the financial market.

He referred to the figures quoted by Mr. Emmerson, \$62,000,000 to be expended for new railways. He thought Mr. Emmerson had probably overlooked an amount of \$28,000,000 now before the house to be expended on the transcontinental railway. With the expenditures to be made on the I. C. R. there was a round \$100,000,000 to be expended in railways

The great need of Canada now is more laborers to do the work. He spoke of the great increase in immigration under the present regime. This was not only in British people, but also in other European nationalities, and from the United States. Under the Conservative rule the number of homestead entries had decreased from 2,950 in 1890 to 1,800 in 1896. Under Liberal rule, in 1897 there were 2,384 and
