Tanlac during the next ten days."

Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative. (Advertisement.)

This was in reply to a circular demanding that the local council declare itself on the subject not later than May 10.

WHY DOESN'T HE PROPOSE?

During the week just past eleven girls have written me on the subject of Rouge, and whether or not I consider it detrimental to a girl's chances with the right sort of man. Their letters are so interesting I would like to use them all, but as that is impossible a few sentences will suffice: Ruth R. writes: "I have noticed that most of the engaged girls I know use rouge in one form or another, do you suppose it matters to a man? The man I go with has made several remarks on the subject that I have taken personally. Do you think he intended them for me?"

A girl from Toronto says: "My mother is forever telling me that no man will ever take me seriously because I paint and like a good time. All the girls here do. And lots of them get married. I am willing to give up rouging, but do not see any harm in it, do you?"

None of us see any "harm" in it. My dear Ruth, for there isn't any. Painting your face is like bleaching your hair or eating onions. It is only a question of good taste—or bad. And from time beyond memory it has been conceded that all three together with a few other things were not done by the right sort of people.

It is not positive indication of moral bankruptcy. Yet your mother is precisely right when she tells you that men do not take a painted girl seriously. Why should they? Really serious girls do not wear "pink paint" as the men call it—and it is a joke with men when girls color their faces. However, many girls very worthy of men's love and devotion do use Rouge. But, such girls win that love and devotion in spite of the Rouge—not because of it. Each and every girl wears a barricade between herself and The Man's Trust when she takes to the Lip Stick. Men more than dislike it, they tremble before it. The masculine mind does not see the subtle suggestions at sight of a woman of his own household made up. And that is the answer.

MARKET TOOK ANOTHER WEAK TURN

U. S. Steel Made Break and the Reaction Spread to Others on the List.

New York, April 30.—The market had another weak spell in the early afternoon, in which U. S. Steel broke through the morning's low price. The reaction spread to other sections of the list, but did not affect all issues, and it brought out more widely distributed support than the morning reactions. The Motors and Rubbers were among the exceptions. U. S. Rubber making a conspicuous advance, while the rest of the market was weakest and continuing to gain gradually up to the close. The general list recovered more or less in the last hour. It was announced that the Steel companies had proposed to the railroad administration to re-open the question of steel prices and the production was made in official quarters that the railroad administration would undoubtedly accept this offer. It cannot be doubted that both sides of this controversy are anxious to arrange a settlement which will open the way to ordering the large requirements for the railroads for this year. Sales 1,742,500.

EXILED COSTA RICANS GATHERING IN FORCE

San Juan Del Sur, Nicaragua, May 1.—Citizens of Costa Rica, who have been in exile since the Lincoo government came into control there, according to reports reaching here, are gathering forces in the southern and eastern end of the Lake Nicaragua and points on the San Juan river. The situation on the Costa Rican border, it is declared, may result in fighting. Recent reports from Central America have been that the Costa Rican government had sent several thousand troops to the northern frontier to protect it against probable incursions by the Costa Rican exiles.

GERMAN MEMOIRS TO BE PUBLISHED

Berlin, Tuesday, April 29. (By The A. P.)—The spring book lists continue to feature memoirs by former governmental, political and military leaders, the newest acquisition being two comprehensive volumes written by former Imperial Chancellor Dr. Von Bethmann-Hollweg. The first volume deals with political developments preceding the outbreak of the war. Another work soon to appear will be by Gottlieb von Jagow, former Minister of Foreign Affairs, which is reported to be a plain defence of Germany's pre-war policies. German publishers are apparently putting an extraordinary appraisal on the foreign interest in these books, as they are demanding fat royalties for British and American editions. A Leipzig firm is offering the foreign rights on a combination work by Admiral von Tirpitz, former Minister of the Navy; Lieut-General von Stein, former Prussian Minister of War and State, and Colonel von Lettow-Vorbeck, commander of German troops in German East Africa, for \$250,000.

NAVIGATION OPEN ON RIVER DVINA

London, April 30.—The river Dvina is believed to be open for navigation as far south as Kollas, says an official statement issued by the war office today on the situation in Northern Russia. At Berensk, on the Vaga fifteen miles south of the junction with the Dvina, the river is flowing rapidly and has risen two or three feet. It is believed that the main ice has passed from the Dvina.

All Workers Here

Woodstock Sentinel-Review: In a country like Canada most people are workers and wage-earners. Every kind of work that is useful should be regarded as honorable. Both the architect and the hod-carrier render necessary service in the erection of a building. Neither one is entitled to monopolize the name of laborer or wage-earner. Modern industry depends upon the co-operation of many kinds of labor.

UNEMPLOYMENT NOT VERY SERIOUS

Statistics Show That Greater Portion of Demobilized Soldiers Have Been Placed.

London, April 20.—In defending the government's policy of donations to the unemployed, Sir Robert Stevenson Horan, the minister of labor, in the House of Commons today, said it was unnecessary to take a gloomy view of the unemployment question. Since the armistice, he said, four million persons have been demobilized from the army and naval forces and from civilian employment and one million remain unemployed. Eighty per cent. of the demobilized soldiers, fifty-five per cent. of the civilian males and forty-five per cent. of the civilian women have been absorbed by peace industries. This, the minister added, was a remarkable achievement when it was remembered that the central empires and Russia, which before the war had taken one-fourth of the British exports, were still closed to trade and that China, Japan and New Zealand, which used to take another quarter, were virtually cut off owing to shipping difficulties.
