

Have You One of Those Can't Taste, Can't Smell Colds?

If you have you had better get rid of it immediately. If you don't, that terrible and disgusting malady, Catarrh, is sure to take hold of you and make you miserable, and an object of repugnance to your friends. The best and quickest cure for your cold is

DR. WOOD'S NORWAY PINE SYRUP. It contains all the virtues of the Norway Pine Tree, combined with Wild Cherry Bark and the soothing and expectorant properties of other excellent herbs and barks.

Mr. Harry Mosher, Mosher's Island, N.S., writes: "We have used Dr. Wood's Norway Pine Syrup in our family for the past six years, and have always found it a reliable remedy for the cure of coughs and colds."

Many cases of substitution have been brought to our notice. Do not be humbugged into taking any other pine syrup which unscrupulous dealers say is just as good.

Dr. Wood's is the original, put up in a yellow wrapper; and three pine trees the trade mark, and the price 25 cents.

LARGEST ORGAN IN THE BODY.

In the liver. Small wonder that liver trouble makes you feel so miserable. The symptoms are constipation, dizziness, indigestion, headache, feeling of depression and lack of appetite.

There is but one sure cure — Dr. Hamilton's Pills. In every case they are successful. By relying on Dr. Hamilton's Pills you are sure of strong vitality, nourishing blood, bright, cheery spirits. No longer will you suffer from disordered liver or kidneys. The marvel of this medicine is that it keeps you well-prevents and wards off sickness of every kind. 25c per box everywhere.

Swiss Special Tax. Germany imposed a special tax on department stores in 1900, and now it appears that the owners have shifted the burden upon the manufacturers from whom they draw supplies. Naturally the manufacturers kick at that, for they are already handicapped by stringent Government regulations. The small retailers, in whose interest the special tax law was formed, say that its workings are of no benefit to their trade.

LISTEN FOR THE BRONCHIAL "WHEEZE." It means that the lungs will soon attack the lungs. Wheezing is distressing to the sufferer and annoying to his friends. Nothing half so certain as "Catarrhoea," it gives instant relief and cures even the most stubborn cases of Catarrh, which cures so thoroughly the disease never returns. Other remedies may relieve, but "Catarrhoea" cures bronchitis, catarrh, and throat trouble for all time to come. Sold everywhere.

Save to Please. When the stage manager told the heavy man he was to play a certain part the actor said: "I have never seen the play. Do you think I shall please the audience?" "Sure," said the manager. "You die in the first act."

THE HAPPINESS OF HOME. Very largely depends on the mother's disposition; if she is animated and bright, everyone is happy; but if she is nervous, irritable and cross, everything goes wrong. Bright, cheery women usually use Dr. Wood's Norway Pine Syrup.

By acting through the blood Dr. Wood's Norway Pine Syrup is able to reach all the organs that need assistance. It establishes regular and healthy action of all functions, builds up the general health, fortifies the system with a reserve of energy that defies disease. Don't put off—Dr. Wood's costs only 50c. at any drug store; get it to-day.

IS THE SUN COOLING?

Professor Langley Thinks It Is—His Reasons Thereof—Some Delicate Measurements of Radiant Heat.

That the total amount of heat in the sun tends to be constantly lessened by radiation is believed by all astronomers. That its temperature remains practically the same from age to age is almost equally certain. What it is that restores or maintains this temperature is perhaps the fundamental problem of solar physics. Whatever its solution may be, exact measurements of the sun's radiation show that this fluctuates considerably, and it is probable that these changes have an influence in the earth's weather. The most delicate measurements of radiant heat are those made with Professor Langley's bolometer, an instrument now so perfected that it will indicate the heat given out by a human face one-third of a mile distant. The results of some measurements of solar radiation made by Langley with this device are thus stated by C. W. Saleeby in the Academy and Literature, London. Says this writer:

"He (Langley) believes that at the end of March, 1903, contemporaneously with a marked increase in sun spots, something happened in the sun that caused a rapid fall in the solar radiation, which subsequently has continued to be about 10 per cent. less than before. What the cause of this fall may have been we cannot conjecture, but it is interesting to inquire what consequences it had for the earth. According to Professor Langley, such a change in the sun would reduce the temperature of the earth's surface by something less than 7.5 degrees C.—13.5 degrees F. Now, when attention is directed to the exact observations made at eighty-nine stations in the temperate zone and when these are compared with the results of many previous years it is found that a definite fall of more than 2 degrees did actually occur, nor is it possible to conceive what influence, not solar, could have produced this rapid and simultaneous reduction of temperatures over the whole north temperate zone and continued operative for so long a period. While we remain ignorant of the cause of this solar change we cannot make any prediction as to its persistence or possible accentuation. All we can conclude is that our tenure of the 'lukewarm buliet' is perhaps not so certain as some of us have thought."

