QUEBEC RAILROAD .- At a meeting of the Quebec Board of Trade, recently held, it was reported, that "chicity owing to the liberal proceedings of the City Corporation, the projected R Iroad from Quebec to Melbourne will in all probability be commenced as soon as the act of incorporation is obtained."-These liberal proceedings were the guarantee of £100,000 by the city, heretofore alluded to. This projected road to Methourne is to connect with the road from St. Andrews to Montreal, already commenced. "It has been too much the case," says the Report, "to look upon this as opposing the important Railroad between Quebee and Halifax, whereas, as far as regards the distance between Queliec and Woodstock, it may be considered as part and parcel of the same, leaving only two-thirds of the road to Halifax to be constructed. The Council do not, under present circumstances, feel called upon to present circumstances, feel called upon to give an opinion whether Halifax or St. Andrews would be the preferable part, but the real question seems to be whether it is not advisable to support a road of 250 miles long and already commenced, and which will give an already commenced, and which will give days. A White & Co; schrJohn & Reviell Bern Leville & Co; schrJohn & Reviell & Co; schrJohn & Reviel open at all seasons of the year, than to look on it with indifference, under the expectation that a road, considerably more than double that length, may be constructed to Halifax. -Sun.
