Tubular
ADVANTAGES No. 9

The Largest Separator Factory in the World Is Back of the Tubular.

This means that when you buy a Tubular you get the highest type of machine the most successful manufacturers can turn out—a separator so superior to others that the demand has made necessary the largest factory of its kind in the world to supply it.

You get a machine that has been selected by the greatest number of separator buyers—hence the greatest demand.

You get a machine built by the most skilled separator builders—better material and better workmanship than in other separators.

Then why buy the second best or inferior makes? Get the machine that is good enough to be guaranteed to leave 50 per cent. less butter fat in the milk than any other on the market or no sale. We have been making Tubulars 28 years—that's why we can make them enough better to offer them on such a strong guarantee.

A postal brings our catalog No. 186 containing in full this remarkable guarantee and explaining the reasons why the Tubular has no equal. Send for it today.