A WOMAN'S ORDEAL DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private life, even when those questions are asked by her family physician, and many

continue to suffer rather than submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.

This is also the reason why thousands upon thousands of women are corresponding with Mrs. Pinkham at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ailments, Mrs. Pinkham can advise women more wisely than the local physician.

Delle E. Montreuil, of 114 Latourville St., Quebec, Que., writes:

"I suffered for eight months with what the doctors called prolapsus, which caused great weakness all over my system, with fainting spells. I kept growing weaker and weaker. I tried several medicines which they claimed would cure my trouble, but nothing was of the least benefit until I tried Lydia E. Pinkham's Vegetable Compound, and this helped me so rapidly that I could hardly believe my good fortune. I would gladly have paid \$25.00 for that first bottle, for it started me on the road to health, and five bottles more, my friends and acquaintances, for it is deserving of all the praise I can give it."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

SOME WEATHER SIGNS.

Old Sayings Adapted From Experiences in Many Lands.

Rainbow at night, sailors' delight; Rainbow in the morning, sailors take warning; Rainbow at noon, rain very soon.

Just adapt this couplet the next time a rainbow comes your way, says The Scientific American, and see for yourself if it doesn't hold.

A combination of rain and sunshine was also supposed to bring rain the next day.

Another verse which found favor was:

Evening red and morning grey, That's the traveler on his way; Evening grey and morning red, Will pour down rain upon his head.

This is but an adaptation of the adage that a red sunset is a sign of clear weather. And if the sun goes down in a cloud rain will surely come the next day.

It is in the night look for rain the next day. If smoke from the chimney settles instead of rising there is a storm at hand. When sound travels a long distance there is also a storm near. An owl hooting in the house is a sign of a cold storm; on the hill it foretells a thaw.

Animal life seems, according to the popular notion, to have peculiar warnings regarding the weather changes. Some of these are explainable by natural causes. It is a fact recognized by all intelligent stockmen that cattle have an intuition of an approaching storm. An owl hooting in the house is a sign of a cold storm; on the hill it foretells a thaw.

T. H. Belyea, P. M., Proves That Dodd's Kidney Pills Cure Permanently.

Some Years Since He Used Them Now And He Has Had Good Health Ever Since—Story of Well-Known New Brunswick Man.

Lower Windsor, Carleton Co., N. B., April 10.—(Special.) "Yes, I have good health ever since I used Dodd's Kidney Pills." The speaker was Mr. T. H. Belyea, postmaster here, and one of the most highly respected men in this part of the country. Asked to give his experience with the great Canadian Kidney Remedy Mr. Belyea continued:

"I had been troubled with my kidneys for a number of years. I tried several kinds of medicines, but did not seem to get any lasting benefit. Hearing of Dodd's Kidney Pills so highly recommended, I decided to try them and they made a complete cure of me. That is two years ago now and as I said before I have had good health ever since I used Dodd's Kidney Pills."

Dodd's Kidney Pills cure once and for all. There is no stage or form of Kidney Disease that they do not cure completely and permanently.

Young Versus Old Hogs.

The Oregon station of a lot of hogs. One lot was at months old and the other mature. To make 100 pounds of gain in the young hogs required 425 pounds of grain; while in the case of the mature animals it required 551 pounds. In other words, it took 30 per cent. more grain to produce the same gain in the mature as in the immature ones.

A man talks about owning his business. But, as a matter of fact, his business owns him. His whole life is regulated by the demands of the business. The time at which he rises, his breakfast hour, the time given to meals, all determined by business obligations. He rushes through lunch because he "can't spare the time from business" to eat leisurely. He won't take a rest because he is needed at the store or office. He is in fact an absolute slave to business. The results which follow this slavery are to be seen on every hand. Men dyspeptic, irritable, nervous, with drawn faces, and hollow eyes, sit at the desk or stand behind the counter until they collapse in a fit of sickness, or are taken away by heart failure. Those who cannot escape the exactions of business will find a friend in Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, increases the action of the blood-making glands, increasing the vitality and physical vigor. It makes men strong and prevents those business break-downs which so often terminate fatally.
