at Beak & Gees'.  
A full assortment of confectionery on hand at Barnes'.  
The Listowel High and Public Schools will re-open on Monday next.  
Earl Dufferin will open the Provincial Exhibition in Toronto next.  
Look at Barnes' assortment of fine cigars—constantly on hand.  
Paints, Oils and Varnishes, a large supply for sale cheap at Livingstone's Drug store.  
The General Conference of the Methodist Episcopal Church is in session in Belleville.  
About forty tons per day is the average quantity of Flour now being delivered at the Listowel mills.  
For the country's good there should be a change of government. Attend the mass meeting to-night.  
As International Convention of the St. George's Societies of North America met in session at Guelph on Tuesday last.

TOMATOES are offered on the Guelph market and 70 cents a bushel, and it is difficult to find takers even at that price.  
THOMAS A. EDISON has been awarded the Grand Prize at the Paris Exposition for the most wonderful inventions of the age.  
Through Tickets at lowest rates, to all principal points in Canada and United States by the Great Western Railway for sale at Livingstone's Drug store.  
ADVICE TO FARMERS.—Bring your butter and eggs to James Armstrong's, and secure your Tea for the harvest. He is selling 3 lbs. of good tea for \$1.00.  
REGULAR meeting of Town Council on Monday night. The estimates and other matters of interest will probably engage the Council's attention.  
Barnes' fruit more for fresh fruit, received daily. Peaches, pears, plums, watermelons, apples, Cleveland grapes, tomatoes, sweet potatoes, oranges, lemons, always on hand.  
A RACE has been arranged for the 1st October between Hanlan and Courtney, for the championship of America; distance, five miles with turn; stakes \$2,500 a side.  
FOR SALE.—Louis S. Zoeger will sell by private sale a good 4 year old bay mare, good second hand top buggy and harness, suitable for private or other purposes; a good bargain to be had. Call at his jewelry store, Wallace street.—31

HOMER of Boston was the lucky sculler at the Hamilton Regatta on Friday. Morris second, and Wallace Ross third. Twenty or thirty thousand spectators gathered around Burlington Bay to see the race.  
AGENCY.—Mr. John Page has been appointed as agent for the Galt Nursery for Listowel and vicinity, and all orders sent in, and all money received, from the nursery, should be sent to him, at his residence, 250 St. John's street, Toronto.  
S. & H. R. BOKES.—The township council of Bant has submitted another by-law in aid of the Stratford & Huron extension north. The amount asked for is \$15,000, and it is probable that it will be granted.  
BONES.—The village of Embro is evidently well awake to the advisability of encouraging its manufacturing interests. A bonus of \$2,000 has been granted to assist Messrs. McKinnon & McLean in starting a foundry in that village.  
W.W. COLE, the showman, has donated \$500, through the chairman of the Yellow Fever Relief Committee at Montreal, to be used in alleviating the sufferings of the afflicted at Memphis, Tenn. He is an old resident of Memphis.

CRICKET as the cause.—On Thursday last, while Mr. Wells, G. T. R. yardman Kingston, was coupling cars, his left arm was caught between the drawbars and broken, from the effects of which he died on the following morning.  
PERSONAL.—Mr. D. B. Dingman, formerly known as a member of the legal profession here, has returned to law after a fortnight's sojourn in the region of the Thousand Islands. His holiday trip has proved beneficial to his health as well as a source of pleasurable enjoyment.  
APPOINTMENT.—Through an oversight in reporting minutes of school board last week, we omitted the appointment of Miss Kate Clinie of Listowel to the position of teacher in the third department of the Public School at a salary of \$300 per annum. This appointment is a good one, and more creditable on account of Miss Clinie being a graduate of the educational institutions of our own town.  
FALL WHEAT SHOW.—The North Perth fall wheat show, held at Stratford on Friday last, was largely attended. Prizes were awarded as follows: First, Henry Zimmerman, Dundas; second, Mrs. John Bell, North Easthope; third, Wm. Patterson, North Easthope. The exhibits were all good, the greater number, including the prize wheat, were the same variety. After the exhibition some of the best samples were sold at \$2.40 to \$2.50 per bag.  
EXCURSION TO TORONTO.—A harvest home excursion is announced to take place over the P. D. & L. H. and Grand Trunk Railways to Toronto, on Thursday next, 5th Sept. \$2 pays the fare from Listowel for the round trip, and tickets are good to return by any of the regular trains up to the 12th Sept. inclusive. There will be a good opportunity for viewing the provincial capital, and doubtless it will be well patronized. Trains leave Listowel at 6 a. m.

CRICKET.—Through the activity of the knights of the willow and the tangible support of citizens of the town, the Listowel Cricket Club is being enabled to purchase a new cricket material, and make sundry other improvements in connection with the club. Some two or three challenges are awaiting their trial, which, no doubt, will receive attention as soon as the new outfit arrives. It is contemplated to play a friendly match with the Stratford club on or about the 14th proximo.  
LAST OF THE SEASON.—The last cheap excursion trip of the season over the Great Western road to the Falls, Hamilton and Toronto, is announced for Tuesday next, 3rd Sept. The train will leave Listowel station at 6:45 a. m.; fare \$1.50, children half-price. Parties can start either of the points named, and return again the same day, or for \$1 extra may return by any of the regular trains on the day following. As this is the last it is quite probable that it will find numerous patrons.  
The Listowel Lacrosse Club has completed final arrangements for a lacrosse match to be played here between a team of the Six Nations Indians from (Alcedonia) and the home club. The Indians will also give a grand concert, consisting of Indian war dances and songs, and will perform all the doings and manoeuvres which belong to their race. The date they are to come off has not yet been definitely settled upon, but Friday, 6th Sept. will in all probability be the day, providing the grounds and hall can be secured. Posters will shortly be issued giving full particulars.  
Mr. H. Buchanan, general agent of the Toronto Mail, was in town yesterday, in the interest of that despatching metropolitan newspaper. Since the inception of the Mail its course has been steadily upward, until it now stands at the head of Canadian journalism. Its consistent and powerful advocacy of the best interests of the Dominion have won for it hosts of friends, while as a commercial and general news paper it has assumed a position second to no other—the Globe not excepted. We understand that Mr. A. S. Deavitt has consented to act as agent for it in this vicinity, and that he will receive subscriptions, and transact any other business in connection.

