Germany Still Massing Troops on West Front Austrian Troops Expect to Participate in Impending Drive Against Franco-British

Paris, Dec. 12.—"It is common talk in Vienna and throughout Austria," says a letter from Berne, "that Austrian troops will take part on a big scale, in the operations that the Germans are preparing against France in order to obtain a definite result in the west before the American army is ready to prevent the realization of such an enterprize."

Forces on West Front; Design to Pre-

cipitate Decisive Battle of the War

The letter comes from a trustworthy Swiss in Berne, who has passed two years in Austria and it is published in Le Matin.

"I, myself, met in a Prague hotel Austrian non-commissioned officers who told me that they were going to the French front. Without specifying their purpose, they continued: "'Our officers had warned us that as soon as our offensive

This is owing to the food shortage, the lack of men and labor and the internal political troubles.

Other despatches received here from neutral sources indicate the same probability that Germany, faced by political troubles, is going to make a supreme effort in the near future, a last desperate attempt to gain victory before the Americans turn the balance against her.

Want Inquiry. London, Dec. 12.—The Times this corning prints coning a prompt and searching inquiry into the battle on the southern end of the Cambrai salient on November 80 and on the following days, owing, it says, to disquieting first-hand amplifications of censored ac-counts. These are said to inand assertions that the British were caught unready.

"It was perhaps hardly pos-sible from day to day," The Times adds, "and certainly unrimes adds, "and certainly un-wise to attempt an authorita-tive account of the situation as a whole, though we cannot longer be satisfied with the fatuous estimates, for example, of the German losses in men and morale, which have in-spired too many of the pub-lished messages."

In a characteristic whirlwind visit to Brant yesterday, Major-General Sir Sam Hughes, ex-Minister of Militia, addressed enthusiastic meetings in the interests of Col. Harry Cockshutt at Burford, Parkdale and Paris. At each place he was accorded a rousing recention

Aerial Activity Resumed on West Front 201 in Early Part of This Week; British Bombed Enemy Villages and Bavarian Railway Junctions

By Courier Leased Wire.

London, Dec. 12.—There was great activity in the air on Monday, especially in the Cambrai region, according to the official statement on aerial operations issued last midnight. British airplanes dropped bombs on enemy villages and the Germans bomb ed the British area. Five German airplanes were brought down and three English machines are missing. On Tuesday British aviators dropped bombs on a large railway junction, northeast of Pirmasens, in the Bavarian Palatianate, about 100 miles east of Verdun. The statement reads:

"The weather became suitable for flying on Monday and great activity in the air took place on both sides. The enemy's machines were very active west of Cambrai, making repeated attacks on our artillery machines. Our airplanes dropped many bombs and fired many rounds from their machine guns on en-emy villages, hutments and trenches. In the evening hostile ma-chines dropped bombs in our army areas, but only slight damage

"During the day two German airplanes were brought down in air fighting and two others were driven down out of control. An hostile balloon also was brought down and another German airplane was shot down by our infantry. Three of our machines

The Answer.

Parkdale, Dec. 11—(By a Staff Reporter)—Methods adopted by opponents of Col. Harry Cockshutt, the win-the-war candidate for the riding of Brant, were scathingly criticized by Sir Sam Hughes before a large meeting of electors consisting largely of women, held in the Bellview school here last night. Referring to one of the circulars that had been issued informing the electors een issued informing the elector

Theatre Could Not Accommodate Crowd Gathered in Paris

(By a Staff Reporter).

Paris, Dec. 11.—Paris turned out en masse here to-night to welcome Major-General Sir Sam Hughes, ex-Minister of Militia, on his first visit to the town. An overflow meeting was required to accommodate the vast crowd of electors that thronged to hear the veteran soldier who was responsible for raising Canada's first contribution of troops to the war. Sir Sam addressed a first meeting in the Gem Theatre, which was crowded to capacity, and then carried his message of endorsation of Col. THE RECORD OF THE UNION GOVERNMENT

They applished patronage in appointments to Government positions, in the purchase of supplies and in awarding of Government contracts.

Patronage was the Worst Evil in Politics

They controlled the packing houses by ordering that they must not charge a profit of more than two per cent. on their sales—that is to say only two cents profit on a dollar. They passed an order providing that the flour millers can make a profit of only 25c. on each barrel of flour. They stopped the use of grain in the manufacture of liquor.

They stopped expenditures on almost all Public works with the object of conserving our finances for the war. They greatly extended the powers of the Food Controller, giving him practically unlimited authority.

They increased the separation allowance to wives and other dependents of soldiers under the rank of Sergeant from \$20 to \$25 a month.

They are standing no nonsense from the Quebec Exemp tion Tribunals who tried to make a farce of the thing. Thousands of appeals from these Tribunals have been taken by the Government representatives and will be tried promptly. The Government are seeing to it that Quebec does not escape its duty.

They have been in office only eight weeks and have been hampered through having to run an election forced upon the Country by Laurier.
