Ottawa, July 2, 1923.

W. Lees Curran, Esq.,
Royal Colonial Institute,
120 St. James St.,
Montreal.

Dear Mr. Curran:

I duly received your letter of the 20th June, but in the very great rush of the last few days of the session I could not overtake my correspondence. At any rate the Fuel Committee had ceased, I believe, before your letter had arrived. If you would kindly call my attention to this next session when a new fuel committee will probably be appointed, I will take the matter up personally with our representatives and see that real attention is given.

Next to developing our own coal mines, and using our own coal where it can be done in a practical business way, I believe in purchasing from Great Britain.

Yours very truly,

MEIGHEN PAPERS, Series 3 (M.G. 26, I, Volume 65)
