

# Now For Business in 1910

# TO OUR FARMERS

**WE** have pleasure in telling our friends that our records show a splendid response to our solicitations for Grain Consignments in 1909. Our Farmers are loyally supporting their own Company, thus mightily strengthening our hands to champion their cause, fight their battles and win out.

We look for the same favor and support in 1910.

**We can get you TOP PRICE for your grain.**

We look after your interests in every way.

**We have the volume of business which enables us to sell to best advantage.**

Our CLAIMS DEPARTMENT does good work and is at your service.

One Word More. We have MADE GOOD in the past, we intend to push business more strenuously than ever in the present year, and we ask all our friends to be with us, to send us their grain right along and to advise others to do likewise. We shall be pleased to forward information regarding market prospects or the shipping of grain TO ALL WESTERN GRAIN GROWERS WHO WILL WRITE US. Write us today. Get in touch with the Farmers' Company.
