

*Mrs J Mc Nish*

In the year of 1878 my wife was taken ill with scrofula. We consulted the best medical aid within reach, but to no avail. She continued getting worse, her hair all fell out, and her head presented the appearance of one continuous scab, which matured constantly. The disease spread to other parts until her body was completely covered. After four years of intense suffering, she was given up by her medical attendants, and after trying a great many advertised medicines without benefit, I was at last induced by Mr. Coombs, druggist, here, to try Burdock Blood Bitters, five bottles of which, with one box of Burdock Pills, cured her completely. We used the Bitters as directed, and also wet bandages with the same, and applied at intervals. This case is considered miraculous, and can be certified to by any leading citizen of our town. I have since recommended the Bitters in a great many cases, and have never known it to fail. I consider it a great boon to mankind, which can only be appreciated by those who have had occasion to use it.

TORRENCE McNISH,

Oct. 2nd, '86.  
I can vouch for the above certificate in every particular, as I have been an eye witness to this case as stated.

JOSEPH COOMBS, Druggist,  
Smith's Falls, Ont.

The above is an excellent likeness of Mrs. McNish, copied from a photograph with which she kindly favored us. From being completely bald, it will be seen that after her recovery her hair grew very rapidly, as it has grown to the length shown, in two years' time.

#### The Oldest Almanac in the World.

In the British Museum there is an almanac 3,000 years old, found in Egypt, and supposed to be the oldest in the world. It was found on the body of an Egyptian, who had, doubtless, regarded it with as much reverence as he did the Egyptian Bible. It clearly establishes the date of the reign of Rameses the Great, but contains nothing else of value, as in those days Burdock Blood Bitters was unknown.

Pantaloons are worn longer in July than in June—One day longer.