FOX HUNT.—Some forty or fifty of the sport-loving gentry of Listowel indulged in a "fox hunt" a few evenings since. Reynard was started in a clearing east of the town, followed by a pack of five hounds and the party mounted on "shanks mares." After an exciting chase "o'er moor and fen" perhaps, through brake and bramble "more probably, his foxship was brought to bay in a bush something less than a hundred miles distant, and finally succumbed, whether through fright or a prey to his pursuers "dependent say eth not."

A SCENE.—Not a little excitement was created on the street corner one evening this week by an attempt to catch the part of the owner, a farmer from Grey named Broadfoot, and his wife were proceeding homeward. The Balfors' efforts to take possession were strenuously resisted by both Broadfoot and his better half, and it was not until the officer of the law had procured the assistance of a special constable that he succeeded in capturing the team. Doubtless no blame attaches to the bailiff, who was acting in his official capacity, but for the credit of Listowel the less frequently such scenes occur on our public thoroughfares the better.

INCIDENT.—Several gardens in the west end of the town have been more or less damaged this week by cattle getting into them at night. Tuesday morning a large spotted factory would be a great benefit to the town, and a safe investment, and it would bring trade here and increase our population; such an establishment would employ fifty or more hands. He spoke of a party who wished to establish tin manufacturing here, which would furnish employment for twenty-five hands.  
Mr. Austin did not object to more manufacturers coming into the town, but he objected to giving bonuses, as he thought it was the "rottenest system under the sun." He did not believe in creating a supply where there was no demand. His partner and himself had built up their own foundry without any bonus, and he did not feel the idea of bonusing rival establishments to suit the interests of parties who had houses to rent and lots to sell; nor did he think that the establishment of a large foundry here would prevent the importation of foreign implements. He did not think that this was a time to bonus factories, when there was such a general depression in trade; he thought our taxes at ready too high, and that small, healthy business was better than a large, rotten establishment.

Dr. Philp thought that more manufactories were needed, but the question was, how are we to induce them to come here? He thought our taxes heavy enough already, and if we kept going on for five years more as we had been doing during the past, we would be in the same position as Toronto—have to pay 20 mills in the \$.

Dr. Nichol said that the question, "How are we to induce manufacturers to settle amongst us," was an important one. He did not propose to grant a bonus, but he proposed to oppose the granting of a bonus if the people were willing to be exercised; and Listowel afforded excellent facilities to manufacturers, he thought that good might be done by advertising our position and advantages in some of the leading newspapers.  
A motion was introduced by Dr. Philp and seconded by D. B. Campbell, requesting the Council to advertise in the Toronto Mail and Globe the special advantages which Listowel affords for the successful prosecution of manufacturing enterprises. This motion was carried unanimously.

In response to repeated calls, Mr. B. Rothwell addressed the meeting for a short time. He thought that most of the ratepayers were in favor of more manufactories being established among us, but he believed that they were generally opposed to granting any more bonuses. It was true that the establishment which had been lounded in the town was a benefit to the corporation, but he might not always be so successful. He was not inclined to favor any further bonuses unless under peculiar and most favorable circumstances. This concluded the discussion, and the meeting immediately broke up.

ratpayers to grant a bonus of \$20,000 to assist manufacturers of various kinds.  
Mr. D. D. Campbell referred to the fact that the life of our town at the present time was chiefly due to the amount of building going on, and it required carefulness to steer over the present crisis.  
He was in favor of trying to induce manufacturers to settle among us, and for his own part was in favor of granting a bonus, which was established here would be benefited rather than injured by the introduction of others, though under existing circumstances it might not be wise to ask the people to give any more bonuses.  
Mr. John Osborne said that a party who had been speaking in his office had been speaking in the manufacture of biscuits and confectionery in this town, provided that a suitable building for that purpose could be procured. He was in favor of bonuses, as he thought the taxes already too high; and he would rather personally assist an enterprise than impose additional burdens on the public.  
Mr. T. E. Hay was then called upon. He said that every ratpayer of the town was agreed that we wanted more manufactures located here, but how these could be secured was the question. He was in favor of assisting by way of loan rather than by bonus, as he was not in favor of giving a loan one; but there were circumstances under which he would be induced to grant a bonus. He thought some severe control was needed to benefit the town, and a safe investment, and it would bring trade here and increase our population; such an establishment would employ fifty or more hands. He spoke of a party who wished to establish tin manufacturing here, which would furnish employment for twenty-five hands.  
Mr. Austin did not object to more manufactories coming into the town, but he objected to giving bonuses, as he thought it was the "rottenest system under the sun."
