

Q. Can you mention any other organs diseased from drinks?

A. The kidneys, the spleen, the heart and blood vessels, and even the muscles.

Q. Can you mention any others?

A. The brain and the nerves are frequently diseased.

Q. How can any one prevent alcohol from producing those diseases in them?

A. By never tasting intoxicating liquors of any kind.

Q. What is best for man to drink?

A. Pure water.

Q. Who gives it to us?

A. God.

LESSON VI.

Q. What is the only drink that will quench thirst?

A. Water.

Q. Why is it that other drinks, milk, for instance, quench thirst?

A. Because they contain water.

Q. Does alcohol quench thirst?

A. It does not, but increases it.

Q. How does alcohol increase or produce thirst?

A. By absorbing some of the moisture of the parts of the body with which it comes in contact.

Q. Does alcohol nourish the body?

A. It does not.
