

We want every reader of this paper to try a

Whitcomb Steel Barn Door Latch

The Whitcomb is the most convenient latch made. Can be attached to any door with ease. No fitting necessary. Holds door open or closed. Horses cannot open it. Nothing about it that will catch in the harness. Two large handles enable you to open the door from either side. Strong and durable. Enameled finish with galvanized bolt.

If your dealer doesn't handle the Whitcomb, send 50c to pay express charges and we will send you one latch free.

Albany Hardware Specialty Co.,
Box 115, Albany, Wisconsin.

FERRY'S Seeds

prove their worth at harvest time. After over fifty years of success, they are pronounced the best and surest by careful planters everywhere. Your dealer sells them. 1907 Seed Annual free on request.
D. M. FERRY & CO., Windsor, Ont.

THE COW MACHINE

Difference in value in a cow is determined by her ability as a producer of milk or butter fat. This is recognized. A well informed Dairyman doesn't hesitate to purchase at a high price such animals as are reputed large milk and butter producers.

DE LAVAL CREAM SEPARATORS

are indispensable to the Dairyman for the reason that as exhaustive skimmers, and for durability, convenience and right construction, no competitor has ever been able to approach its completeness.

Take the DE LAVAL into your business.

The De Laval Separator Co., 173-177 William St.
MONTREAL.

A Hay-Loader That Handles Anything

from lightest swath to heaviest wind-row. Takes the hay from a space 8 feet or more in width and narrows it down and places it right in the middle of the load where you want it. That doesn't mean that it rakes up and loads "reel" and all; hay is picked or softly "reel" up by lifting fingers on a floating cylinder. You see we have gotten away from the "hook and drag" idea in loaders that gathered up and loaded everything that was loose on the ground. Nothing that the mower passes over will find its way upon the wagon when you use the new

DEERE

loader. The only loader that satisfactorily handles the over-ripe grasses, such as clover for seed, beans, etc. Hay is carried, not kicked up, on the load. Slow, steady, motion with no pounding or jamming; delivers without breaking or matting. Exceedingly light draft and it's away ahead of all other loaders on rough or uneven meadows.

Don't you want to know more about it? Just postal us right now while you have it on your mind for nicely illustrated Hay-Loader book. A long list of photographs of the Loader at work makes everything plain.

Last Mountain Valley Lands

We own thousands of acres of **Choice Selected Land** in this district, which is in the heart of the

GREAT WHEAT PLAINS

OF

SASKATCHEWAN

Ample TIMBER for All Purposes

Prof. Thos. Shaw, after personal inspection, writes: "This rich and beautiful farming section lying in the vicinity of Last Mountain Lake, embraces one of the finest areas in the Northwest. The land is undulating in this region, mostly open prairie. The soil is rich black vegetable loam, from one to two feet deep, and is underlaid with a clay subsoil. Frost, to injure the wheat, is virtually unknown. Being thus favored so highly by nature, it is not surprising that the production of wheat in this region is phenomenally high; in several instances forty to forty-five bushels per acre have been reaped. Oats, Barley, Flax and all small grains yield relatively as good as those of wheat. Potatoes grow most luxuriantly. Two or three years ago there were not more than thirty-five settlers in the entire area; now there are over a thousand, and others rapidly coming in."

Send 25c. for our beautiful new photographic souvenir, entitled "The Lake and Lands of Last Mountain Valley," which is not only a work of art, but a book of authentic information. We will also send Atlas of Canada, Maps, etc.
