# The Peoples Building and Loan Association

428 Richmond Street, London, Ont.

Money rates are governed by the law of supply and demand. The Association provides a safe medium by which those living in a community where there is little demand for money on first mortgages on real estate can secure higher rates in localities where money is required to improve lands and erect buildings, thereby rendering a public service to the Investor as well as the Borrower. Let the East lend the West and the West will pay the East a good rate of interest.
